The Translational and Molecular Imaging Institute (TMII) at the Mount Sinai School of Medicine is holding its first Annual Symposium on April 16, 2010. The TMII Symposium will focus on the fields of (1) Neuro Imaging, (2) Cardiovascular Imaging, (3) Nanomedicine and (4) Cancer Imaging. We are requesting abstracts in these fields for oral or poster presentations, and we especially encourage students and postdocs to submit. The best abstract in each of the 4 categories will be awarded a prize and given the opportunity to present their work for a 15 min oral presentation on the day of the symposium. The list of confirmed invited speakers and preliminary program is depicted below:

- Opening Remarks
  Zahi A. Fayad, PhD – Director TMII
  Dennis Charney, MD – Dean MSSM
- Keynote Speaker:
  Valentin Fuster, MD, PhD
- Cardiac Imaging:
  Joseph Wu, MD, PhD (Stanford)
  John Gore, PhD (Vanderbilt)
- Selected abstract Cardiovascular Imaging
- Neuro Imaging:
  John Gore, PhD (Vanderbilt)
  Selected abstract Neuro Imaging
- Nanomedicine:
  Daniel Anderson, PhD (MIT)
  Selected abstract Nanomedicine
- Cancer Imaging:
  Peter Choyke, MD (NIH)
  Selected abstract Cancer Imaging

Abstract guidelines
- The categories of abstract submission are: (1) Neuroimaging, (2) Cardiovascular Imaging, (3) Nanomedicine, and (4) Cancer Imaging.
- Abstracts will be limited to one page (8.5”x11”), inclusive of tables and graphics, with font no smaller than 12 points. Use the “TMII abstract template”.
- Guidelines for oral presentations and poster-boards will be given to the authors whose abstracts are selected.
