› THE JAFFE FOOD ALLERGY INSTITUTE

Creating the Future of Food Allergy Treatment and Research

Center of Excellence in Clinical Care

→ **WE PROVIDE A FULL SPECTRUM OF CARE
FOR CHILDREN WITH FOOD ALLERGIES
INCLUDING:**

- comprehensive diagnostics
- state-of-the-art treatment
- opportunities to participate in leading-edge research
- educational services
- nutritional support
- psychosocial support
- special program for eosinophilic disorders
- holistic approach to diagnosis and treatment

Our reach extends far beyond the walls of Mount Sinai: We develop educational materials, programs, and approaches that are used nationally, and educate the clinicians and researchers of tomorrow who carry our message, expertise, and vision across the globe.

Center of Excellence in Research

→ **THE JAFFE FOOD ALLERGY INSTITUTE IS RECOGNIZED NATIONALLY AND INTERNATIONALLY FOR LEADERSHIP AND INNOVATION IN ALL ASPECTS OF FOOD ALLERGY RESEARCH INCLUDING:**

- novel treatments/clinical trials
- basic and translational research
- improved diagnostics
- identification of risk factors and prevention strategies
- epidemiology
- genetics
- food allergy education
- quality of life/psychosocial concerns

Successes: Among numerous scientific advances, Jaffe Institute researchers have:

- identified approaches to speed resolution of food allergies
- brought multiple novel therapeutic strategies (including Chinese herbal treatments, oral immunotherapy, and modified vaccines) from the laboratory to clinical trials
- conducted numerous clinical trials
- improved diagnostic strategies
- documented prevalence rates and potential risk factors for childhood food allergy
- developed educational materials and approaches to care that are used nationally

The Opportunity

→ **OUR ACCOMPLISHMENTS ARE WIDELY RECOGNIZED. BUT WE NEED TO DO MORE.**

Philanthropic support for the Jaffe Institute at Mount Sinai is essential. It enables us to accelerate the advancement of clinical and research efforts that are transforming our understanding of allergies and therapies, and it enables such work to have an impact throughout the world.

There are many ways to support our extraordinary work, including naming and recognition opportunities for donors who would like to make a significant investment in The Jaffe Food Allergy Institute:

- supporting ongoing and planned studies
- expanding the Jaffe Institute team
- professorial chairs that enable us to attract and retain the finest researchers and clinicians
- state-of-the-art equipment and technology
- clinical and research fellowships
- securing the future and sustaining innovation through research

WE ARE LIVING AT A UNIQUE TIME IN HISTORY, WHEN LEADING-EDGE SCIENCE COMBINED WITH VISIONARY ACTS OF PHILANTHROPY CAN FACILITATE SCIENTIFIC ADVANCES PREVIOUSLY UNIMAGINABLE. Breakthroughs are happening across the board and affecting countless people—and those that save and transform the lives of our children are perhaps the most critical.

The Elliot and Roslyn Jaffe Food Allergy Institute at Mount Sinai is a leader in providing the highest level of quality clinical care and in conducting groundbreaking research devoted to finding a cure for life-altering and life-threatening food allergies, especially those faced by children.

To learn more about opportunities to support The Jaffe Food Allergy Institute, please speak to your Institute doctor or contact:
