Funding Environment

Mount Sinai School of Medicine (MSSM) ranks 17th among the nation's 126 medical schools in receipt of research support from NIH and administers more than 550 NIH grants awarded to over 300 Principal Investigators. Furthermore, MSSM has the fastest-growing medical school research program in New York. National Institutes of Health (NIH) funding to MSSM totaled $275 million in Fiscal Year 2010, an increase of 9.5% from the previous year and 144% since 2000.
