

Ernest J. Barthélemy, MD, MA, MPH

Chief Neurosurgery Resident PGY-7
Department of Neurosurgery
Icahn School of Medicine at Mount Sinai

Clinical and Academic Interest in Global Neurosurgery, Public Health, Neurotrauma, and Skull Base Surgery

What made me choose Mount Sinai...

I wanted to be in New York City, at an institution where I knew my specific interests in neurosurgery would be fully supported by a faculty that authentically cared about my professional journey. I was lucky enough to get to know Mount Sinai Neurosurgery early on, having been a medical student at the same institution, and I was certain that the faculty and environment here would provide me with all the tools I needed to become a competent, well-trained academic neurosurgeon.

Even when I was a medical student, I could tell by the qualities I observed in the leadership that as great a department and institution as Mount Sinai was to start, it was poised to continue elevating its national and global renown as a premier institution for clinical and academic neurosurgery.

Mount Sinai taught me how to be doctor, and provided me with numerous role models for what exemplary doctoring can and should look like. By being a top institution, Mount Sinai has also attracted patients of all backgrounds with a wide range of pathologies, all of which have further supported my ability to become a doctor who can effectively care for patients of all backgrounds, and with a wide range of pathologies.

Hometown

Brooklyn
New York

Current Location

Upper East Side
New York City

Languages

Haitian-Creole, French, Spanish

General Interests

- Dancing
- Social justice
- Fitness
- Reading

Favorite Activities

- Dancing
- Lifting weights
- Watching music videos on YouTube
- Hanging out with my kids

Favorite Things in New York

- Walk around Central and Washington Square Parks
- Explore the city nightlife
- Restaurants

Voted by Fellow Residents

The "Lovin' Haiti" Award

Guilty Pleasure

- Ice cream
Can eat boundless quantities
- Chocolate, also
But maybe not boundless quantities

Future Goal

- To create a fulfilling career as a global academic neurosurgeon, splitting my time primarily between practicing in Haiti and practicing in the United States
- Socially transform Haiti

Bragging Rights

- A professional dancer, specializing in Salsa and Afro-Cuban dance
- Performed a solo dance number at Lincoln Center
- Selected one of the top 100 salsa dancers in New York City
- A black belt in a traditional Chinese Martial Art called Hung Ga Kung Fu

Favorite Music

- Salsa
- New York mambosalsa sound of the 60s and 70s
- 90s hip hop music
- Socially conscious French rap
- Classical music

Favorite Books

- Think and Grow Rich
- A Pedagogy of the Oppressed

Favorite Movie

Enter the Dragon

Favorite Hero

Bruce Lee
