

## Child & Adolescent Psychiatry Training Program Incoming Fellows 2020-2021

### **Priyanka Adapa, MD**

RESIDENCY: Lincoln Medical and Mental Health Center  
MEDICAL: St. George's University School of Medicine  
UNDERGRADUATE: University of Southern California

Dr. Adapa, originally from Fresno, California, completed her undergraduate education at the University of Southern California and graduated as a Renaissance Scholar with a B.S. in Biological Sciences and a B.A. in Philosophy. During her residency training, she spent significant time assessing high recidivism rates in the public hospital system as well as explored the crossover between endocrinology and bipolar disorder, presenting at the AAGP, IPS, and APA conferences. As the psychiatry delegate for the Committee of Interns and Residents, she worked closely with the hospital administration to achieve private funding to increase resources for quality improvement in the inpatient and ambulatory psychiatry units. As a clinician, she is dedicated to social justice and improving access for global mental health. Outside of psychiatry, Dr. Adapa, enjoys hiking, traveling to different countries, and baking for friends and colleagues.

### **Julian "Milo" Artunduaga, DO**

RESIDENCY: Temple University  
MEDICAL: Lake Erie College of Osteopathic Medicine  
UNDERGRADUATE: University of Maryland

Born in Colombia, Dr. Artunduaga completed medical school at the Lake Erie College of Osteopathic Medicine, internship at Hahnemann Hospital, and residency at Temple University in Philadelphia. His clinical interests include LGBT mental health, integrative medicine, therapy, trauma, and conversion disorders. He believes in community engagement through education; in medical school, he created a medical Spanish crash course and in residency expanded an LGBT symposium to the larger medical community. Prior to residency, Dr. Artunduaga graduated with a BS in neuroscience at the University of Maryland, and a minor in Spanish. Some of his hobbies include working out, vegan cooking, minimalist living, practicing yoga and meditation.

### **Meghaa Bhargava, MD**

RESIDENCY: Maimonides Medical Center  
MEDICAL: Lady Hardinge Medical College, University of Delhi  
UNDERGRADUATE: Lady Hardinge Medical College, University of Delhi

Hailing from New Delhi, India, Dr. Bhargava has been involved in various initiatives for mental health awareness in her hometown through the World Health Organization and United Nations Office on Drugs and Crime. She discovered her love for working with children while volunteering with underprivileged children living in urban slums, and was stricken by their resilience and indefatigable spirit. Her passion is to help trauma survivors process their experiences and achieve personal growth. After medical school, she moved to the 'crucible of cultures' that is New York City which galvanized her interest in working with immigrant communities and exploring trauma in asylum seekers. Dr. Bhargava's experiences working with victimized populations led to her pursuing training in trauma-focused CBT and advanced psychodynamic psychotherapy training through the Psychoanalytic Association of New York. Dr. Bhargava often spends her spare time dreaming of white sand beaches and is invigorated by travel, food, books and puppies!

### **Erica Everest, MD**

RESIDENCY: SUNY Downstate Medical Center  
MEDICAL: Case Western Reserve University School of Medicine  
UNDERGRADUATE: Cornell University

Dr. Everest received her bachelor's degree in psychology from Cornell University, where she worked in an infant development lab. She went on to study medicine at Case Western Reserve University. During residency at SUNY Downstate, she was drawn to working with first break psychosis patients. She also took classes in psychodynamic therapy and volunteered weekly at a free clinic. Outside of work, she enjoys pets, travel, crafting, and trying new foods.

## Child & Adolescent Psychiatry Training Program Incoming Fellows 2020-2021

### **Trevor Griffen, MD, PhD**

RESIDENCY: Icahn School of Medicine at Mount Sinai  
MEDICAL: The State University of New York at Stony Brook School of Medicine  
UNDERGRADUATE: Brown University

Dr. Griffen is a graduate of the Medical Scientist Training Program at the State University of New York at Stony Brook where he completed his dissertation research studying postnatal developmental neuroplasticity in the rodent visual cortex in the lab of Dr. Arianna Maffei. He is currently completing general psychiatry residency at the Icahn School of Medicine at Mount Sinai where he is a Chief Resident for Research and works in the lab of Dr. Tom Hildebrandt. Dr. Griffen's current research interest is in the interaction between malnutrition and the underlying neurobiology of low weight eating disorders. Outside of medicine, he enjoys spending time with his newborn daughter, Luna, traveling, baking/cooking and running.

### **Yuliya Hryb, MD**

RESIDENCY: New York Medical College at Westchester Medical Center  
MEDICAL: Belarusian State Medical University  
UNDERGRADUATE: Belarusian State Medical University

Dr. Hryb is joining the program upon completion of her residency training at Westchester Medical Center/NYMC. After graduating from a 6 year MD program in Belarus, she worked for a nonprofit helping children from the Chernobyl area, wrote and edited questions for psychiatry board preparation at TrueLearn, and was also involved in various clinical research projects at NYU. Some of her professional interests include first break psychosis, autoimmune encephalitis, eating disorders, as well as innovation and technology in psychiatry. Outside of work, Dr. Hryb can be found attending various art events, dancing salsa, and traveling.

### **Chanelle Ramsbick, MD**

RESIDENCY: SUNY Downstate Medical Center  
MEDICAL: American University of the Caribbean School of Medicine  
UNDERGRADUATE: The University of Western Ontario

Dr. Ramsbick is a Trinidadian-Canadian who completed her undergraduate degree at the University of Western Ontario and her medical degree from the American University of the Caribbean. She is dedicated to working with children from marginalized communities and has a passion for community service initiatives that engage at risk youth. While working in these programs she witnessed the effect of early drug use, and has plans to further specialize in addiction psychiatry. When she is not in the hospital, she is volunteering with "NYC Save a Life", a program which distributes naloxone kits to bars and clubs in NYC. In her spare time, Dr. Ramsbick enjoys being entertained through comedy shows, Broadway plays and live concerts.
