Smith, Phone 2024930212, Email ewart.smith@dot.gov Since 1972, NCSA's Special Crash Investigations (SCI) Program has provided NHTSA with the most in-depth and detailed level of crash investigation data collected by the agency. The data collected ranges from basic data contained in routine police and insurance crash reports to comprehensivedata from special reports by professional crash investigation teams. Hundreds of data elements relevant to the vehicle, occupants, injury mechanisms, roadway, and safety systems are collected for each of the over 100 crashes designated forstudy annually. SCI cases are intended to be an anecdotal data set useful for examining special crash circumstances or outcomes from an engineering perspective. The benefit of the program is its ability to locate unique real-world crashes anywhere in the country and perform in-depth clinical investigations in a timelymanner that can be used by the Agency to fulfill its mission in support of Federal Motor Vehicle Safety Standards (FMVSS), safety defects investigations, and research. Deadline Dates (ALL)					
Synopsis	<p>A -- Development, Technical, Management, and Engineering Services for Intelligence, Surveillance, and Reconnaissance Systems SOL N66001-17-R-0494 DUE 100517 Point of Contact - Tiffany C Boatwright, Contract Specialist, 619-553-4454; Bryan F Mansfield, Contracting Officer, 619-553-1356 The Department of Navy, Space and Naval Warfare Systems Center, Pacific (SSC Pacific), intends to issue Request for Proposal (RFP) No. N66001-17-R-0494 for program and configuration management, logistics, technical services, systems engineering, algorithm development, hardware and software development, material analysis, data processing, testing, repair, installation, deployment, recovery, and analysis in support of Intelligence, Surveillance, and Reconnaissance (ISR) activities. These ISR activities may include support related to chemical, nuclear, biological, and radiological (CNBR) elements, unmanned ground systems for United States Marine Corps (USMC) applications, as well as Explosive Ordnance Disposal (EOD). The anticipated action will be a multiple award indefinite-delivery indefinite-quantity (IDIQ) contract with cost-plus-fixed-fee (CPFF) and cost pricing arrangements. The period of performance will include a two-year base period and one three-year option period. Orders will be placed pursuant to the ordering process at FAR 16.505(a). The North American Industry Classification System (NAICS) Code is 541330 Engineering Services and the Small Business Size Standard is 38,500,000 employees. Security classification will vary from Unclassified to TOP SECRET classification. This requirement will be competed on a full and open basis. This requirement is a follow-on to the following suite of multiple award contracts: N66001-13-D-0017 (Booz-Allen Hamilton Inc.), N66001-13-D-0018 (DRS Technical Service Inc.), N66001-13-D-0019 (General Dynamics Information Technology), N66001-13-D-0020 (Northrop Grumman Systems Corp.), and N66001-13-D-0021 (Science Applications International Corp). SSC Pacific anticipates that the final RFP for N66001-17-R-0494 will be released no earlier than 18 August 2017. The solicitation will only be available electronically. Electronic copies of the RFP may be obtained from the SPAWAR E-Commerce website at https://e-commerce.spawar.navy.mil under SSC Pacific "Open Solicitations." Hard copy versions of the RFP and any subsequent amendments will not be available. Firms are encouraged to review the website regularly for important solicitation information. Disclaimer: This pre-solicitation notice is for information only and shall not be construed as a commitment by the Government to solicit contractual offers or award contracts. The Government is not soliciting, nor will it accept, proposals as a result of this synopsis. If a competitive solicitation is issued in the future, it will be announced via SPAWAR E-Commerce, and interested parties must comply with that announcement. The Government will not reimburse respondents for any questions submitted or information provided as a result of this notice. This is not a solicitation or a promise to issue a solicitation, and this information is subject to modification and in no way binds the Government to award a contract. 	Program URL	https://www.nsf.gov/pubs/2017/nsf17575/nsf17575.htm			
	Deadline Dates (ALL)				
	Synopsis	<p>NSF's Directorate for Engineering (ENG) and the Directorate for Computer and Information Science and Engineering (CISE) have joined to support the Research Experiences for Teachers (RET) in Engineering and Computer Science program. This program supports active long-term collaborative partnerships between K-12 Science, Technology, Engineering, Computer and Information Science, and Mathematics (STEM) in-service and pre-service teachers, full-time community college faculty, and university faculty and students to enhance the scientific disciplinary knowledge and capacity of the STEM teachers and/or community college faculty through participation in authentic summer research experiences with engineering and computer science faculty researchers. The research projects and experiences all revolve around a focused research area related to engineering and/or computer science that will provide a common cohort experience to the participating educators. The K-12 STEM teachers and/or full-time community college faculty also translate their research experiences and new scientific knowledge into their classroom activities and curricula. The university team will include faculty, graduate and undergraduate students as well as industrial advisors. Involvement of graduate students in support of academic-year classroom activities is particularly encouraged. Partnerships with inner city, rural or other high needs schools are especially encouraged, as is participation by underrepresented minorities, women, veterans, and persons with disabilities. As part of the long-term partnership arrangements, university undergraduate/graduate students will partner with pre-college/community college faculty in their classrooms during the academic year to support the integration of the RET curricular materials into classroom activities. This announcement features two mechanisms for support of in-service and pre-service K-12 STEM teachers and full-time community college faculty: RET supplements to ongoing ENG and CISE awards and new RET Site awards. RET supplements may be included outside this solicitation in proposals for new or renewed ENG and CISE grants or as supplements to ongoing ENG- and CISE-funded projects. RET in Engineering and Computer Science Sites, through this solicitation, are based on independent proposals from engineering and/or computer and/or information science departments, schools or colleges to initiate and conduct research participation projects for K-12 STEM teachers and/or full-time community college faculty.</p>

- I. Avenir Award Program for Genetics or Epigenetics of Substance Use Disorders (DP1) [PAR-16-357](#)

Application Receipt Date(s): October 19, 2017; October 19, 2018, by 5:00 PM local time of applicant organization

Funding Opportunity Purpose

Avenir means future in French, and this award looks toward the future by supporting early stage investigators proposing highly innovative studies. The award will support those in an early stage of their career who may lack the preliminary data required for an R01 grant, but who propose high impact research and who show promise of being tomorrow's leaders in the field. NIDA has developed two Avenir Award Programs, one for HIV/AIDS research and the other for genetics or epigenetics studies.

The Genetics or Epigenetics of Substance Use Disorders Avenir Award program supports early stage investigators proposing highly innovative studies that open new areas of research for the genetics or epigenetics of addiction. These may be novel methods or approaches that can potentially be applied to the analysis of the genetics or epigenetics of addiction. Investigators outside the field of addiction interested in applying their novel approaches to the genetics or epigenetics of addiction are encouraged to apply. The award will support those in an early stage of their career who may lack the preliminary data required for an R01 grant, but who propose high impact research and who show promise of being tomorrow's leaders in the field of genetics or epigenetics of substance use disorders.

- II. Identification of Genetic and Genomic Variants by Next-Gen Sequencing in Non-human Animal Models (U01) ([PAR-15-120](#))

National Institute on Drug Abuse

Application Receipt Date(s): October 20, 2017; March 1, 2018, by 5:00 PM local time of applicant organization

Funding Opportunity Purpose

This announcement encourages applications for projects aimed at the discovery of gene variants in outbred or selectively bred non-human animals through the use of Next-Gen Sequencing technologies. The proposed projects should be based on data demonstrating the relevance of the traits to drug abuse behaviors and processes of addiction. Investigators may employ previously selectively bred animals, re-derived strains, strains selected for some specific new phenotypes, beginning with a novel progenitor population, or an outbred population. Vulnerability phenotypes, for purposes of this FOA, are defined as individual differences that convey increased propensity to acquire, maintain or escalate to uncontrollable, compulsive drug intake, or increased vulnerability to relapse to drug seeking and drug-taking following a period of abstinence. Vulnerability phenotypes may be defined behaviorally or neurobiologically, must have demonstrated heritability, and be suitable for mapping in outbred or selectively bred strains. The following are examples of vulnerability phenotypes that have been characterized behaviorally which would be appropriate for study; however, this is not an inclusive listing and there may be others:

High drug sensitivity, reactivity or preference

Preference or sensitivity for non-drug rewards

Somatic and affective drug withdrawal

Novelty preference or novelty seeking

Increased incentive motivation for reward-related stimuli

Sensitivity to develop escalation of drug taking

Impulsivity

Poor cognitive flexibility (e.g., reversal learning, set shifting, etc.)

Resistance to punishment during drug-seeking

Persistent responding in the absence of drug

Heightened relapse and reinstatement

Enhanced stress reactivity

Disrupted circadian rhythms

III. Pharmacogenomics of Anti-retroviral Therapy in People Who Inject Drugs (R01) ([RFA-DA-18-014](#))

National Institute on Drug Abuse

Application Receipt Date(s): December 14, 2017, by 5:00 PM local time of applicant organization.

Funding Opportunity Purpose

Antiretroviral therapies have been effective in treating HIV infection. However, variable responses to anti-retroviral therapy result from genetic variants affecting drug disposition, drug penetration, drug metabolism, drug interactions with drugs of abuse, off-site drug targets and adherence. Induction of enzymes and drug transporters in active drug users and those that relapse may affect treatment efficacy. The identification of genetic variants that affect HIV treatment toxicity such as CNS side effects, liver and renal failure has broad implication for improving treatment outcomes for the treatment of HIV in people who inject drugs. In addition predicting which drug regimen will ensure greatest recovery of CD4 function and prevent cognitive decline. This initiative will use genome sequencing strategies and genome wide association methods to identify genetic variants affecting the pharmacokinetics, pharmacodynamics, and HIV treatment toxicities in people who inject drugs. The research questions to be answered by this initiative are How do genetic variants affect the response to anti-retroviral therapy in people who are injecting drugs?

- How does injection drug use affect the pharmacokinetics and pharmacodynamics of anti-retrovirals in people who inject drugs both during active use and during abstinence?
- What genetic and epigenetic factors predict the greatest recovery of CD4+ function and prevent cognitive decline in injecting drug users in response to antiretroviral HIV therapy?
- How does impulsivity such as measured by delayed discounting affect compliance to anti-retroviral therapy? Are there genetic or epigenetic variants that are associated with delayed discounting that impact compliance?

IV. HIV-associated neuropathic pain and opioid interaction (R01) ([RFA-DA-18-015](#))

National Institute on Drug Abuse

Application Receipt Date(s): December 18, 2017, by 5:00 PM local time of applicant organization.

Funding Opportunity Purpose

In this FOA, NIDA seeks to promote research investigating the underlying mechanisms by which opioids, including prescription drugs, exacerbate HIV-associated neuropathic pain. Results from these studies may help obtain information for the development of safe and effective treatments of neuropathic pain for HIV-infected patients exposed to opioids.

Note: The choice of biological system for the proposed investigations should be well justified. Applicants may propose studies that investigate body fluids or cells/tissues from human patients or non-human primates. Other models may be used (e.g. primary cells, cell lines, or animal models), but applicants

should provide a strong justification for their choice of model system. Also a rationale should be developed for why these studies will provide foundational knowledge to eventually develop safe and effective treatments of neuropathic pain for HIV-infected patients exposed to opioids.

Applications proposing drug development or NIH-defined clinical trials will not be accepted and will be withdrawn without review.

Topics appropriate for this FOA include but not are limited to the following:

The following studies are suggested for investigating the underlying mechanisms by which opioids exacerbate HIV-associated neuropathic pain.

- Studies designed to understand the role of ion channels such as sodium and calcium
- Studies dissecting the relative roles of glutamatergic and GABAergic signaling
- Studies of the role of glia cells (microglia and astrocytes) and perivascular macrophages or neuronal-glia cross talk
- Evaluations of the role of inflammatory cytokines and chemokines
- Investigations of the role of TLR4 signaling
- Studies of the contributory role of gut-derived bacterial endotoxin
- Studies dissecting interacting effects of HIV, Opioids, and ART
- Investigating the impact of genetic variants of opioid receptors
- Investigating potential epigenetic mechanisms

V. Short Course on the Genetics of Addiction at The Jackson Laboratory in Bar Harbor, Maine September 10-16, 2017

www.jax.org/addiction

Registration [scholarships are available!](#) Go to [scholarship link](#) for more details on awards. Registration Fee: \$1500 or reduced rate with Scholarship Award.

Fee includes all meals and lodging at The Highseas Conference Center.

Event Contact: Erin McDevitt; erin.mcdevitt@jax.org or 207-288-6659

This JAX short course brings together world-renowned experts in addiction, human genetics, and mouse genetics. Through a combination of lectures and hands-on computational modules, the course will feature:

- New methods and applications of mouse genetics to addiction,
- Genetic and bioinformatics approaches to augment behavioral studies, and
- Techniques for analyzing human genetic studies of addiction.

The course also provides key opportunities to network with students, researchers, and other professionals; and explore potential scientific collaborations.

Genetics of Addiction is geared toward students of all experience levels, from undergraduate and graduate students who seek an introduction to the field, to experienced addiction researchers who wish to hone their genetic skills and knowledge. Course attendees are invited to bring their own data for analysis during the hands-on laboratory sessions.

Don't miss this unique opportunity to learn the latest tools and approaches in addiction and genetic research, allowing students and researchers alike to return to their own communities and make meaningful contributions to science and society.

This course is supported by a grant from the National Institutes on Drug Abuse under Award Number R13DA032192

Subject: DoD Reconstructive Transplant Research Program Funding Opportunities

**Defense Health Program
Department of Defense Reconstructive Transplant Research Program
Funding Opportunities for Fiscal Year 2017 (FY17)**

The FY17 Defense Appropriations Act provides \$12 million (M) to the Department of Defense Reconstructive Transplant Research Program (RTRP) to support research of exceptional scientific merit that has the potential to make a significant impact on improving the function, wellness, and overall quality of life for injured military Service members and Veterans, their caregivers and family members, and the American public. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency (DHA) J9, Research and Development Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP).

FY17 RTRP Program Announcements and General Application Instructions for the following award mechanisms are posted on the Grants.gov website.

Focus Areas: The FY17 RTRP encourages research projects that specifically address needs in the field of vascularized composite allotransplantation (VCA) in the following focus areas:

1. Immune system regulation as specifically applied to VCA
2. Psychosocial considerations and challenges associated with VCA
3. Develop ex vivo VCA tissue preservation techniques or technologies to extend the time between procurement and transplantation (goal: 24 hours)
4. Develop pre-habilitation or rehabilitation strategies that improve reconstructive transplant functional outcomes
5. Develop standardized quantitative functional outcome measures for VCA, especially for face transplant
6. Graft clinical monitoring – acute and chronic, as applied to VCA

Concept Award – Letter of Intent due November 15

- Investigators at or above the level of postdoctoral fellow (or equivalent)
- **Pre-application (Letter of Intent) is required.**
- Supports **the exploration of a highly innovative new concept or untested theory** that addresses an important problem relevant to reconstructive transplant.
- **Preliminary data are NOT allowed.**

- Reviewers at both tiers of review will be blinded to the identity of the Principal Investigator (PI), collaborators, and their organizations.
- Applications must address at least one of the FY17 RTRP Focus Areas.
- Maximum funding of **\$200,000** for total costs (direct plus indirect costs)
- Maximum period of performance is **18** months

Investigator-Initiated Research Award – Preproposal due September 20

- Independent investigators at all academic levels (or equivalent)
- **Preproposal is required; full application submission is by invitation only.**
- Supports studies with potential to make an important contribution to the reconstructive transplant research field, patient care, and/or quality of life.
- **Preliminary or published data required.**
- **Multiple PI Option** supports synergistic partnerships among two to four investigators collaborating on a single application; multi-institutional collaborations are encouraged
- Applications must address at least one of the FY17 RTRP Focus Areas.
- **Individual PIs:**
 - Maximum funding of **\$1 million (M)** for total costs
 - Maximum period of performance is **3** years
- **Multiple PI Option:**
 - Maximum funding of **\$1.5M** for total costs
 - Maximum period of performance is **3** years

Technology Development Award – Preproposal due September 20

- Independent investigators at all academic levels (or equivalent)
- **Preproposal is required; full application submission is by invitation only.**
- Supports research critical for the translation of promising preclinical findings into products focused on reconstructive transplantation.
- Proof of concept **must be** established.
- Transition plan is **required**.
- Applications must address at least one of the following FY17 RTRP Focus Areas:
 - Develop ex vivo VCA tissue preservation techniques or technologies to extend the time between procurement and transplantation (goal: 24 hours)
 - Graft clinical monitoring – acute and chronic, as applied to VCA
- Maximum funding of **\$1M** for total costs
- Maximum period of performance is **3** years

Qualitative Research Award – Preproposal due September 20

- Independent investigators at all academic levels (or equivalent)
- **Preproposal is required; full application submission is by invitation only.**
- Supports qualitative research studies that will help researchers and clinicians to better understand the experiences of individuals who are considering or have already received reconstructive transplant surgery.
- Demonstrated qualitative research experience within the research team is required.
- Theoretical perspective of qualitative research must be identified.
- Rigorous and appropriate data collection and data analyses methods are important components.
- **Multiple PI Option** supports synergistic partnerships among two to four investigators collaborating on a single application; multi-institutional collaborations are encouraged.
- Applications must address the following FY17 RTRP Focus Area:
- Psychosocial considerations and challenges associated with VCA
- **Individual PIs:**
 - Maximum funding of **\$1M** for total costs
 - Maximum period of performance is **3** years
- **Multiple PI Option:**
 - Maximum funding of **\$1.5M** for total costs
 - Maximum period of performance is **3** years

A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at <https://eBRAP.org> prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

Applications must be submitted through the federal government's single-entry portal, Grants.gov. For email notification when Program Announcements are released, subscribe to program-specific news and updates under "Email Subscriptions" on the eBRAP homepage at <https://eBRAP.org>. For more information about the RTRP or other CDMRP-administered programs, please visit the [CDMRP website](http://cdmrp.army.mil) (<http://cdmrp.army.mil>).

JUST RELEASED! FY17 DoD BCRP and RTRP Program Announcements

This e-mail is to notify the research community of the recently released Fiscal Year 2017 (FY17) funding opportunities for the Department of Defense (DoD) Breast Cancer Research Program (BCRP) and the Reconstructive Transplant Research Program (RTRP) being managed by the office of Congressionally Directed Medical Research Programs (CDMRP).

Breast Cancer Research Program

Breakthrough Award Levels 1 and 2
Breakthrough Award Levels 3 and 4
Breakthrough Fellowship Award
Distinguished Investigator Award
Era of Hope Scholar Award
Innovator Award

Reconstructive Transplant Research Program

Concept Award
Investigator-Initiated Research Award
Qualitative Research Award
Technology Development Award

Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the [Grants.gov](http://www.grants.gov) website (<http://www.grants.gov>), the CDMRP website (<http://cdmrp.army.mil/funding/prgdefault.shtml>) and the electronic Biomedical Research Application Portal (eBRAP) (<https://eBRAP.org>).

All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (<http://cdmrp.army.mil>).

Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the [Grants.gov](http://www.grants.gov) website by performing a basic search using CFDA Number 12.420.

Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP (<https://eBRAP.org/>). Full applications from extramural organizations (non-DoD organizations) must be submitted through [Grants.gov](http://www.grants.gov) (<http://www.grants.gov/>). Intramural DoD organizations may submit full applications to either eBRAP or [Grants.gov](http://www.grants.gov). Refer to the General Application

Instructions, Section II.A. for registration and submission requirements for eBRAP and [Grants.gov](https://grants.gov). For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity.

eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the [Grants.gov](https://grants.gov) application submissions associated with them. eBRAP will validate [Grants.gov](https://grants.gov) application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

Please do not respond directly to this message. To be added or removed from this email list please use the "Subscribe/unsubscribe to program specific news and updates" at <https://ebrap.org>.

DoD Funding PreAnnouncement for the Orthotics and Prosthetics Outcomes Research Award**Defense Health Program
Department of Defense Orthotics and Prosthetics Outcomes Research Program
Funding Opportunities for Fiscal Year 2017 (FY17)**

The FY17 Defense Appropriations Act provides \$10 million (M) to the Department of Defense Orthotics and Prosthetics Outcomes Research Program (OPORP) to support research that evaluates the comparative effectiveness of orthotic and prosthetic clinical interventions using patient-centric outcomes for Service members and Veterans who have undergone limb amputation. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency (DHA) J9, Research and Development Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP).

The OPORP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY17 OPORP Program Announcements and General Application Instructions for the following award mechanisms are anticipated to be posted on the [Grants.gov](https://www.grants.gov) website in September 2017. Pre-application and application deadlines will be available when the Program Announcement is released. This pre-announcement should not be construed as an obligation by the government.

Focus Areas: The OPORP will only consider applications that specifically address the critical needs of the Orthotics and Prosthetics Outcomes research community in one or more of the FY17 Focus Areas. The OPORP will solicit research applications that address at least one of the following FY17 Focus Areas:

- Orthotic or Prosthetic Device Form: Analysis of variables related to currently available clinical options such as, but not limited to, device size, shape, material, and configuration.
- Orthotic or Prosthetic Device Fit: Analysis of currently available clinical options that facilitate device fit-related characteristics such as comfort and usability through variables such as human-device interface and component connection.
- Orthotic or Prosthetic Device Function: Analysis of the variables related to currently available clinical options such as device control, passive response, active/actuated response, power, sensors, overall performance with respect to activities of daily living and other real-world activities.

Orthotics and Prosthetics Outcomes Research Award

Funding Level 1/New Investigators: Investigators that meet the following criteria at the application submission deadline date:

- Are within 5 years of their last training position
- Are able to demonstrate the freedom to pursue research goals outside of a formal mentorship program or arrangement
- Can provide evidence of organizational support, such as start-up funds provided by the institution and/or use of a technician, space, facilities, and resources
- PIs working within a laboratory team are eligible to apply for this award, provided they meet the criteria above.
- Graduate students and postdoctoral fellows are **not** eligible for this award.

Funding Level 2: Independent investigators at all academic levels (or equivalent) are eligible to submit applications.

Funding Level 1/New Investigator Option may support pilot research or research that is already supported by preliminary data and has the potential to make significant advancements toward clinical translation.

Funding Level 2 Option is supported by preliminary data and has the potential to make significant advancement towards clinical translation.

The OPORA is focused on outcomes-based best practices through analysis of the merits of prosthetic and orthotic device options currently available, not on the development of new, or the improvement of existing, technology. The intent of the award is to generate clinically useful evidence that will enhance and optimize patient outcomes.

Animal studies are **not** allowed.

Funding Level 1/ New Investigators:

- Maximum funding of **\$500,000** for total costs.
- Maximum period of performance is **3** years.

Funding Level 2:

- Maximum funding of **\$2.5M** for total costs.
- Maximum period of performance is **4** years

- All direct and indirect costs of any subaward (subgrant or subcontract) must be included in the total direct costs of the primary award. The applicant may request the entire maximum funding amount for a project that may have a period of performance less than the maximum number of years allowed per funding level.

A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at <https://eBRAP.org> prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the [Grants.gov](https://grants.gov) website. The application package containing the required forms for each award mechanism will also be found on [Grants.gov](https://grants.gov). A listing of all CDMRP funding opportunities can be obtained on the [Grants.gov](https://grants.gov) website by performing a basic search using CFDA Number 12.420.

Applications must be submitted through the federal government's single-entry portal, [Grants.gov](https://grants.gov). Submission deadlines are not available until the Program Announcements are released. For email notification when Program Announcements are released, subscribe to program-specific news and updates under "Email Subscriptions" on the eBRAP homepage at <https://eBRAP.org>. For more information about the OPORP or other CDMRP-administered programs, please visit the [CDMRP website](http://cdmrp.army.mil) (<http://cdmrp.army.mil>).

Subject: DoD Hearing Restoration Research Program Preannouncement

**Defense Health Program
Department of Defense Hearing Restoration Research Program
Funding Opportunities for Fiscal Year 2017 (FY17)**

The FY17 Defense Appropriations Act provides \$10 million (M) to the Department of Defense Hearing Restoration Research Program (HRRP) to support promising, necessary research for the treatment of burdensome and very prevalent auditory system injury that will foster new directions in the field of hearing restoration and propel the science forward to therapeutic interventions that restore auditory function. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency (DHA) J9, Research and Development Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP).

The HRRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY17 HRRP Program Announcements and General Application Instructions for the following award mechanisms are anticipated to be posted on the Grants.gov website in September 2017. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.

Focus Areas: The HRRP will only consider applications that specifically address the critical needs of the Hearing restoration research community in one or more of the FY17 Focus Areas. The HRRP will solicit research applications that address at least one of the following FY17 Focus Areas:

- Develop reliable in vitro human models for evaluating hearing restoration therapies
- Accelerate translation of biological regeneration into therapies that restore auditory function including, for example, treatments that enhance:
 1. Synaptic plasticity
 2. Hair cell and neural regeneration

- Develop and validate assessment techniques and/or treatment methods that address functional hearing restoration including, for example:
 1. Personalized prognostic indicators of therapeutic success
 2. Better differential diagnostic tests
 3. Improved evaluation of treatment methods

Translational Research Award (TRA)

- Independent investigators at all academic levels (or equivalent) are eligible to submit applications.
- Pre-application (Letter of Intent) is required.
- Supports preclinical translational research that will accelerate the movement of promising initiatives relevant to hearing restoration into clinical applications.
- In this first year of the program, applications submitted must focus on the development of reliable in vitro human models to evaluate hearing restoration therapies or research that translates biological regeneration initiatives into therapies that restore auditory function.
- Preliminary data required.
- Maximum funding of \$1,000,000 for direct costs (plus indirect costs).
- Maximum period of performance is 3 years.
- Indirect costs may be proposed in accordance with the institution's rate agreement.

Focused Research Award (FRA)

- Independent investigators at all academic levels (or equivalent) are eligible to submit applications.
- Pre-application (Letter of Intent) is required.
- Supports functional hearing restoration research that develops and validates assessment techniques and treatment methods using patient-centric outcomes to identify potential predictive indicators for successful treatment of functional auditory system deficits.
- Research in this area should result in refined diagnostic tools and improved evaluation of the effectiveness of therapeutic approaches for functional hearing restoration.
- Preliminary data required
- Maximum funding of \$750,000 for direct costs (plus indirect costs).
- Maximum period of performance is 3 years.
- Indirect costs may be proposed in accordance with the institution's rate agreement.

A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at <https://eBRAP.org> prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. For email notification when Program Announcements are released, subscribe to program-specific news and updates under "Email Subscriptions" on the eBRAP homepage at <https://eBRAP.org>. For more information about other CDMRP-administered programs, please visit the [CDMRP website](http://cdmrp.army.mil) (<http://cdmrp.army.mil>).

Subject: Cancer Moonshot Update: Funding Opportunity Announcements

NATIONAL CANCER INSTITUTE

www.cancer.gov

Dear Colleagues,

Earlier this year I told you about a number of funding opportunity announcements (FOAs) that aligned with the goals of the Cancer MoonshotSM.

Since then, implementation teams across NCI have been actively developing additional approaches to accelerate cancer research through the funding enabled by the Cancer Moonshot. I am pleased to report that nine FOAs that directly address the Cancer Moonshot Blue Ribbon Panel recommendations have been approved by the NCI Board of Scientific Advisors. These funding opportunities will be published in the months ahead with anticipated funding in fiscal year 2018.

Please visit the [Upcoming Cancer Moonshot Funding Opportunities](#) webpage to learn more. Also, please share this information with colleagues who may be interested in applying. We look forward to a robust response to these opportunities, and the progress that they will enable.

Doug

Douglas R. Lowy, M.D.
Acting Director

Subject: Investigators Still Needed TURBT Adjuvant Bladder Cancer Study ILS 17-105

Investigator Location Services (ILS), a study broker, has identified a clinical trial opportunity for you. A company has IMMEDIATE need of US and Canadian Urology and Oncology investigators for an upcoming study.

STUDY #: ILS 17-105

PHASE: III

DISEASE: Non-muscle Invasive Bladder Cancer

DESCRIPTION: Double blind, placebo controlled study to evaluate the efficacy and safety of an investigational chemotherapy adjuvant drug in patients with Non-muscle Invasive Bladder Cancer treated with Transurethral Resection of Bladder Tumors.

KEY INCLUSION CRITERIA:

1. Patient must have a clinical diagnosis of low- to intermediate-risk NMIBC according to the 2016 American Urological Association (AUA) Guidelines, except for strongly-suspected PUNLMP.
2. Patient is at least 18 years of age and less than 90 years of age at the time Informed Consent is signed.

EXCLUSION CRITERIA:

1. Patient has malignancy or life threatening systemic disease or a history of advanced, serious, life- threatening malignancy/disease within the last 5 years, except very low-risk prostate cancer
2. Patient has had a surgical procedure 4 weeks prior to TURBT or will have other surgical procedures performed at the time of TURBT or within 4 weeks after TURBT
3. Patient has ever had confirmed extravesical urothelial disease (upper tract and urethral including prostatic urethral)
4. Patient with a history of previous bladder cancer:
 - High-Risk NMIBC as classified per the 2016 AUA Guidelines
 - Bladder cancer that was muscle invasive or positive for lymph node or distant metastasis

PATIENTS PER INVESTIGATOR: 2 to 5 enrolled in 24 months.

INVESTIGATOR GRANT: US\$9,500 per patient for a total possible grant of US\$19,000-US\$47,500.

ILS BROKER AGREEMENT:

ILS will submit your credentials to the sponsor. The sponsor will provide the protocol. If you are selected and agree to conduct the study, you agree to pay ILS a Marketing Fee according to the terms of the attached ILS Agreement. If you do not conduct the study, you owe nothing to ILS.

If you wish to review the protocol and be considered for this study, please do the following:

1. Sign the attached ILS Agreement
2. Complete the attached Site Questionnaire
3. Fax the ILS Agreement and Site Questionnaire to (413) 410-0120.
4. Email the Investigator CV to nsuazo@invlocate.com (please indicate ILS Project 17-105 in Subject of email)

Speed is of the essence and the number of investigators is limited. Please evaluate this study opportunity and respond as soon as possible.

You may include a cover Fax that addresses your specific experience and capabilities for this study and ILS will submit it and your CV to the sponsor. Sponsor will provide a protocol for your final determination on proceeding with the Study. ILS will follow up with the sponsor to determine their choice of investigators.

ILS will seek additional study opportunities for your consideration. A list of the current studies we are recruiting investigators for can be found at https://urldefense.proofpoint.com/v2/url?u=http-3A_www.invlocate.com&d=DwlFaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=upmZz-I42xUweHCnmFS8vA&m=OAhC-U6vDtfif-sN-qFtslZ5oB6N3-5-4TPDeetPnZU&s=9HgXxEz95h-wK8_AN06O9R_scMgGe5nVQU8rZ4tjX4&e= . We wish you continued success in your research activities.

Subject: New NYSHealth Funding Opportunity: Sponsoring Conference Participation

New NYSHealth Funding Opportunity: Sponsoring Conference Participation in Support of Healthy Communities, Consumer Empowerment, and Veterans' Health

The New York State Health Foundation (NYSHealth) is pleased to launch a Request for Proposals (RFP): [Sponsoring Conference Participation in Support of Healthy Communities, Consumer Empowerment, and Veterans' Health](#). Many organizations across the State are doing smart, innovative work that is relevant to NYSHealth's priority areas of **Building Healthy Communities** and **Empowering Health Care Consumers** and its focus area on **Veterans' Health**. These organizations should be elevating their work and informing key stakeholders at conferences and other convenings in New York and nationally. Yet, because of a lack of resources, they are often unable to do so.

Through this RFP, NYSHealth will sponsor community-based organizations, health departments, and other low-resource organizations to attend and present at local, State, and national

conferences related to these funding areas. Applications will be accepted on a rolling basis.

[Read details on the RFP and apply.](#)

New York State Health Foundation, 1385 Broadway, 23rd Floor, New York, NY 10018

Subject: 2017-18 ACLS Fellowship and Grant Competitions Now Open

ACLS Fellowship and Grant Programs

Greetings from ACLS!

We are pleased to announce that the 2017-18 ACLS competitions are now open for many programs. ACLS offers fellowship and grant programs that promote the full spectrum of humanities and humanistic social sciences research and support scholars at the advanced graduate student level through all stages of the academic career. Comprehensive information and eligibility criteria for all programs can be found at www.acls.org/programs/comps <https://urldefense.proofpoint.com/v2/url?u=http-3A_www.acls.org_programs_comps&d=DwQBaq&c=shNjtf5dKgNcPZ6Yh64b-A&r=6XQYpEBTidKhb3QLqbM0d30lmmD25JMixaAa8pRthtHY&m=XbeNn-6o9g4mGAbld4am-9WB9nykxJewLVIB5f4-17E&s=18tWGNb90a7b_6jPiYuhaWe_JDCVD0hfZ6uU7xfe4GA&e=>>.

Application deadlines vary by program:

September 27, 2017

ACLS Fellowships (the central program, which includes several joint and named awards) ACLS Collaborative Research Fellowships Frederick Burkhardt Residential Fellowships for Recently Tenured Scholars (including opportunities specifically for liberal arts college faculty)

October 25, 2017

Getty/ACLS Postdoctoral Fellowships in the History of Art Luce/ACLS Dissertation Fellowships in American Art Luce/ACLS Program in Religion, Journalism & International Affairs – Fellowships for Scholars Mellon/ACLS Dissertation Completion Fellowships

November 2, 2017

African Humanities Program

November 8, 2017

Luce/ACLS Predissertation-Summer Travel Grants in China Studies Luce/ACLS Postdoctoral Fellowships in China Studies Luce/ACLS Collaborative Reading-Workshop Grants in China Studies Comparative Perspectives on Chinese Culture and Society (grants for planning meetings, workshops, and conferences) – pending renewal of funding

November 15, 2017

The Robert H. N. Ho Family Foundation Dissertation Fellowships in Buddhist Studies The Robert H. N. Ho Family Foundation Postdoctoral Fellowships in Buddhist Studies The Robert H. N. Ho Family Foundation Research Fellowships in Buddhist Studies The Robert H. N. Ho Family Foundation Grants for Critical Editions and Scholarly Translations

January 10, 2018

The Robert H. N. Ho Family Foundation New Professorships in Buddhist Studies

March 2018 (date TBA)

Mellon/ACLS Public Fellows

The American Council of Learned Societies is the leading private institution supporting scholars in the humanities. In the 2016-17 competition year, ACLS awarded over \$20 million to more than 325 scholars worldwide. Recent fellows' and grantees' profiles and research abstracts are available at www.acls.org/fellows/new <https://urldefense.proofpoint.com/v2/url?u=http-3A__www.acls.org_fellows_new&d=DwQBaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=6XQYpEBTidKhb3QLqbM0d30lmmD25JMixaAa8pRthtHY&m=XbeNn-6o9g4mGAbld4am-9WB9nykxJewLVIB5f4-17E&s=s6dJwnr2_mOfaSPE8gYdfMSQa-WXKXyEvitD5pOTp30&e=>>. The 2017-18 season promises to be equally successful!

Subject: Introducing OnPAR - a new Funding Opportunity

Dear MSSM Team,

I write to introduce [OnPAR - Online Partnership to Accelerate Research](#) – see below.

Note: I'll be presenting at [NCURA Annual Meeting](#) in DC on August 9: 10:30 – 12:00

The goal of OnPAR is to fund highly scored unfunded applications from NIH, NSF, FDA, CDC, DOE, NASA and other funding agencies –national and international.

Internationally, the EU Commission, E-rare (conglomerate of 26 EU government funding agencies), UK MRC and Innovate UK, Canada CIHR, Aus NHMRC, Japan AMED, NASA, the Department of Energy will start joining in the Fall – some have already confirmed.

A few potential funders have already joined, for example: Daiichi Sankyo (Pain, Neuro, Oncology, Immunity), the Breast Cancer Research Foundation, Cure Alzheimer's Fund (new, we'll announce soon) Epilepsy Foundation, and JDRF. Other funders (private foundations, pharmaceuticals) in different research areas will join soon, so I am encouraging all investigators to submit their material asap.

Note: Funders follow their standards policies and procedure to fund. OnPAR/Leidos do not want any IP.

Also, please suggest and I welcome the introduction to other potential funders you think I should approach, either private foundations and/or pharmas, biotech and VC.

We will also be getting sponsors soon and we'll fund (or bridge fund) directly.

I would appreciate it if you can make this information available to others at your school.

For applicants the application process will take 5 minutes – [here](#):

1. [Basic Registration](#) - [here](#)
2. [Submission of Public Abstract](#): This is the public abstract that is submitted with the NIH application for example
3. [Submission of Applications, Peer-Review and NDA](#): if there is a match (funders review for interest), then, we request the full application, the peer-review received from NIH (or other agencies) and a signed Non Disclosure Agreement (we provide). We don't require investigators to re-write the unfunded application.

Once potential funders review, they will contact the investigator directly to discuss a partnership and funding.

[It is free for all investigators to submit their material.](#)

About OnPAR

[OnPAR – Online Partnership to Accelerate Research.](#) - here is a [one-page summary](#).

We launched OnPAR last March with the National Institute of Health to match high-scoring “unfunded applications” with non-government organizations. OnPAR with Dimensions covers all NIH and all grants mechanisms from fellowships, R01 (Basic Research) to SBRI/STTRs (Small Business Phase I/II).

The original idea was to collect highly scored unfunded applications and find non-gov organization open to review and potentially fund these projects. OnPAR is now the only platform providing a window into research projects that are not in the public domain – then, allowing organizations to find partners/assets but also de-risk their internal/external R&D and/or funding decisions.

We are in the process of expanding to other US agencies, i.e., NSF, DoD, CMS, NASA, DOE, and others, and internationally, Canada (CIHR), UK (MRC), Australia (NHMR), EU Commission, Japan (AMED), Singapore A-STAR and others.

Here are some publications about OnPAR:

1. Science Translational Medicine Editorial
Funding unfunded NIH research applications
2. Here is our latest publication from last week: “Funding Research Through the Online Partnership to Accelerate Research (OnPAR)”, is now available in *JACC: Basic to Translational Science*. You can access the article by clicking on the following link: <http://basictranslational.onlinejacc.org/content/1/6/536>
3. NIH blog from Mike Lauer - A Pilot Partnership to Find Private Support for Unfunded Applications

A snapshot of OnPAR in the news:

New funding matchmaker will cater to NIH rejects Science here

AAMC News - Program Provides Alternative Path to Funding for Research Grants

Harvard Office of Sponsored Project – OnPAR: A Second Chance for Unfunded NIH Proposals

OnPAR - Online Partnership to Accelerate Research -(with Dimensions) is the only global platform with access to:

- Global highly scored ‘unfunded’ research applications
- Global funded applications (+3.4M and +\$1T funding), including US, EU, Japan, Russia, China, Africa and others
- Global publications (+26M)
- Patents (+80 patents offices)
- Social Media

Subject: Investigators Needed for P. Aeruginosa Pneumonia Study ILS 17-150

Investigator Location Services (ILS), a study broker, has identified a clinical trial opportunity for you. A company has IMMEDIATE need of US and Canadian Critical Care investigators or Infectious Disease or Pulmonary investigators with ICU Access for an upcoming study.

STUDY #: ILS 17-150

PHASE: II

DISEASE: P. Aeruginosa Pneumonia

DESCRIPTION: 4 week double blind, placebo controlled study to evaluate the efficacy and safety of an investigational adjunct treatment in addition to standard of care antibiotics in patients with P. Aeruginosa Pneumonia.

INCLUSION CRITERIA:

1. Male or female 18 Years and older
2. pneumonia due to P aeruginosa
3. intubated
4. APACHE II score between 10 and 35

EXCLUSION CRITERIA:

1. being moribund
2. effective antibiotic therapy for 48 or more hours
3. immunocompromised
4. underlying pulmonary disease that may preclude the assessment of a therapeutic response

PATIENTS PER INVESTIGATOR: 2 or more enrolled in 12 months.

INVESTIGATOR GRANT: US\$15,000 per patient for a total possible grant of US\$30,000+

ILS BROKER AGREEMENT:

ILS will submit your credentials to the sponsor. The sponsor will provide the protocol. If you are selected and agree to conduct the study, you agree to pay ILS a Marketing Fee according to the terms of the attached ILS Agreement. If you do not conduct the study, you owe nothing to ILS.

If you wish to review the protocol and be considered for this study, please do the following:

1. Sign the attached ILS Agreement

2. Complete the attached Site Questionnaire
3. Fax the ILS Agreement and Site Questionnaire to (413) 410-0120.
4. Email the Investigator CV to nsuazo@invlocate.com (please indicate ILS Project 17-150 in Subject of email)

Speed is of the essence and the number of investigators is limited. Please evaluate this study opportunity and respond as soon as possible.

You may include a cover Fax that addresses your specific experience and capabilities for this study and ILS will submit it and your CV to the sponsor. Sponsor will provide a protocol for your final determination on proceeding with the Study. ILS will follow up with the sponsor to determine their choice of investigators.

ILS will seek additional study opportunities for your consideration. A list of the current studies we are recruiting investigators for can be found at https://urldefense.proofpoint.com/v2/url?u=http-3A_www.invlocate.com&d=DwIFaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=upmZz-l42xUweHCnmFS8vA&m=yHArAGlybNn-xuTiRwE9OrKsjKd6-6GC4-zGOAHR_Oo&s=sKmQuowuZkpBblgX70M_qs4Ly4-X_7nHOQcmjLNBSAo&e= . We wish you continued success in your research activities.

YOU MAY REFER THIS STUDY OPPORTUNITY TO ADDITIONAL INVESTIGATORS.

We're Accepting Powered by Pablove Grant Applications for 2018

The Pablove Foundation is excited to announce we will be awarding multiple \$50,000 Powered by Pablove Seed Grants in 2018.

These one-year grants will fund senior postdoctoral fellows/junior faculty (MD or PhD), or provide seed money to established investigators, for innovative basic, translational, clinical, and epidemiological research directed at pediatric and adolescent cancer.

Applicants focusing on rare childhood cancers, we well as on Opsoclonus Myoclonus

Syndrome (OMS), will be given preference. Research focused on the amelioration of long-term effects of therapy, supportive care and prevention, will also be considered. Applications from senior fellows and junior faculty investigators are encouraged.

LOIs are due **October 19, 2017, by 5 pm EST**

Apply through proposalCENTRAL at:

<https://ProposalCentral.altum.com/Opportunities.asp?GMID=139>

To learn more, visit pablove.org/grants

**AHA RESEARCH INSIDER: SEPTEMBER 2017 EDITION**

Important information for AHA Awardees, Applicants, Peer Reviewers, and Fiscal & Grant Officers

Join us for the Awardee Photo at Scientific Sessions in Anaheim

If you have ever had an AHA research grant or fellowship, please join us for an **Awardee Photo at Scientific Sessions on Tuesday, November 14, at 1:30 p.m.**, immediately following the Nobel Prize Lecture.

The photo will take place in the **Main Event 2 Ballroom, Section C/D**. The ballroom is located on the third level of the Anaheim Convention Center. The AHA officers are slated to join us, as well.

Participants will receive a special AHA Awardee lapel pin!

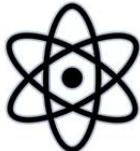

Application News

UPCOMING DEADLINES

The following award opportunities have been announced.
Monitor the [AHA Application Information](#) Web page for updates.

	<p>Strategically Focused Vascular Disease Research Network Deadline: Sept. 26, 2017</p> <p>Three to five centers whose basic, clinical, and/or population/behavioral health teams join together and submit proposals that address a key topic selected by the AHA Board of Directors.</p>
	<p>AHA Institutional Research Enhancement Award (AIREA) Deadline: Oct. 3, 2017</p> <p>Supports small-scale research projects related to CVD and stroke at educational institutions that provide baccalaureate or advanced degrees but that have not been major recipients of NIH support. For any part of the full range of research and development from very basic to clinical.</p>
	<p>Institutional Undergraduate Student Fellowship Program Deadline: Oct. 4, 2017</p> <p>Encourages students from all disciplines to consider research careers. This is made to qualified institutions that can offer a meaningful research experience that supports the AHA mission undergraduate college students.</p>

	<p>Established Investigator Award Required Letter of Intent Deadline was Aug. 1, 2017 Deadline for Invited Applicants: Oct. 23, 2017</p> <p>Supports mid-career healthcare and academic investigators with unusual promise and in rapid growth phase, who have established records of accomplishments, and demonstrated commitment to questions related to cardiovascular or cerebrovascular science.</p>
	<p>Institute for Precision Cardiovascular Medicine Funding Opportunities</p> <p>Uncovering New Patterns Grants DEADLINE EXTENDED: Nov. 1, 2017 One-year grant to uncover new patterns and make new discoveries within and across existing datasets using cloud computing. Specifically, the grants will target the areas of data harmonization, testing new methods, identifying new biomarkers, and testing new hypothesis for as-of-yet unsolved problems in existing datasets. \$150,000 award Read the Institute Uncovering New Patterns Grant RFA</p> <p>Uncovering New Patterns Fellowships DEADLINE EXTENDED: Nov. 1, 2017 Two-year fellowship to train a generation of postdoctoral fellows in the scientific area of cardiovascular diseases and stroke and cloud computing. Specifically, these fellowships will target the areas of data harmonization, testing new methods, identifying new biomarkers, and testing new hypothesis for as-of-yet unsolved problems in existing datasets. \$150,000 award Read the Uncovering New Patterns Fellowships Grant RFA</p>
	<p>AHA Predoctoral Fellowship Deadline: Nov. 1, 2017</p> <p>Enhances the integrated research and clinical training of promising students who are matriculated in pre-doctoral or clinical health professional degree training programs and who intend careers as scientists, physician-scientists or other clinician-scientists, or related careers aimed at improving global cardiovascular health.</p>

	<p>AHA Postdoctoral Fellowship Deadline: Nov. 2, 2017</p> <p>Enhances the integrated research and clinical training of postdoctoral applicants who are not yet independent. Applicant must be embedded in an appropriate research group with the mentorship, support, and relevant scientific guidance of a research supervisor.</p>
	<p>Merit Award Required Letter of Intent Deadline was Aug. 15, 2017 Deadline for Invited Applicants: Nov. 6, 2017</p> <p>Supports individual scientists with trajectories of success, who propose novel approaches to major research challenges in the cardiovascular and stroke areas that have potential to produce unusually high impact.</p>

More Programs Coming in 2017-18*

Award Program	Letter of Intent Deadline	Application Deadline	Award Start Date
Career Development	X	12/4/17	7/1/18
Innovative Project	X	12/11/17	7/1/18

Transformational Project	X	1/16/18	7/1/18
Collaborative Sciences	11/1/17 required	2/5/18	7/1/18
SFRN Atrial Fibrillation	TBA	TBA	7/1/18

*Dates are subject to change.

Strategically Focused Research Networks

Strategically Focused AHA Vascular Disease Research Network Applications due Sept. 26

Applications for the AHA Vascular Disease Research Network are due by September 26, 2017. Visit the [Vascular Disease Research Network](#) website for details.

Upcoming Live Application Q&A Webinars

[Sept 12, 2017 at 2 p.m. CT](#)

Strategically Focused Research Network Postdoctoral

Fellowship Opportunities

Postdoctoral graduates interested in fellowship opportunities with an AHA Strategically Focused Research Network should [submit an application](#) to the center(s) of interest. If you are interested in future SFRN postdoctoral fellowships with a Network, please submit a CV to SFRN@heart.org and it will be shared with the Training Directors once the Network is awarded.

Next Strategically Focused Research Network (SFRN) Topic is Atrial Fibrillation

The upcoming topic is [Atrial Fibrillation](#). For more information, including information regarding important dates, visit the appropriate web pages.

Upcoming AHA SFRN Session at Scientific Sessions 2017

This year at Scientific Sessions in Anaheim, CA the AHA's Strategically Focused Research Networks (SFRN) will conduct an educational session with panel presentations on the progress and innovation taking place across all of the Networks, including the opportunity for future SFRN applicants to connect with current investigators. Further details on this session can be found on the [AHA SFRN webpage](#).

Lifelong Learning

Online Courses Available from the Research Leaders Academy

The AHA Research Leaders Academy is an invitation only event designed for AHA research awardees from strategically focused programs along with research thought leaders and AHA leadership. The event promotes the exchange of ideas through interactions among topic experts, experienced investigators and early career researchers. The sessions range from hot topics in science to professional skills development. All modules from the 2016 Academy are now available and free of charge: <https://learn.heart.org/RLA>.

Current and Past Awardees

Why Should You Become an AHA Peer Reviewer?

- * Provides a substantial addition to curricula vitae that is noticed throughout the science community
- * Serves as a key point for tenure track and other promotions within most institutions
- * Exposes reviewers to relevant scientific breakthroughs happening daily in their specialties
- * Facilitates comradery amongst reviewers and encourages networking and potential collaboration
- * Advances interaction with other AHA council members

Sign up today at Grants@Heart

Under "First Time Users Register Here," select Peer Reviewer, fill out the form, and await confirmation.

Introduction to Using The OSF

Thursday, September 14, 2017 10:00 AM - 11:00 AM EST

This hour-long webinar is an introduction to using the Open Science Framework (OSF <https://osf.io>) - a free, open source web application built to help researchers manage their workflows. The OSF is part collaboration tool, part version control software, and part data archive. The OSF connects to popular tools researchers already use, like Dropbox, Box, GitHub and Mendeley, to streamline workflows and increase efficiency.

[Register](#)

Connecting Research Tools to the OSF

Wednesday, September 27, 2017 2:00 PM - 3:00 PM EST

This webinar will introduce how to connect other services as add-ons to projects on the Open Science Framework (OSF; <https://osf.io>). Connecting services to your OSF projects via add-ons enables you to pull together the different parts of your research efforts without having to switch away from tools and workflows you wish to continue using.

[Register](#)

Introduction to the OSF API

Tuesday, October 10, 2017 10:30 AM - 11:30 AM EST

This webinar will introduce the OSF's Application Programming Interface (API), demonstrate some of the interactions that are possible to script using that interface directly, and explore the osf-cli. The osf-cli is a free software tool built to make the capabilities of the OSF's API available through a command line client.

The webinar will be lead by Erin Braswell, Infrastructure Developer at COS, and Tim Head, developer of osf-cli and head of Wild Tree Technologies.

[Register](#)

Peer Reviewers

Thank you for participating in our recent peer review

meetings.

We will contact you soon about participation on newly organized "program centered" 2017-18 review committees.

Fiscal Officers and Grant Officers

Application Instructions have been Updated

The AHA [application instructions](#) have been revised to reflect the new portfolio offerings. The instructions will be updated with each release of new programs. AHA applications staff are available to answer questions and assist applicants and grant officers through the submission process. Contact apply@heart.org or (214) 360-6107 (option 1).

Visit the AHA Awards and Policies Page

The AHA [Awards and Policies](#) web page contains past program descriptions, the awardee guide, and policies governing all AHA awards.

Have you had a Change of Personnel?

To create smoother transitions, kindly alert the AHA when a fiscal or grant officer leaves or enters your institution. Please send personnel

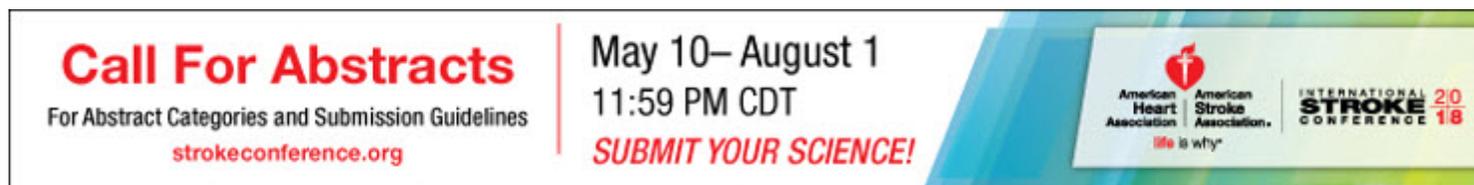

updates to awards@heart.org.

Submit Your Science

Since AHA Awards are made possible through voluntary contributions by the public, research results should be made available to the public promptly, either by presentation to scientific societies or publication in scientific journals. We encourage you to submit abstracts to AHA's Scientific Sessions and Journals. AHA award funds may be used to pay abstract submission fees as part of allowable publication costs.
