C. Sponsored Projects Finance
Mr. Raj Appavu
The Sponsored Projects Finance Director is the contact person for the following reports and information:

1. Financial reports
2. Payment information
   a. Checks
      Checks should be sent to the Sponsored Projects Finance Director. However, you may also request that these checks be sent to a local (i.e., a departmental administrator) rather than the institutional contact person.
   b. Electronic/wire transfer
3. Other post award documentation

D. NIH / HHS Salary cap: $203,700 (eff. 1/2/2022)
   If you are applying for a Department of Health and Human Services (HHS) sponsored project and your institutional base salary (e.g. $200,000) is greater than the NIH / HHS salary cap, use this salary cap. Do not use your institutional base salary. HHS includes the NIH, AHRQ, CDC, CMS, FDA, HRSA, and SAMHSA, among others.

E. Fringe Benefit Rates eff. 1/1/2021

   Federal: 29% of Salaries and Wages
   Non-Federal: 30% of Salaries and Wages

F. Facilities and Administrative (F&A) Rates:

1. Federal (includes Federal projects in which ISMMS is the subawardee institution)
   a. Research
      On-Site Through 12/31/2021 69.5%
      On-Site Beginning 1/1/2022 69.0%
      See section G.2 before applying 69.0% rate.
      Off-Site 26.0%
      Eff 10/15/21, competitive grants or contracts will not be subject to more than one F&A cost rate. If more than 50% of a project is performed off-campus, the off-campus rate will apply to the entire project.
   b. Federal Training and Career Development 8.0%
c. **Instruction/Training (Curriculum Development)**  
   Through 12/31/2021  41.0%  
   Beginning 1/1/2021  37.6%  
   See section G.2 before applying 37.6% rate.

d. **Other Sponsored Programs**  
   Through 12/31/2021  34.0%  
   Beginning 1/1/2022  33.5%  
   See section G.2 before applying 33.5% rate.

2. **Industry**  
   a. **Clinical Trials and Related Research**  35.0%  
      The protocol may be industry or investigator initiated. The study is either:  
      i. Controlled, clinical testing in human subjects drugs, devices, diagnostics, treatments, interventions, or preventative measures including testing for an unapproved indication or  
      ii. Data collection to increase knowledge that would lead to enhanced safety and efficacy of a drug or device, including medical chart reviews.  
   b. **Other Research**  69.5%  
      Please see G. “Calculating F&A Expenses” for additional information.

3. **Non-Federal (Nonprofit)**  
   Important: For non-federal (nonprofit) funded projects, please use the rates below when the extramural funding agency does not specify the amount. When a non-federal extramural agency does specify a rate, please use that rate on your budget.  
   a. **Research and Other Funded Programs**  25.0%  
   b. **Training and Fellowships**  8.0%

G. **Calculating F&A Expenses**  
   Please click on this ISMMS Finance policy and procedure memo for additional information. Other terms for F&A are indirect costs, overhead, and General and Administrative (G&A) expenses.

1. **Federal Funded Projects (F.1) and Industry Funded Other Research (F.2.b)**  
   The following expenses are excluded when calculating F&A costs:  
   a. **Alterations/Renovations:** of $1,000 or more unless allowed by the extramural funding agency  
   b. **Equipment:** Unit cost of equipment is $1,500 or more and a useful life of at least one year.  
   c. **Patient Care Costs:** The costs of routine and ancillary services provided by hospitals to individuals participating in research programs. Click here for NIH’s complete definition.  
   d. **Subawards/Consortium Arrangements**  
      All funds above $25,000 per subawarding institution (“institution” is normally defined by having a unique DUNS number or NIH IPF number) are excluded when calculating F&A
costs. The $25,000 limit applies once for each subawarding institution within a project period.

e. Tuition and Fees
f. Genomic Arrays - NIH policy NIH-OD-10-097

Modified Total Direct Cost (MTDC) base is a term used for the direct cost amount after the above expense categories have been excluded. F&A is then applied to the MTDC.

2. Federal Funded Grants (includes Federal grants in which ISMMS is the Subawardee Institution)
   On 1/1/2022, the federal research on campus, instruction/training and other sponsored programs on campus indirect cost rate for grants will change. Please see additional information below. In this section, the updated on-campus research rate of 69.0% is included because it is commonly used. However, do apply the updated instruction/training rate (37.6%) and other sponsored programs (33.5%) rate when appropriate.

   a. All Competitive (i.e., New, Competitive Renewal, or Resubmission) Applications
      When submitting competitive applications to the GCO, use the 69.0% rate in the appropriate future year budget period and prorate accordingly.

   b. Non-Competitive Applications: Projects Newly Awarded Prior to 1/1/2020
      If the new, competitive renewal, or resubmission award notice was issued prior to 1/1/2020, continue to use the 69.5% for the life of the project. Do not use the new rate.

   c. Non-Competitive Applications: Projects Newly Awarded from 1/1/2020 to 10/28/2020
      If the new, competitive renewal, or resubmission award notice was issued between 1/1/2020 and 10/28/2020, when you submit the non-competitive application that spans 1/1/2022 and beyond, rebudget, apply the new rate of 69.0%, and prorate accordingly.

3. Non-Federal Funded Projects
   F&A costs are applied to all cost categories unless otherwise specified by the extramural funding agency.

IV. GCO Deadlines for Review and Approval of Applications

The GCO must be in receipt of the COMPLETE AND FINAL proposal, including completed and signed Conflict of Interest and Suspension and Debarment forms as appropriate, by these deadlines. Routing the application through the departments for approval occurs before GCO receipt. Please allow adequate time for this process, especially for applications that need to be routed to more than one department.

* Please contact your assigned Grants Specialist in advance regarding any additional time the GCO may need in the review and approval process if you are applying for a sponsored project with complex budgetary and/or administrative requirements (e.g., program projects, application with many subawards, international extramural funding agency application with nonstandard budget forms).

** Only a small subset of ISMMS projects must be submitted to the GCO. Click here for more information.
