/Brooklyn College

Working Papers in Ethics and Moral Psychology is a speaker series conducted under the auspices of the Icahn School of Medicine Bioethics Program. It is a working group where speakers are invited to present well-developed, as yet unpublished work. The focus of the group is interdisciplinary, with an emphasis on topics in ethics, bioethics, neuroethics, and moral psychology. The meetings begin with a brief presentation by the invited speaker and the remaining time is devoted to a discussion of the paper. The speakers will make their papers available in advance of their presentation to those who sign up for the Working Papers mailing list.
