Gig Internet offers speeds up to 940 Mbps and certain equipment may be required. All advertised speeds are up to the stated speeds and are not guaranteed; speed may vary due to conditions outside of network control, including customer location, sites accessed, number of devices connected, customer usage, customer equipment and computer configuration, the level of overall traffic, and customer compliance with our usage policies set forth in the acceptable usage policy. See astound.com/yourspeed for why speeds may vary. Offer valid only for new residential customers or previous customers with account in good standing who have not had our service within the last 60 days. Unless otherwise specified, promotional offer extends defined, set pricing for the period of 12 months after installation; distinct pricing exists for months 1-12.
