COMMENCEMENT PROGRAM

GRAND MARSHAL

Henry Sacks, PhD, MD
Professor, Department of Environmental Medicine and Public Health
Icahn School of Medicine at Mount Sinai

PRESIDING

Eric J. Nestler, MD, PhD
Director, Friedman Brain Institute
Dean for Academic and Scientific Affairs
Nash Family Professor, Nash Family Department of Neuroscience
Icahn School of Medicine at Mount Sinai

COMMENCEMENT ADDRESS & HONORARY DEGREE RECIPIENT

DOCTOR OF SCIENCE

Mona Hanna-Attisha, MD, MPH
Pediatrician and Director,
MSU-Hurley Children's Hospital Pediatric Public Health Initiative

STUDENT SPEAKER

Meghan Elizabeth Lee Smith

DEAN’S REMARKS

Marta Filizola, PhD
Dean, Graduate School of Biomedical Sciences
Sharon & Frederick A. Klingenstein-Nathan G. Kase, MD Professor
Department of Pharmacological Sciences
Department of Neuroscience
Icahn School of Medicine at Mount Sinai
REMARKS AND PRESENTATION OF DEGREE CANDIDATES

MASTER OF SCIENCE IN BIOMEDICAL DATA SCIENCE

Eric A. Sobie, PhD
Co-Director, Master of Science in Biomedical Data Science
Graduate School of Biomedical Sciences
Professor, Department of Pharmacological Sciences
Icahn School of Medicine at Mount Sinai

Li Shen, PhD
Co-Director, Master of Science in Biomedical Data Science
Graduate School of Biomedical Sciences
Associate Professor, Department of Neuroscience
Icahn School of Medicine at Mount Sinai

MASTER OF SCIENCE IN BIOSTATISTICS

Emilia Bagiella, PhD
Director, the Center for Biostatistics at the Icahn School of Medicine at Mount Sinai
Co-Director, Master of Science in Biostatistics Program
Graduate School of Biomedical Sciences
Professor, Department of Population Health Science and Policy
Icahn School of Medicine at Mount Sinai

Alan Weinberg, MS
Co-Director, Master of Science in Biostatistics Program
Graduate School of Biomedical Sciences
Associate Professor, Department of Population Health Evidence and Policy
Icahn School of Medicine at Mount Sinai

MASTER OF HEALTH ADMINISTRATION &
MASTER OF SCIENCE IN HEALTH CARE DELIVERY LEADERSHIP

Brian J. Nickerson, PhD, JD
Senior Associate Dean for Master's Programs
Director, Master of Science in Health Care Delivery Leadership & Master of Health Administration Programs
Graduate School of Biomedical Sciences
Professor, Department of Population Health Science and Policy
Icahn School of Medicine at Mount Sinai
COMMENCEMENT PROGRAM

MASTER OF SCIENCE IN GENETIC COUNSELING

Randi E. Zinberg, MS, MS, CGC
Director, Graduate Program in Genetic Counseling
Graduate School of Biomedical Sciences
Assistant Professor, Department of Genetics and Genomic Sciences and Obstetrics, Gynecology and Reproductive Science
Icahn School of Medicine at Mount Sinai

MASTER OF SCIENCE IN CLINICAL RESEARCH

Janice L. Gabrilove, MD, FACP
Director, Clinical Research Education Programs
(CRTP, Master of Science in Clinical Research, and PhD in Clinical Research)
Co-Director, PORTAL (MD/MSCR) Programs
Graduate School of Biomedical Sciences
The James F. Holland Professor of Medicine and Oncological Sciences
Associate Director, Education and Training
The Tisch Cancer Institute
Icahn School of Medicine at Mount Sinai

Alan Moskowitz, MD
Co-Director, Clinical Research Education Program
(CRTP, Master of Science in Clinical Research, and PhD in Clinical Research)
Co-Director, Master of Science in Healthcare Delivery Leadership Program
Graduate School of Biomedical Sciences
Vice Chair and Professor, Department of Population Health Science and Policy
Icahn School of Medicine at Mount Sinai

MASTER OF SCIENCE IN BIOMEDICAL SCIENCES

Basil G. Hanss, PhD
Senior Associate Dean for Student Affairs and Career Development
Associate Dean for Graduate School Well-Being
Director, Master of Science in Biomedical Sciences
Graduate School of Biomedical Sciences
Associate Professor, Samuel Bronfman Department of Medicine
Icahn School of Medicine at Mount Sinai

MASTER OF PUBLIC HEALTH

Nils Hennig, MD, PhD, MPH
Director, Graduate Program in Public Health
Graduate School of Biomedical Sciences
Associate Professor, Jack and Lucy Clark Department of Pediatrics, Department of Environmental Medicine and Public Health, and Department of Health System Design and Global Health
Icahn School of Medicine at Mount Sinai
DOCTOR OF SCIENCE
Mona Hanna-Attisha, MD, MPH
Pediatrician and Director,
MSU-Hurley Children's Hospital Pediatric Public Health Initiative

Citation by
Reena Karani, MD, MHPE
Director, Institute for Medical Education
Professor, Department of Medical Education
Icahn School of Medicine at Mount Sinai

Dr. Mona Hanna-Attisha. You are a pediatrician, scientist, activist, and author, and your unwavering commitment to your patients helped to uncover the Flint, Michigan water crisis. Your courageous testimony three times before the United States Congress led to exposure of an environmental and health injustice scandal and, today, to a historic clean-up of water systems in Flint. You are now leading recovery efforts for patients and families impacted by the crisis.

You are founder and director of the Michigan State University and Hurley Children’s Hospital Pediatric Public Health Initiative, an innovative and model public health program that works with the community to address the population-wide lead exposure and mitigate its impact, advocate for families affected, serve as a national resource for best practices, and help all Flint children grow up healthy and strong.

You earned your bachelor’s degree and Master of Public Health degree, with concentrations in environmental health and health policy, from the University of Michigan; your medical degree from Michigan State University College of Human Medicine; and you completed your residency at Children's Hospital of Michigan in Detroit, where you were chief resident. You are the Charles Stewart Mott Endowed Professor of Public Health and an associate professor of pediatrics and human development at Michigan State University College of Human Medicine.

Your work has been recognized globally and you are the recipient of many awards and honors, including the Freedom of Expression Courage Award by PEN America and the 2020 Fries Prize for Improving Health. You were named one of Time magazine’s “100 Most Influential People in the World” and recognized as one of USA Today’s “Women of the Century” for your roles in uncovering the Flint water crisis and leading recovery efforts.

A frequent contributor to national media outlets, including the New York Times and Washington Post, you have appeared on CNN, MSNBC, BBC, and countless other outlets championing the cause of children in Flint and beyond. You are the founding donor of the Flint Child Health and Development Fund (flintkids.org) and author of the widely acclaimed and bestselling book, What the Eyes Don’t See: A Story of Crisis, Resistance, and Hope in an American City. A COVID-19 survivor, you have also donated your convalescent plasma several times while continuing to advocate for racial equity in health.
Dr. Hanna-Attisha, your intrepid and heroic voice, speaking on behalf of the children and families you care for, shines a light on the ways in which systemic racism devastates the health of the most vulnerable members of our communities and forced a historic reckoning that will help to ensure that a crisis like Flint’s never happens again. For your life-saving work and courageous caregiving, it is a privilege to confer upon you the degree of Doctor of Science, *Honoris Causa.*
MASTER OF SCIENCE IN BIOMEDICAL DATA SCIENCE

The Master of Science in Biomedical Data Science (MSBDS) program at the Icahn School of Medicine at Mount Sinai integrates training and education in various aspects of biomedical sciences with machine learning, computer systems, and big data analysis, as well as access to large electronic medical record-linked biomedical repositories. Housed within the Graduate School of Biomedical Sciences, our Program offers a unique opportunity for students with a strong quantitative background to hone the skills necessary to enrich—and ultimately to lead—the biomedical workforce of tomorrow.

Helena Belloff
Chloe Chuo Ling
Shaun Porwal
Adriana Sistig
MASTER OF SCIENCE IN BIOSTATISTICS

The Master of Science in Biostatistics program is designed to prepare students with strong backgrounds in mathematics for careers as data analysts and applied biostatisticians in the biomedical and translational sciences. The program is directed at students whose goal is to work as a biostatistician in a clinical, research, or industry setting; or as a stepping-stone to pursue a PhD in Biostatistics, Epidemiology, or Bioinformatics. The curriculum emphasizes strong quantitative training, critical thinking skills, and practical strategies for addressing complex challenges of novel, clinical and translational research.

Equipped with a comprehensive knowledge of both statistical theory and biomedical applications, graduates of the Master in Biostatistics Program are in high demand for roles in various settings including academic medical centers, the pharmaceutical industry, and the government sector in agencies such as Departments of Health, FDA, NIH, and CDC.

MASTER OF HEALTH ADMINISTRATION

The Master of Health Administration (MHA) was launched in January 2020 and is designed to create a new class of well-prepared administrators to drive systemic change, innovation, and improved value in health care delivery systems. Recognizing that the skills to implement innovation are just as necessary as the ones for envisioning new strategies, the program forges health care administrators who are adept at managing and leading change in a highly uncertain environment. Our students master courses in population health, finance, operations, policy, information technology innovation, and quality assurance, to name a few.

Arkadiy Rakhman
MASTER OF SCIENCE IN HEALTH CARE DELIVERY LEADERSHIP

The Master of Science in Health Care Delivery Leadership program provides experienced health care professionals with an unrivaled executive degree program where students learn from senior experts at the front lines of health care delivery innovation. Offered by the Department of Population Health Science and Policy in the Graduate School of Biomedical Sciences, the program uses a combination of seminars, online classes, and applied projects to prepare participants to immediately implement what they have learned. The Master of Science in Health Care Delivery Leadership further develops health care professionals to expand their leadership profile, drive needed change, solve complex problems, and create dynamic new approaches that improve the quality, value, and cost of patient care.

The Master of Science in Genetic Counseling is a two-year, full-time course of study designed to train future genetic counselors. Genetic counselors help people understand and adapt to the medical, psychological and familial implications of genetic and genomic contributions to disease.

Genetic counseling students complete coursework in basic and clinical sciences, medical genetics and genomics, genetic counseling, and bioethics. Supported by the Division of Medical Genetics and Genomics within the Department of Genetics and Genomic Sciences, our students gain hands-on experience working with patients to understand the impact of genetics and genomics in medicine. Additionally, each student completes a thesis to develop the critical thinking and clinical research skills required to academically contribute to the profession.

The integration of the academic and clinical disciplines within the Graduate School of Biomedical Sciences, Icahn School of Medicine, and the Mount Sinai Health System provides our students unparalleled opportunities for didactic and clinical experiences to develop the medical, scientific, and psychosocial skills necessary to practice in this challenging and exciting field. Our graduates are uniquely qualified and highly recruited professionals in one of the fastest growing areas in healthcare.

The Genetic Counseling Program is accredited by the Accreditation Council for Genetic Counseling and our graduates are eligible to sit for the American Board of Genetic Counseling Certification examination.

MASTER OF SCIENCE IN CLINICAL RESEARCH

The Master of Science in Clinical Research program offers aspiring clinical and translational science investigators exceptional training for future roles in clinical and translational science. Our program is designed for post-baccalaureate and post-graduate students with diverse educational backgrounds, including science, technology, engineering, biomedicine and health sciences. Training opportunities offered through our program are intended to encourage the development of the critical thinking skills necessary to conduct innovative, hypothesis-driven, independent and collaborative translational research in an effort to improve patient care and the well-being of patients everywhere.

MASTER OF SCIENCE IN BIOMEDICAL SCIENCES

Mount Sinai’s Program of Biomedical Sciences is highly collegial and interconnected: translational and basic science researchers, students, and postdocs all share the same space, and our faculty is strongly committed to excellence in both teaching and research. Our Masters students thrive in this setting, and the program takes full advantage of the wide range of multidisciplinary research and educational programs available to prepare students to continue their education as a PhD student, medical student or to enter the biomedical research profession. Since it was established in 2005, more than 250 students have completed the MSBS program.

MASTER OF PUBLIC HEALTH

The Graduate Program in Public Health at the Icahn School of Medicine at Mount Sinai is dedicated to improving the health of communities and individuals. The Program is based on the following core values: community, sound science, diversity, social justice, and engagement. The Program’s mission is to educate our students to prevent disease, protect the environment, and promote good health in partnership with the populations they serve. Through interdisciplinary research and innovation, policy analysis, and advocacy, our students and graduates translate knowledge into practice to serve local, national, and global communities. Training takes place within the largest health care system in New York City, located at the intersection of East Harlem and the Upper East Side—the border between underserved and highly affluent neighborhoods. This geography and the diverse patient population Mount Sinai serves brings into stark relief the health disparities that exist not only in our own community but throughout the world, and frames our students’ educational, practical, and research experience. MPH graduates pursue careers in a wide variety of settings including academic research institutions, community-based organizations, health departments, international NGOs, industry, and the domestic non-profit sector.
