NEUROPATHOLOGY FELLOWSHIP DESCRIPTION

The neuropathology division at the Mount Sinai School of Medicine announces the availability of a fellowship position in its ACGME-accredited 2 year program in July 2017 or the combined AP/NP program in July 2016. The division is committed to academic excellence in clinical service, research, and education. The robust clinical neuropathology services at the Mount Sinai Medical Center are supplemented by internationally-recognized programs in brain banking, and a rich network of neuroscience research, providing unique resources to a strong academic experience and neuropathology fellowship program.

One fellow is accepted into the program each year. Preference is given to individuals either board-eligible in anatomic/clinical pathology, who have completed 2-3 years of anatomic pathology training or for the AP/NP track, will be graduating from medical school. Consideration is also given to candidates who are board eligible in Neurology, and have completed one year of anatomic pathology training. The position is offered for a full two-year commitment.

Inquiries and curriculum vitae should be addressed to:

Faye Francisco
Fellowship Programs Coordinator, Department of Pathology
Icahn School of Medicine at Mount Sinai
