/William Paterson University

Working Papers in Ethics and Moral Psychology is a speaker series conducted under the auspices of the Icahn School of Medicine Bioethics Program. It is a working group where speakers are invited to present well-developed, as yet unpublished work. The focus of the group is interdisciplinary, with an emphasis on topics in ethics, bioethics, neuroethics, and moral psychology. The meetings begin with a brief presentation by the invited speaker and the remaining time is devoted to a discussion of the paper. The speakers will make their papers available in advance of their presentation to those who sign up for the Working Papers mailing list.

JOIN THE WORKING PAPERS MAILING LIST AND RSVP TO: nada.gligorov@mssm.edu

NEXT EVENT:
THURSDAY, APRIL 19, 2018, 5:30-7:00PM
ANNENBERG 12-12

Melissa Moschella  
“The Human Organism is Not a Conductorless Orchestra: A Defense of Brain Death as True Biological Death”

Dr. Moschella is an Assistant Professor of Medical Ethics in the Department of Medicine at Columbia University’s College of Physicians and Surgeons. She completed her Ph.D. in Philosophy at Princeton University. Prof. Moschella wrote a book on parental rights in education, in which she sought to establish that parents have a pre-political right to direct the education and upbringing of their children. She is currently writing a book on controversies about the definition of death.
