<tr>
<th>Criterion</th>
<th>Evidence</th>
</tr>
</thead>
</table>
| **OVERVIEW Professor** | □ Has broad national recognition for excellence and competitive in the international arena.  
□ Must have continuous high level of productivity.  
□ Demonstrates skills and qualifications in the following areas such as: exceptional research contribution, leadership and mentorship roles, dissemination of knowledge, impact on the field and community, recognized expertise and influence, service contributions, other achievements that enhance reputation. |
| **Preliminary Decision** | Does this candidate meet overview criteria for this track? □ Yes □ No  
If no, then stop and contact DOM APT Administrative Staff ([DOMFacAffair@mssm.edu](mailto:DOMFacAffair@mssm.edu)) |
| **INNOVATION** | □ Demonstrates excellence in investigation and discovery over a sustained period of time.  
□ Highly significant, innovative contributions to the field of study with the actual or anticipated impact clearly explained. Evidence of innovation will vary with discipline but may include:  
*Select all that apply*  
☐ Novel approaches to problem solving  
☐ Product discovery and/or development  
☐ Patent applications and patents  
☐ Commercialization of inventions  
☐ New and/or collaborative programs  
☐ Other |
| **RESEARCH** | For Appointment *(Only complete for Appointments, otherwise go to For Promotion section):*  
□ Recruits/candidates in basic, clinical, or translational research from other academic institutions: Sustained record as PI of a scholarly research program with external agency-funded research (e.g. NIH).  
□ Recruits/candidates from industry or non-academic organizations: should demonstrate comparable |
sustained accomplishment in their discipline and attendant recognition:

*(Select all that apply)*

- ☐ Sizeable financial and resource support for their program from their own institution or from external sources.
- ☐ Contributions to drug development and/or discovery.
- ☐ Development of new technologies.
- ☐ Patents and other innovations.
- ☐ Introduction of new analytical approaches to and tools for manipulation.
- ☐ Analysis and presentation of data.

**For promotion:**

☐ Candidates for promotion are expected to have extramural funding from agencies such as the NIH.

**Comment**

**SCHOLARSHIP**

- ☐ High level production of impactful publications, patents and other forms of communication with emphasis on development and dissemination of new concepts, techniques and methodologies.
- ☐ Consistent scholarly output over time, reflecting continuous productivity.
- ☐ Authorship/Invention: First or last author or an explanation of contributions as middle author on publications or co-inventor on patents.
- ☐ For candidates whose work is in education: original contributions that receive national/international recognition and result in publications in the highest quality journals and in textbooks for educators and invitation to present at premiere professional meetings.

**Comment**

**EDUCATION & MENTORING**

☐ If for promotion, must demonstrate the ability to attract degree candidates and/or postdoctoral fellows and provide comprehensive mentoring to guide trainees' research and scholarly endeavors. If for appointment, highlight similar abilities relevant to the field and settings.

☐ Excellent teacher and/or mentor as demonstrated by any of the following:

**IMPORTANT CONSIDERATIONS**

<table>
<thead>
<tr>
<th>Appointment and Term:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Appointment and promotion are upon recommendation by the Department Chair, with subsequent approval by the Committee on Appointments, Promotions and Tenure.</td>
</tr>
<tr>
<td>• For untenured Professors, the initial term can be 1,2,3,4 or 5 years.</td>
</tr>
</tbody>
</table>
Reappointment and Non-Reappointment:
- The Chair will provide notice of reappointment or non-reappointment.
- Terms for reappointed untenured can be 1, 2, 3, or 4 years.
- Reappointment to a term longer than 1 year requires review and approval by the Office of the Dean.
- Maximum aggregate time for untenured faculty is 9 years.
- If a decision to reappoint is made during a term extension, the reappointment notice must be in writing from the Chair. The reappointment will commence retroactive to the first day following completion of original term.
- Notice of non-reappointment is minimum 6 months on 1 or 2-year terms; minimum one-year notice on terms more than 2 years.

Tenure:
- Associate Professors in the Investigator Track are eligible to be considered for tenure at any time, including at the time of appointment/promotion to this rank.
- Eminently qualified faculty should be considered for tenure at the earliest possible time.
- If an untenured Associate Professor is a candidate for reappointment, consideration for tenure will take place simultaneously with the reappointment process.
- Fulfill all of the requirements for Associate Professor.
- Demonstrate the ability for continued superior productivity and leadership in their field.
- Demonstrate excellence in the dissemination of knowledge.
- Tenure recommendations are initiated by the Chair and require approval by the Committee on Appointments, Promotions and Tenure.

Adjustment of the academic clock addresses the unique "up-or-out" provisions of the Investigator Track by giving faculty in this track an opportunity, under certain circumstances, to request additional time to meet the criteria for advancement to the next rank or to tenure.

Eligibility for Academic Clock Adjustment (Must meet 2 sets of criteria):
1. Faculty must be:
   - Employed full-time in current position for at least six consecutive months; and
   - In good standing; and
   - Assigned to Investigator Track; and
   - Untenured
2. And either:
   - One of the following two situations must have occurred within the last year:
     - A major change in family-care responsibilities, e.g., child birth or adoption; assumption of primary care giving role for an immediate family member; or
     - Other compelling personal circumstances that have a significant impact on productivity.
   - OR-
   - The COVID-19 crisis has resulted in the temporary closure of an investigator’s laboratory.

Productivity Expectations
Faculty who are approved for clock adjustments will continue to be subject to productivity expectations set by the School and their Department(s)/Institute(s).
Supporting Evidence
For each selected criterion, provide supporting evidence in the adjacent space. You may copy-paste directly from the source document or specify the page number and section heading. Include source details such as CV or Chair Statement.

Clock Adjustment

- Each approved request for an academic clock adjustment for a change in family-care responsibilities or other compelling personal circumstances will add one year to the maximum allowable time at the individual's current academic rank. A maximum of two requests may be approved.
- Each approved request for an academic clock adjustment relating to the COVID-19 crisis will add one year to the maximum allowable time at the individual’s current academic rank.

Granting of a clock extension refers specifically to the maximum number of years allowed at a particular rank, and is separate and distinct from an individual's term of appointment. In order for a term extension to be applied in full, the individual must remain an active full-time faculty member throughout the period covered by the extension. If an individual receives notice of non-reappointment, the clock adjustment is no longer relevant.

TRACK SWITCH CRITERIA

- Track switching permitted after initial appointment or promotion.
- Requires compelling reasons, Chair's recommendation, and Dean's approval.
- Limited to highly productive faculty contributing to departmental and institutional missions.
- Robust scholarly productivity
- Multiple teaching roles like Program Director, associate program director, director of education programs
