

### Daniel Choo, MD

Resident (PGY3), Emergency Medicine  
Mount Sinai Morningside and Mount Sinai West

**Service to patients and/or families:** "Dr. Dan Choo is a prime example of when sheer intelligence and innate ability meets an unmatched work ethic. Over the past month as an off-service rotator in the MSM Medical ICU, Dr. Choo has gone above and beyond for his patients and their families, as well as for the rest of the medical staff and his fellow co-residents. Regardless of how busy it is on the unit, Dan is often the first to complete tasks regardless of their level of importance, knowing that it all contributes to driving patient care forward. This ranges from running codes and performing life-saving procedures, to even just renewing orders and ensuring communication with nursing staff is smooth and coherent. Additionally, Dan goes the extra mile in spending valuable time with families, leading them through their most vulnerable moments such as during family meetings and goals of care discussions. As an intern, I feel so fortunate to have worked with Dan as my senior resident and will strive to deliver the type of care he constantly provides patients and their families."

### Phoenix Xu, MD

Fellow (PGY4), Nephrology  
The Mount Sinai Hospital

**Service to their peers:** "Dr. Xu has been an incredible fellow consistently observed helping to alleviate clinical burdens of her co-fellows. She is incredibly efficient, sharp, and kind. There have been numerous occasions when co-fellows have encountered difficult clinical loads in which she has selflessly alleviated without request or expectation of return of favor." "I had a particularly difficult and busy night on night coverage recently, with multiple consecutive emergent consults in the span of a few hours. Phoenix, who had finished her shift for the day, simply just started seeing consults. She didn't ask me if I wanted help; she just helped. She stayed until midnight on her night off, seeing consults with me. While this is the most dramatic example of Phoenix's support and help with co-fellows, it's certainly not the only example. Phoenix never points out when she's helping, and never asks for recognition."

## Resident and Fellow Peer Nominees for January

### Jason Adleberg, MD

MSM/MSW Diagnostic Radiology

### Emily Aledort, MD

MSM/MSW Psychiatry

### Syed Zain Ali, DO

MSBI Cardiovascular Disease

### Kevin Barley, MD

MSH Hospice and Palliative Medicine

### Linda Chamberlin, MD, PHD

MSM/MSW Psychiatry

### Michael Chang, MD

MSH Nephrology

### Penelope Faris, MD

MSM/MSW Psychiatry

### Kimberly Fasciglione, DO

MSM/MSW Internal Medicine

### Jordyn Feingold, MD, MAPP, MSCR

MSH Psychiatry

### Mrunalini Gaikwad, MD

MSBI Internal Medicine

### Kohei Horiuchi, MD

MSBI Internal Medicine

### Madelaine Jong, DDS

MSH Pediatric Dentistry

### Megan Kawasaki, MD

MSM/MSW Anesthesiology

### Madison Kennedy, MD

MSM/MSW Internal Medicine

### Alexander Maraveyas, MBChB

MSM/MSW Internal Medicine

### Joseph Marinelli, DO

MSM/MSW Internal Medicine

### Bryan Pacheco, MD, MS

MSH Diagnostic Radiology

### Kevin Paul, MD

MSM/MSW Internal Medicine

### Sharel Sadud Armaza, MD

MSM/MSW Internal Medicine

### Risham Singh, MD

MSM/MSW Emergency Medicine

### Jonathan Sisti, MD

Endovascular Surgical Neuroradiology

### Oladipo Soetan, MD

MSSN Family Medicine

### Alexander Thomopoulos, MD

MSSN Internal Medicine

### Anthony Yang, MD

MSH Diagnostic Radiology
