# Commencement Program

---

## GRAND MARSHAL

BASIL G. HANSS, PhD

Senior Associate Dean for Student Affairs and Career Development  
Associate Dean for Graduate School Well-Being  
Director, Master of Science in Biomedical Sciences  
Graduate School of Biomedical Sciences  
Associate Professor, Samuel Bronfman Department of Medicine  
Icahn School of Medicine at Mount Sinai

## PRESIDING

ERIC J. NESTLER, MD, PhD

Director, Friedman Brain Institute  
Dean for Academic and Scientific Affairs  
Nash Family Professor, Nash Family Department of Neuroscience  
Icahn School of Medicine at Mount Sinai

## COMMENCEMENT ADDRESS & HONORARY DEGREE RECIPIENT

### DOCTOR OF SCIENCE

HELENA HANSEN, MD, PhD  
Associate Professor,  
Departments of Anthropology and Psychiatry  
Grossman School of Medicine  
New York University

## STUDENT SPEAKER

CHARLES MATTHEW SANKY

## DEAN'S REMARKS

MARTA FILIZOLA, PhD

Dean, Graduate School of Biomedical Sciences  
Sharon & Frederick A. Klingenste-Nathan G. Kase, MD Professor  
Department of Pharmacological Sciences  
Nash Family Department of Neuroscience  
Icahn School of Medicine at Mount Sinai

## REMARKS AND PRESENTATION OF DEGREE CANDIDATES

### Master of Science in Biomedical Data Science

ERIC A. SOBIE, PhD  
Senior Associate Dean for Programmatic Development  
Co-Director, Master of Science in Biomedical Data Science  
Graduate School of Biomedical Sciences  
Professor, Department of Pharmacological Sciences  
Icahn School of Medicine at Mount Sinai

ANTHONY B. COSTA, PhD

Co-Director, Master of Science in Biomedical Data Science  
Graduate School of Biomedical Sciences  
Assistant Professor, Neurosurgery  
Icahn School of Medicine at Mount Sinai

### Master of Science in Biomedical Informatics

PATRICIA KOVATCH  
Co-Director, Master of Science in Biomedical Informatics  
Graduate School of Biomedical Sciences  
Senior Associate Dean for Scientific Computing and Data Science  
Icahn School of Medicine at Mount Sinai

### Master of Science in Biostatistics

ALAN WEINBERG, MS  
Co-Director, Master of Science in Biostatistics Program  
Graduate School of Biomedical Sciences  
Associate Professor, Department of Population Health Evidence and Policy  
Icahn School of Medicine at Mount Sinai

EMILIA BAGIELLA, PhD

Director, the Center for Biostatistics at the Icahn School of Medicine at Mount Sinai  
Co-Director, Master of Science in Biostatistics Program  
Graduate School of Biomedical Sciences  
Professor, Department of Population Health Evidence and Policy  
Icahn School of Medicine at Mount Sinai

# Commencement Program

---

## **Master of Science in Genetic Counseling**

RANDI E. ZINBERG, MS, MS, CGC  
Director, Master of Science in Genetic Counseling  
Graduate School of Biomedical Sciences  
Assistant Professor, Department of Genetics and Genomic Sciences and Obstetrics, Gynecology and Reproductive Science  
Icahn School of Medicine at Mount Sinai

## **Master of Science in Health Care Delivery Leadership**

BRIAN J. NICKERSON, PhD, JD  
Senior Associate Dean for Masters Programs  
Director, Master of Science in Health Care Delivery Leadership & Master of Health Administration Programs  
Graduate School of Biomedical Sciences  
Professor, Department of Population Health Evidence and Policy  
Icahn School of Medicine at Mount Sinai

## **Master of Science in Clinical Research**

JANICE L. GABRILOVE, MD, FACP  
Director, Clinical Research Education Program (CRTP, Master of Science in Clinical Research, and PhD in Clinical Research), Co-Director, KL2 Scholars & PORTAL (MD/MSCR) Programs  
Graduate School of Biomedical Sciences  
The James F. Holland Professor of Medicine and Oncological Sciences  
Associate Director, Education and Training  
The Tisch Cancer Institute  
Icahn School of Medicine at Mount Sinai

ALAN MOSKOWITZ, MD  
Co-Director, Clinical Research Education Program (CRTP, Master of Science in Clinical Research, and PhD in Clinical Research)  
Co-Director, Master of Science in Healthcare Delivery Leadership Program  
Graduate School of Biomedical Sciences  
Vice Chair and Professor, Department of Population Health Science and Policy  
Icahn School of Medicine at Mount Sinai

## **Master of Science in Biomedical Sciences**

BASIL G. HANSS, PhD  
Senior Associate Dean for Student Affairs and Career Development  
Associate Dean for Graduate School Well-Being  
Director, Master of Science in Biomedical Sciences  
Graduate School of Biomedical Sciences  
Associate Professor, Samuel Bronfman Department of Medicine  
Icahn School of Medicine at Mount Sinai

## **Master of Public Health**

NILS HENNIG, MD, PhD, MPH  
Director, Master of Public Health Program  
Graduate School of Biomedical Sciences  
Associate Professor, Department of Environmental Medicine and Public Health and Jack and Lucy Clark Department of Pediatrics  
Icahn School of Medicine at Mount Sinai

# Awarding of Honorary Degree

---

## DOCTOR OF SCIENCE

HELENA HANSEN, MD, PhD

Associate Professor,

Departments of Anthropology and Psychiatry

Grossman School of Medicine

New York University

Helena Hansen. You are a trailblazing physician-scientist, cultural anthropologist, author, speaker, and policy maker and an important voice in addressing the social determinants of the health of our population. Your work has helped clinicians and practitioners to develop an understanding that they must strive to understand and act upon the institutional, social, and cultural influences on their patients' health.

You are a joint-appointed Associate Professor of Anthropology and Psychiatry at New York University. You earned your undergraduate degree at Harvard and MD and PhD in cultural anthropology at Yale University's NIH-funded Medical Scientist Training Program. During graduate school, you completed fieldwork in Havana on Cuban AIDS policy, and in Puerto Rico on faith healing in evangelical Christian addiction ministries founded and run by self-identified ex-addicts. After graduate school, you completed a clinical residency in psychiatry at NYU Medical Center/Bellevue Hospital, during which you also undertook an ethnographic study of the introduction of new addiction pharmaceuticals. You examined the social and political implications of clinicians' efforts to establish addiction as a biomedical rather than moral or social condition, as well as the ways that neurochemical treatments may be re-inscribing hierarchies of ethnicity and race.

This work informed your current book project, *White Opioids*, along with a feature-length visual documentary based on this work, *Managing the Fix*, which debuted at the annual meeting of the American Psychiatric Association. Your work has been published in both clinical and social science journals ranging from the *Journal of the American Medical Association* and *New England Journal of Medicine* to *Social Science and Medicine* and *Medical Anthropology*. You are also the author of *Addicted to Christ: Remaking Men in Puerto Rican Pentecostal Drug Ministries*. You are currently leading a national movement that is advocating for the training of clinical practitioners to address social determinants of health, or "Structural Competency," which is the subject of your co-authored book *Structural Competency in Medicine and Mental Health: A Case-Based Approach to Treating the Social Determinants of Health*.

You are the recipient of the Robert Wood Johnson Health Policy Investigator Award, Kaiser Permanente Burche Minority Leadership Award, an NIH K01 Award, a Mellon Sawyer Seminar grant, the NYU Golden Dozen Teaching Award, and the American Association of Directors of Psychiatry Residency Training Model Curriculum Award.

Helena Hansen. You have dedicated your wide-ranging career to studying the intersections of social forces and medicine, identifying opportunities for improving health and greatly improving access to care for all. For your innovative work, which has deepened our understanding of the social forces that influence public health, it is a privilege to confer upon you the degree of Doctor of Science, *Honoris Causa*.

# *Candidates for Degrees*

---

## **MASTER OF SCIENCE IN BIOMEDICAL DATA SCIENCE**

---

The Master of Science in Biomedical Data Science (MSBDS) program at the Icahn School of Medicine at Mount Sinai integrates training and education in various aspects of biomedical sciences with machine learning, computer systems, and big data analysis, as well as access to large electronic medical record-linked biomedical repositories. Housed within the Graduate School of Biomedical Sciences, our Program offers a unique opportunity for students with a strong quantitative background to hone the skills necessary to enrich—and ultimately to lead—the biomedical workforce of tomorrow.

WILLIAM M. LEE

## **MASTER OF SCIENCE IN BIOMEDICAL INFORMATICS**

---

The Master of Science in Biomedical Informatics program trains individuals to be immediately productive in biomedical research and clinical teams by teaching practical computational and data science skills. Using informatics tools, we teach our students the skills they need to accelerate biomedical scientific discovery and health care translation. Students are taught to apply practical computational and data analytic methods to real-life biomedical and health care challenges. The ability to transform raw data into actionable knowledge is one of the most exciting, powerful and sought-after skills today.

ISMAIL NABEEL

## **MASTER OF SCIENCE IN BIOSTATISTICS**

---

The Master of Science in Biostatistics program is designed to prepare students with strong backgrounds in mathematics for careers as data analysts and applied biostatisticians in the biomedical and translational sciences. The program is directed at students whose goal is to work as a biostatistician in a clinical, research, or industry setting; or as a stepping-stone to pursue a PhD in Biostatistics, Epidemiology, or Bioinformatics. The curriculum emphasizes strong quantitative training, critical thinking skills, and practical strategies for addressing complex challenges of novel, clinical and translational research.

Equipped with a comprehensive knowledge of both statistical theory and biomedical applications, graduates of the Master in Biostatistics Program are in high demand for roles in various settings including academic medical centers, the pharmaceutical industry, and the government sector in agencies such as Departments of Health, FDA, NIH, and CDC.

## **MASTER OF SCIENCE IN GENETIC COUNSELING**

---

The Master of Science in Genetic Counseling is a two-year, full-time course of study designed to train future genetic counselors. Genetic counselors help people understand and adapt to the medical, psychological and familial implications of genetic and genomic contributions to disease.

Genetic counseling students complete coursework in basic and clinical sciences, medical genetics and genomics, genetic counseling, and bioethics. Supported by the Division of Medical Genetics and Genomics within the Department of Genetics and Genomic Sciences, our students gain hands-on experience working with patients to understand the impact of genetics and genomics in medicine. Additionally, each student completes a thesis to develop the critical thinking and clinical research skills required to academically contribute to the profession.

The integration of the academic and clinical disciplines within the Graduate School of Biomedical Sciences, Icahn School of Medicine, and the Mount Sinai Health System provides our students unparalleled opportunities for didactic and clinical experiences to develop the medical, scientific, and psychosocial skills necessary to practice in this challenging and exciting field. Our graduates are uniquely qualified and highly recruited professionals in one of the fastest growing areas in healthcare.

The Genetic Counseling Program is accredited by the Accreditation Council for Genetic Counseling and our graduates are eligible to sit for the American Board of Genetic Counseling Certification examination.

## **MASTER OF SCIENCE IN HEALTH CARE DELIVERY LEADERSHIP**

---

The Master of Science in Health Care Delivery Leadership program provides experienced health care professionals with an unrivaled executive degree program where students learn from senior experts at the front lines of health care delivery innovation. Offered by the Department of Population Health Science and Policy in the Graduate School of Biomedical Sciences, the program uses a combination of seminars, online classes, and applied projects to prepare participants to immediately implement what they have learned. The Master of Science in Health Care Delivery Leadership further develops health care professionals to expand their leadership profile, drive needed change, solve complex problems, and create dynamic new approaches that improve the quality, value, and cost of patient care.

## **MASTER OF SCIENCE IN CLINICAL RESEARCH**

---

The Master of Science in Clinical Research program offers aspiring clinical and translational science investigators exceptional training for future roles in clinical and translational science. Our program is designed for post-baccalaureate and post-graduate students with diverse educational backgrounds, including science, technology, engineering, biomedicine and health sciences. Training opportunities offered through our program are intended to encourage the development of the critical thinking skills necessary to conduct innovative, hypothesis-driven, independent and collaborative translational research in an effort to improve patient care and the well-being of patients everywhere.

## **MASTER OF SCIENCE IN BIOMEDICAL SCIENCES**

Mount Sinai's Program of Biomedical Sciences is highly collegial and interconnected: translational and basic science researchers, students, and postdocs all share the same space, and our faculty is strongly committed to excellence in both teaching and research. Our Masters students thrive in this setting, and the program takes full advantage of the wide range of multidisciplinary research and educational programs available to prepare students to continue their education as a PhD student, medical student or to enter the biomedical research profession. Since it was established in 2005, more than 250 students have completed the MSBS program.

## **MASTER OF PUBLIC HEALTH**

The Graduate Program in Public Health at the Icahn School of Medicine at Mount Sinai is dedicated to improving the health of communities and individuals. The Program is based on the following core values: community, sound science, diversity, social justice, and engagement. The Program's mission is to educate our students to prevent disease, protect the environment, and promote good health in partnership with the populations they serve. Through interdisciplinary research and innovation, policy analysis, and advocacy, our students and graduates translate knowledge into practice to serve local, national, and global communities. Training takes place within the largest health care system in New York City, located at the intersection of East Harlem and the Upper East Side—the border between underserved and highly affluent neighborhoods. This geography and the diverse patient population Mount Sinai serves brings into stark relief the health disparities that exist not only in our own community but throughout the world, and frames our students' educational, practical, and research experience. MPH graduates pursue careers in a wide variety of settings including academic research institutions, community-based organizations, health departments, international NGOs, industry, and the domestic non-profit sector.
