## Home Position

Always start with all the instruments in the Home Position

## Need Help?

**Barbara Sierra** - Simulation Operations Manager

[barbara.karagiannis@mountsinai.org](mailto:barbara.karagiannis@mountsinai.org)

Cell: 347-575-3119

Office: 212-523-8985

Room: 8A-84

**Priscilla V. Loanzon** - Director of Simulation Education

[priscilla.loanzon@mountsinai.org](mailto:priscilla.loanzon@mountsinai.org)

Office: 212-523-8698

Room: 8G-40

# Vimedix

Open right cabinet door below simulator.

Ensure probe you are using is attached to port labeled **SENSOR 1**

Power on the laptop.

On the desktop you will see the CAE-Vimedix Icon. Double Click icon to launch application

When prompted to calibrate the probe, follow the image and instructions on the screen. When ready click continue.

Accept the software license agreement when prompted.

Scan for  
User Manual

# Simbionix

## GI-Bronch Mentor

Make sure correct scope is attached to simulator.

**To change scope:**

Turn external (silver) dial to left and remove connector.

**To insert new scope:**

Align the flange and pins of the scope with the simulator. Turn external (silver) dial to the right until you hear it click into place.

Press red power button to turn on simulator once scope is attached

External Dial

## Creating a Login

Click on **Register** to use the system

When prompted enter the **access code** for this simulator and click **ok**.  
Fill out the **User Details** accurately.
