The Mount Sinai Liver Cancer Program
Fifth Anniversary

From Genomics to Treatment of Hepatocellular Carcinoma

Thursday, December 9, 2010
Goldwurm Auditorium, Icahn Medical Institute
1425 Madison Avenue at 98th Street, New York, NY

Educational Objectives

At the conclusion of this activity, participants will be able to:

- Identify and explain the evidence-based rationale for management of HCC.
- Develop and integrate the magnitude of clinical benefits of different treatments in HCC, particularly molecular therapies.
- Explore the molecular pathogenesis of HCC and the role of cutting edge genomic techniques to unravel the key drivers of tumors initiation and progression.
- Analyze how the acquisition of multidisciplinary information affects the rationale for expanding criteria of liver transplantation in HCC.
- Provide an overview of the management and pathogenesis of the second most common liver tumor, cholangiocarcinoma.

Registration Fee
Complimentary. Register online at www.mssm.edu/cme/courses/livercancer

Target Audience
Hepatologists and Gastroenterologists, Oncologists, Surgeons, Radiologists, Pathologists and Basic Scientists and other related healthcare professionals interested in liver cancer.

Accreditation
The Mount Sinai School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation
The Mount Sinai School of Medicine designates this educational activity for a maximum of 5.00 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Verification of Attendance
Verification of attendance will be provided to all professionals.

Special Needs
The Mount Sinai School of Medicine is in full compliance with provisions of the Americans with Disabilities Act (ADA) and is accessible for individuals with special needs. If you require special accommodations please contact the Page and William Black Post-Graduate School at 212-731-7950.

Conference Information
Conference website and online complimentary registration at www.mssm.edu/cme/courses/livercancer

Acknowledgment
Supported by an educational grant from Bayer Pharmaceuticals.

Two ways to register:
On-line at www.mssm.edu/cme/courses/livercancer
Fax this form with your information to (212) 731-7930

Cancellation Policy
All cancellations must be confirmed in writing to The Page and William Black Post-Graduate School by December 1, 2010.

For conference information, please call the Office of CME at 212-731-7950 or e-mail cme@mssm.edu

10:50 - 11:10 am Poor Outcome HCC Subclass: Molecular Profiling
Augusto Villanueva, MD
BCLC-Group CIBEReh, IDIBAPS, Barcelona, Spain

11:10 - 11:30 am Role of miRNA in HCC: An Overview
Sara Toffanin, PhD, Mount Sinai Liver Cancer Program

11:30 - 12:00 pm Experimental Models in HCC Research: Zebrafish
Kirsten Sadler Edepli, PhD, Mount Sinai Liver Cancer Program

12:00 - 12:30 pm Lunch

12:30 - 1:00 pm State of the Art Lecture:
Chairman: Samuel Waxman, MD
Mount Sinai Liver Cancer Program
Efficacy and toxicity of molecular therapies for HCC
Richard Finn, MD, UCLA, Los Angeles, CA

1:00 - 2:30 pm Advancement in Management of Liver Cancer:
Chairman: Myron Schwartz, MD
Mount Sinai Liver Cancer Program

1:00 - 1:20 pm Overview of Risk Factors in USA
Charissa Chang, MD, Mount Sinai Liver Cancer Program

1:20 - 1:40 pm HCC in HIV Infected Population
Norbert Brau, MD, James J. Peters VA Medical Center

1:40 - 2:00 pm Outcomes of Resection, OLT and Living Donor Transplant in HCC
Sasan Roayaie, MD, Mount Sinai Liver Cancer Program

2:00 - 2:30 pm Treatment of Intrahepatic Cholangiocarcinoma
Myron Schwartz, MD, Mount Sinai Liver Cancer Program

2:30 - 2:50 pm Closing Lecture
Lessons Learned from Esophageal Cancer
W.T. Knoefel, MD, Heinrich-Heine University and University Hospital, Düsseldorf, Germany

2:50 pm Closing Remarks
Josep M Llovet, MD, Mount Sinai Liver Cancer Program
