Protocol Title: ____________________________________________________________

Eligibility Criteria: Please note that ALL must apply. Please check boxes to confirm eligibility

_____ Pilot, Phase 0, or Phase 1 Institutional Clinical Study focusing on initial early phase testing of a candidate agent or device for the diagnosis, prevention, detection, or treatment of cancer

_____ Conceptualized/designed by Cancer Center Support Grant (CCSG) member of the Tisch Cancer Institute

_____ Study of short duration (1-2 years)

_____ No other peer-reviewed funding; studies may receive partial support from industry. If industry funding is available, please explain:

Please summarize scientific importance and how this protocol is expected to advance cancer research.

*Please note that funding is limited to support of: Nurses and data managers for a pilot or phase 1 clinical trial, Costs associated with generation of preliminary data through other early phase clinically related activities – for example: Imaging time for scans related to early phase clinical research, Support for IND or IDE applications, and Pharmacodynamic studies.
