

# Department of Psychiatry

## CHANGE Committee

The Psychiatry CHANGE Committee (Community, Humanity, Advocacy, Nurturing, Growth, Equity) comprises subcommittees that address community engagement, research equity, provider training, faculty recruitment, clinical care, and more.

Through departmental initiatives, monthly lectures, and a dedicated 40-plus member committee, we explore the social determinants of mental health and challenge existing conventions and assumptions in psychiatry and psychology.

Watch previous webinars from our *Just Talks* lecture series [here](#).
