

MOUNT SINAI UROLOGY RESIDENCY PROGRAM  
RESIDENCY APPLICATION PROCESS  
Frequently Asked Questions  
2020 Match

*1. How do I apply to the Mount Sinai Urology Residency Program?*

The Mount Sinai Urology Residency Program accepts applications only through the annual AUA Match. You can find information about the Match program at [www.AUAnet.org](http://www.AUAnet.org).

*2. Will the Program be filling positions in this year's Match?*

Yes, we will fill 5 positions this year. The successful candidates will enter the Urology Program in July 2020 as a PGY1 Urology Resident. The PGY1 year includes 6 months of general surgery and 6 months of urology.

*4. Does the Program require any application documentation beyond that collected through the ERAS application system in the AUA Match?*

No.

*5. How many letters of reference does the Program require?*

Three.

*6. What is the minimum USMLE test score required for consideration of my application?*

Every application we receive is reviewed in its entirety, with no preliminary filters such as minimum test scores applied. The median USMLE Step 1 score of the applicants we invited to interview last year was 249.

*7. Does the Program accept international medical school graduates?*

Yes, the Program does on occasion admit international medical school graduates. It should be noted, however, that the absence of US medical school training is a disadvantage which would have to be balanced with an exceptionally strong showing in other aspects of the applications such as references, test scores and research experience if the applicant were to qualify for an interview.

*8. What visa type does the institution sponsor?*

Mount Sinai normally sponsors J1 visas for residency training.

*9. What is the deadline for receipt of my application?*

Friday, October 4, 2019

*10. When will the applicant interviews take place?*

Friday, November 22, 2019 & Wednesday, December 4, 2019

*11. Where can I get more information about the Program?*

You will find a brief description of the Program on our website at: <http://www.mssm.edu/departments-and-institutes/urology/programs-and-services/urology-residency-program>. You might also wish to consult the AMA's FREIDA On-line Fellowship and Residency Interactive Database at [www.ama-assn.org](http://www.ama-assn.org). Our program identification number for use in a FREIDA search is 4803521102.
