

	First year				Second year				Third year				Fourth year			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
	Traditional 3-year track															
Milestone goals	Identify mentor(s) and rough outline of project		Refine project goals	Finalize research plan; If human subjects, submit to IRB	Submit scholarly plan; gather source materials (i.e., existing dataset, deep literature review)obtain access to source data		Refine analysis plan	Submit progress report and official CV; update CDP	Finalize work; submit manuscript for peer review			Final presentation				
Overall goals	<i>Identify regulatory needs of project, complete human subjects training courses; Work on CDP</i>								<i>Finalize CDP, secure post-fellowship position</i>							
	3-year Research track															
Milestone goals	Identify mentor(s) and rough outline of project		Refine project goals	Finalize protocol; If human subjects, submit to IRB	Submit scholarly plan; begin data collection	Continue data collection	Refine analysis plan	Submit progress report, official CV and biosketch; update CDP	Complete data analysis; submit manuscript for peer review	Submit abstract to meetings	Final presentation					
Overall goals	<i>Identify regulatory needs of project, complete human subjects training courses; Work on CDP</i>				<i>If applicable, begin preparing for grant submission</i>				<i>Finalize CDP, secure post-fellowship position</i>							
	4-year Research track (T32)															
Milestone goals	Identify primary T32 mentor, any secondary mentor(s) and rough outline of project		Refine project goals	Finalize protocol; If human subjects, submit to IRB	Submit scholarly plan; begin data collection	Continue data collection	Refine analysis plan	Submit progress report, official CV and biosketch; update CDP	Continue data collection/analysis; tailor 3rd year clinical rotations to post-fellowship goals; complete necessary T32 paperwork			Submit progress report, official CV and biosketch; update CDP	Continue data collection/analysis	Complete data analysis; submit manuscript for peer review; submit abstract to meetings	Final presentation	
Overall goals	<i>Identify regulatory needs of project, complete human subjects training courses; Work on CDP</i>								<i>If applicable, begin preparing for grant submission</i>				<i>Finalize CDP, secure post-fellowship position</i>
