The mission of the Program for the Protection of Human Subjects is to protect the rights and welfare of subjects involved in human research that is conducted or overseen by Mount Sinai School of Medicine and Mount Sinai Hospital.

PPHS Customized Trainings are primarily offered by Liz Carroll, CIP, Assistant Director of Regulatory Affairs.

Liz has over 5 years experience in the field of human subjects protections, and has developed and presented educational seminars on a variety of topics related to the involvement of humans in research at Mount Sinai School of Medicine, The New York Academy of Medicine, and the Charles B. Wang Health Disparities Research Training Program.

Contact Liz Carroll in the PPHS office at 212-824-8200 or via email to liz.carroll@mssm.edu.
PPHS Customized Training

Customized Trainings are Convenient

- Is it difficult to get to a PPHS training session?
- Would you like individualized attention?
- Does your group have a regularly scheduled meeting that would be a good opportunity for an education session?
- Would you like your research team trained during one group session?
- Would you like a training tailored to the specific needs of your researchers?

Contact Liz Carroll in the PPHS office today to discuss your needs

liz.carroll@mssm.edu or 212-824-8200

PPHS Customized Training can focus on:

- Your specific questions/topics
- The types of research you conduct
- Submissions to the IRB
- Using the forms, templates, worksheets and checklists
- How the IRB evaluates research
- The informed consent process
- The life cycle of a project
- Fulfilling your responsibilities:
  - Submissions
  - Reporting
  - Recordkeeping and regulatory documentation
  - Education Requirements
  - Recruitment
  - Knowing what is Human Research
  - Informed consent
  - Study records
  - IND/ IDE studies

Special Topics = Special Training

Some topics require special consideration by the IRB.

Does your research involve vulnerable populations? The federal regulations have specific criteria for research involving:

- Children
- Individuals with diminished mental capacity
- Pregnant women/neonates
- Prisoners

Does your research involve any of the following special topics? Find out tips for submitting the information the IRB needs and avoiding common mistakes:

- Specimen banking
- Genetics
- Retrospective data or specimens
- Behavioral research, including focus groups, surveys or interview methodology
- Critically or terminally ill population
- International research
- Waiver of Informed Consent
- Students/Employees/Volunteers
