FEDERALWIDE ASSURANCES and IRB REGISTRATION NUMBERS

Mount Sinai Hospital and Mount Sinai School of Medicine maintains assurances of compliance, called Federalwide Assurances (FWAs), with the Office for Human Research Protections (OHRP) in the US Department of Health and Human Services (HHS). The medical center is required to enter into this agreement because it receives federal funding for research involving human subjects. The Federalwide Assurances applicable to studies conducted at Mount Sinai Hospital and Mount Sinai School of Medicine are:

FWA 00005651: Mount Sinai Hospital
FWA 00005656: Mount Sinai School of Medicine

There are currently five active IRBs operating under these assurances. As indicated below, each of the IRBs is registered with both OHRP and FDA.

The expiration date for the FWAs and for each IRB changes with every modification made. For the current expiration dates, please visit: http://ohrp.cit.nih.gov/search/search.aspx?styp=bsc and search by the tab of interest.
