## Research Awards & Funding Opportunities

Dear Research Community,

Below are COVID-19 funding opportunities recently released from the funding opportunity database SPIN. The first table of InfoEd funding opps is a summary followed by a second with more detailed information.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserv are posted on [GCO's Funding Opportunities](#) page and on the [ORS Research Roadmap COVID-19 Funding Opportunities](#) page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in [The Conduit newsletter](#).

In addition, please review the [SPIN Getting Started Instructions](#) for information about beginning your individual search.

The Grants and Contracts Office

### Table 1 - Summary

<b>SPIN ID</b>	<b>Program Title</b>	<b>Sponsor Name</b>	<b>Sponsor Number</b>	<b>Deadline Date</b>	<b>Funding Amount</b>
099789	WFP Innovation Challenge	World Food Programme (WFP)		15-Nov-2020	100,000 USD
100467	Notice of Special Interest (NOSI): Effects of Smoking and Vaping on the Risk and Outcome of COVID-19 Infection	National Institute on Drug Abuse/NIH/DHHS084	NOT-DA-20-	07-Jan-2021	Not Specified
100570	SenSARS	Defense Advanced Research Projects Agency	DARPA-PA-20-	01-Dec-2020	Not Specified

100584	Challenges Global Best Practice	Trinity Challenge	08-Nov-2020	Not Specified
100585	Programme -- Special Edition COVID-19 Call for proposals	Expo 2020 Dubai	31-Dec-2020	Not Specified

	Deadline Dates (ALL)	15-Nov-2020		
	Synopsis	<p>Unless swift action is taken, some 265 million people in low and middle-income countries will be in acute food insecurity by the end of 2020, due to conflict, climate shocks, poverty and #COVID19. The COVID-19 pandemic is exacerbating food insecurity, interrupting supply chains, and moving more people into hunger than previously predicted. WFP seeks cutting-edge solutions to transform emergency response and to achieve SDG2: Zero Hunger by 2030 for communities impacted by COVID19 and beyond. Innovations are needed more than ever before to achieve this goal. In the The WFP Innovation Challenge 2020, the sponsor is looking for innovations that seek to disrupt hunger.</p>

Sponsor Website [Link to sponsor website](#)

Program URL

Deadline Dates (ALL) 01-Dec-2020

Synopsis

The COVID-19 pandemic has highlighted the need for improved environmental sensing of pathogens. Sensing SARS-CoV-2 virus in the air with high sensitivity and specificity could provide a new mechanism for public health monitoring, enabling safer conditions for a wide range of basic activities including work, travel, and school. SenSARS aims to identify SARS-CoV-2 signatures suitable for rapid indoor air monitoring and use these signatures to develop and demonstrate a technology readiness level (TRL) 4 prototype sensor. Additional beta.sam.gov information Notice Id a84f1af107334afcbf39d885d8f668a3 Source <https://beta.sam.gov/opp/a84f1af107334afcbf39d885d8f668a3/view>

Deadline Dates (ALL) 08-Nov-2020 , 30-Jan-2021 , 30-Apr-2021

Synopsis

The Trinity Challenge is set across three areas designed to reflect the most pressing needs for building preparedness for resilience in health emergencies. People from across the world are encouraged to form Challenge Teams and submit applications that respond to these questions with their ideas and innovations. Successful applications will receive support from Members to develop their solutions. Applicants will benefit from the data, resources and support of The Trinity Challenge's global coalition. Categories include:

Identification; Response; and Recovery.

Program URL

[Link to program URL](#)

Deadline Dates (ALL) 07-Jan-2021 [Optional][LOI/Pre-App], 08-Feb-2021

Synopsis

The goal of this Notice of Funding Opportunity (NOFO) is to support a network of US institutions to develop and implement standard research protocols to conduct prospective active surveillance for: a) acute gastroenteritis (AGE) due to norovirus, rotavirus and other enteric viruses; b) acute respiratory illnesses (ARI) due to respiratory viruses including, but not limited to, influenza, RSV, parainfluenza viruses, human metapneumovirus, rhinoviruses, enteroviruses (including EV-D68), adenoviruses, and coronaviruses (including SARS-CoV-2); and c) acute flaccid myelitis (AFM) syndrome and multisystem inflammatory syndrome in children (MIS-C) among pediatric patients seeking healthcare at medical institutions. The network should also provide accurate estimates of the effectiveness in this population of influenza, rotavirus, COVID-19 and other vaccines against respiratory or enteric virus-associated illnesses projected to become available during the period of performance (e.g., RSV, norovirus). Participating institutions should identify AGE, ARI, AFM and MIS-C illnesses among pediatric patients seeking healthcare or diagnostic testing for acute illness in inpatient, outpatient and emergency departments. Recipients should enroll patients meeting standard symptom criteria, and confirm viral infection using approved molecular assays. Vaccine effectiveness (VE) estimates will be calculated. Estimates of VE, burden of disease, and information on the natural history of disease will be used to: a) inform best practices for diagnosis and treatment protocols; b) inform vaccine recommendations; and c) assess public health impact of vaccination and public health programs to prevent viral illness-related healthcare encounters and medical visits among pediatric populations.

Deadline Dates (ALL) 11-Jan-2021

Synopsis This grant honors the memory of John H. Rippey, MD, an advocate of the CAP who was devoted to improving laboratory quality assurance. The CAP Foundation is repositioning the grant to provide funding for investigation of the impact of COVID-19-related tests, principally nucleic acid amplification and serologic methods, on patient outcomes, including studies related to test accuracy, timeliness, and result communication. Applicants must demonstrate how their projects support quality assurance, quality and/or process improvements in pathology, or patient safety, with the result of improved patient care.

Deadline Dates (ALL) 15-Jan-2021

Synopsis This purpose of this Notice of Special Interest (NOSI) is to inform the extramural community about NHGRI's interest in supporting research on pressing public health questions that can uniquely be addressed by collaborative efforts of large international cohort studies. Specifically, this call is limited to coordinated efforts focused on the collection and analysis of data or samples from ancestrally diverse cohorts of individuals participating in the International Hundred Thousand+ Cohort Consortium.
