The Sponsored Projects Finance Director is the contact person for the following reports and information:
1. Financial reports
2. Payment information
   a. Checks
      Checks should be sent to the Sponsored Projects Finance Director. However, you may also request that these checks be sent to a local (i.e., a departmental administrator) rather than the institutional contact person.
   b. Electronic/wire transfer
3. Other post award documentation

D. NIH / HHS Salary cap:  $185,100  (eff. 1/10/16)
If you are applying for a Department of Health and Human Services (HHS) sponsored project and your institutional base salary (e.g. $200,000) is greater than the NIH / HHS salary cap, use this salary cap. Do not use your institutional base salary. HHS includes the NIH, AHRQ, CDC, CMS, FDA, HRSA, and SAMHSA, among others.

E. Fringe Benefit Rates:
1. Federal 28% of Salaries and Wages
2. Non-Federal 29% of Salaries and Wages

F. Facilities and Administrative (F&A) Rates:
1. Federal
   a. Research On-Site 69.5%
      Off-Site 26.0%
   b. Federal Training and Career Development 8.0%
   c. Instruction/Training (Curriculum Development) 41.0%
   d. Other Sponsored Programs 34.0%

2. Industry
   a. Clinical Trials and Related Research 35.0%
   b. Other Research 69.5%
      Please see G. “Calculating F&A Expenses” for additional information.

3. Non-Federal (Nonprofit)
   a. Research and Other Funded Programs 25.0%
   b. Training and Fellowships 8.0%

Important: For non-federal (nonprofit) funded projects, please use above rates when the extramural funding agency does not specify the amount. When a non-federal extramural agency does specify a rate, please use that rate on your budget.

G. Calculating F&A Expenses

Other terms for F&A are indirect costs, overhead, and General and Administrative (G&A) expenses.

1. Federal Funded Projects (F.1) and Industry Funded Other Research (F.2.b)
The following expenses are excluded when calculating F&A costs:
   a. Alterations/Renovations: of $1,000 or more unless allowed by the extramural funding agency
b. Equipment: Effective 1/1/16, unit cost of equipment is $1,500 or more and a useful life of at least one year.

c. Patient Care Costs: The costs of routine and ancillary services provided by hospitals to individuals participating in research programs.
A complete definition for NIH sponsored projects is available at:

d. Subawards/Consortium/Contractual
All funds above $25,000 per subawarding institution (“institution” is normally defined by having a unique DUNS number or NIH IPF number) are excluded when calculating F&A costs. The $25,000 limit applies once for each subawarding institution within a project period.

e. Tuition and Fees

f. Genomic Arrays: as per NIH policy available at:

Modified Total Direct Cost (MTDC) base is a term used for the direct cost amount after the above expense categories have been excluded. F&A is then applied to the MTDC.

2. Non-Federal Funded Projects
F&A costs are applied to all cost categories unless otherwise specified by the extramural funding agency.

IV. GCO Deadlines for Review and Approval of Applications

The GCO must be in receipt of the COMPLETE AND FINAL proposal, including completed and signed Conflict of Interest and Suspension and Debarment forms as appropriate, by these deadlines. Routing the application through the departments for approval occurs before GCO receipt. Please allow adequate time for this process, especially for applications that need to be routed to more than one department.
