Goodbye dead spots.
Hello WiFi everywhere.

Introducing enhanced Whole Home WiFi

eero

In addition to a tri-band radio, eero has two Ethernet ports so you can connect it to a modem, another device, or an Ethernet switch.

Check your speeds, see your connected devices, monitor their data usage — all in real time.

Set schedules, create profiles for devices, or just shut the whole thing down if you want to go off grid.

Get system updates, security patches and more features automatically. There's nothing you need to do.

eero works to deliver fast, reliable WiFi to every room of your home — no more slow spots, dead spots, drop offs, or buffering. eero allows you to have a network that expands to fit your needs so you'll finally be able to stream, work, and play from every corner of your home.
