Educational Objectives

The 38th Annual International Symposium: Clinical Update in Anesthesiology, Surgery and Perioperative Medicine is designed to help busy professionals advance their knowledge and keep current by providing a review of innovations, recent advances and best practices in cardiothoracic, vascular and general anesthesiology, surgery, perioperative medicine, and critical care. In addition, three workshops will be conducted for interested participants.

At the conclusion of the symposium, participants will be able to:

1. Describe and implement new diagnostic modalities, therapeutic agents and management strategies in the fields of cardiothoracic, vascular and general anesthesia, surgery, critical care and perioperative medicine.

2. Recognize and implement best practice anesthetic management of patients with significant comorbidities.

3. Discuss the current and future management of patients with cardiac, thoracic and vascular pathophysiology.

4. Three WORKSHOPS: 1 – Regional block; 2 – ECHO will demonstrate with experts the latest techniques; 3 – POCUS
Target Audience
Anesthesiologists, cardiothoracic, vascular and general surgeons, cardiologists, intensivists, nurse anesthetists, physicians in-training, perfusionists, physician assistants, and nurses.

Verification of attendance will be provided to all professionals.

Educational Methods
- Didactic lectures and discussions by recognized leaders in their field.
- Oral presentation of abstracts of relevant basic science research and interesting clinical cases.
- Workshops: Ultrasound-guided regional anesthesia; TTE; FOCUS

Disclosure Statement
