

# Tip Sheet for Clinical Researchers

Enhance Diversity, Equity, and Inclusion in Your Research!

## Tip 1. Select measures and scales that are available in multiple languages

- [Levy Library](#)
- [Office of Research Services at Sinai](#)
- [NIH Toolbox](#)
- [PROMIS](#)

## Tip 2. Resources are available at Mount Sinai's [Health Equity Data Assessment \(HEDA\) Hub](#)

- Search equity projects at Sinai ("Measures and Outcomes Report")
- Screen for the Social Determinants of Health in your study ("Social Determinants of Health Toolkit")
- Review best practices for collecting data on participant race, ethnicity, pronoun, and language ("Tools and Other Resources")

## Tip 3. Be aware of NIH or other funding opportunities specifically designed to encourage/support diversity in research

- [Diversity Related Funding Announcements](#)

## Tip 4. Request the funding needed to support diversity and inclusion in enrollment (e.g., translation, interpretation, outreach)

## Tip 5. Value research personnel who provide diversity in backgrounds, language skills, and experiences
