Dear Research Community,

Below are COVID-19 funding opportunities recently released from the NIH and the funding opportunity database SPIN. The NIH Table of Contents is excerpted below followed by a summary table of funding opportunities from SPIN and then a table with more detailed information from SPIN.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserve are posted on GCO’s Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.

The Grants and Contracts Office

NIH Guide for Grants and Contracts (Web Version)

Weekly NIH Funding Opportunities and Notices for May 01, 2020

General Notices

- Notice of Information: Contributing to the Global COVID-19 Crisis Response by Allowing Some NCI-supported Projects to be Redirected to COVID-19-related Research During the Crisis (NOT-CA-20-054)
  National Cancer Institute

Notice of Changes to Funding Opportunities

- Notice of Additional Activity Code Accepted for "NOT-DK-20-018, Notice of Special Interest (NOSI): Availability of Urgent Competitive Revision Supplements on Coronavirus Disease 2019 (COVID-19) within the Mission of NIDDK" (NOT-DK-20-026)
  National Institute of Diabetes and Digestive and Kidney Diseases

Notices of Special Interest

- Notice of Special Interest (NOSI): Availability of Emergency Competitive Revisions on Coronavirus Disease 2019 (COVID-19) for Currently Active NHLBI Phase I/II Clinical Trials (NOT-HL-20-782)
  National Heart, Lung, and Blood Institute

  National Library of Medicine

- Notice of Special Interest (NOSI): Availability of Urgent Competitive Revisions and Administrative Supplements For Research on Biological Effects of the 2019 Novel Coronavirus on the Nervous System (NOT-NS-20-051)
  National Institute of Neurological Disorders and Stroke

<td></td>
<td>Synopsis</td>
<td>For the 2020 award cycle, the Golden Goose Steering Committee has chosen to recognize those individuals or teams whose federally funded research has had a significant and demonstrable impact in responding to COVID-19. The sponsor aims to demonstrate the benefits of federally funded scientific research that has contributed to global understanding, breakthroughs in treatment, and innovative and science-based responses to the human and/or economic impact of the virus. This recognition is also intended to demonstrate how scientific and technological advances and innovations that result from foundational scientific research supported by the federal government can quickly emerge to meet national and global challenges. They are therefore seeking GGA nominations highlighting these scientific and technological advances relating to COVID-19 that could not have been predicted at the time of initial study or which were focused on other work and have now pivoted to address the current pandemic. It also seeks to highlight and honor examples of scientific studies or research that may not have seemed relevant to a real world problem or societal challenge or for which the results and application were totally unforeseen, but which have serendipitously led to a major breakthroughs and clear impact in our fight against COVID-19.</td>

**Synopsis**: The Center for Biomolecular Structure team is supporting remote macromolecular crystallography experiments at Beamlines 17-ID-1 (AMX) and 17-ID-2 (FMX) for research projects related to COVID-19.

**093626** Indo-U.S. Virtual Networks for COVID-19 Indo-U.S. Science & Technology Forum 2020 Available

**Contact Telephone**: +91-11-42691700

**Contact Email**: virtual.center@indousstf.org

**Sponsor Website**: https://iusstf.org/announcements-and-events

**Program URL**: https://iusstf.org/assets/sitesfile/image/counselling/Pre-Call%20announcement_COVID-19%20Virtual%20Networks.pdf

**Deadline Dates (ALL)**: 15-May-2020

To support the global efforts of the medical and scientific community, IUSSTF announces a Call for Proposals for COVID-19 Indo-U.S. Virtual Networks. IUSSTF encourages proposals that convincingly demonstrate the benefits and value of the Indo-U.S. partnership to advance research and address critical challenges related to COVID-19.

**093615** Response to COVID-19 Open Road Alliance None posted Not Available

**Contact Email**: funding@openroadalliance.org

**Sponsor Website**: https://openroadalliance.org/

**Program URL**: https://openroadalliance.org/covid-19/

**Synopsis**: Open Road is offering charitable grants and loans to nonprofits and social enterprises impacted by COVID-19.

**093623** COVID-19 Ignition Grants Indo-U.S Science & Technology Forum 2020 USD

**Contact Telephone**: +91-11-42691700

**Contact Email**: dhealy@nber.org

**Sponsor Website**: http://nber.org/

**Deadline Dates (ALL)**: 15-May-2020

The United States–India Science & Technology Endowment Fund (USISTEF) seeks to support and foster joint applied R&D to generate public good through the commercialization of technology developed through sustained partnerships between U.S. and Indian researchers and entrepreneurs. The current global crisis underscores the importance and relevance of USISTEF activities. In keeping with its’ mission and vision, the United States–India Science & Technology Endowment Fund announces a Call for Proposals under the category of Ignition Grants. USISTEF encourages out-of-the-box, innovative ideas from the community to address the COVID-19 challenge. Ignition Grant proposals should address proof-of-concept based on sound science and engineering research, potential for commercial viability and practicality of the idea/innovation/technology.

**Contact Name**: Denis Healy

**Contact Telephone**: 617-868-3900

**Sponsor Website**: dhealy@nber.org

**Deadline Dates (ALL)**: 11-May-2020

The National Bureau of Economic Research (NBER), with the generous support of the Bill and Melinda Gates Foundation, seeks to advance understanding of women’s role in the economy by supporting early-stage research projects. The NBER is offering approximately four research grants of $20,000 each to support projects related to women, victimization, and domestic violence, with particular emphasis on the impact of the current COVID-19 pandemic. Research projects that focus on both developing and developed nations are welcome.

**093635** Billion Molecules Against COVID-19 Grand Challenge Joint European Disruptive Initiative 03-Jun-2020 2,180,000.00 USD

**Contact Name**: Hugo Sedouramane, Joint European Disruptive Initiative

**Contact Telephone**: +33 6 83 25 67 43

**Contact Email**: media@jedi.group

**Deadline Dates (ALL)**: 03-Jun-2020

The Joint European Disruptive Initiative is launching the Billion Molecules against COVID-19 Grand Challenge, with grand prizes of up to 2 million Euros for the winners. Open to the best scientific & technology teams in the world, it has one objective: to screen billions of molecules with blocking interactions relevant to SARS-CoV-2, and fast-track the route to a therapeutic treatment.

**093604** Access to Platform for Partner COVID-19 Projects Ginkgo Bioworks None posted Not Available

**Contact Telephone**: 877-422-5362

**Contact Email**: covid-response@ginkgobioworks.com

**Sponsor Website**: https://www.ginkgobioworks.com/2020/03/17/ginkgo-commits-25m-of-free-access-to-our-platform-for-partner-covid-19-projects/

**Program URL**: https://www.ginkgobioworks.com/covid-19/

**Synopsis**: Ginkgo Bioworks has committed its platform to supporting research and development efforts for COVID-19, including $25M of free access to its infrastructure.

**093585** FDA Postgraduate COVID-19 Analysis Fellowship Oak Ridge Institute for Science & Education 24-Sep-2020 0035

**Contact Email**: FDArpp@orau.org

**Deadline Dates (ALL)**: 24-Sep-2020

A research opportunity is currently available with the Division of Plasma Protein Therapeutics (DPPT), in the Office of Tissues and Advanced Therapies (OTAT), at the Center for Biologics Evaluation and Research (CBER), Food and Drug Administration (FDA) located in Silver Spring, Maryland.

**093627** Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 National Institute of Allergy and Infectious Diseases 29-April 2020 275,000.00
Emergency Awards: Rapid Investigation of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19) (R01 Clinical Trial Not Allowed)

**Contact Name:** Diane Post, Ph.D.  
**Contact Telephone:** 240-627-3348  
**Contact Email:** postd@niaid.nih.gov  
**Program URL:** https://grants.nih.gov/grants/guide/pa-files/PAR-20-178.html  
**Deadline Dates (ALL):** 29-Apr-2021  
**Synopsis:**  
The purpose of this Funding Opportunity Announcement (FOA) is to provide an expedited funding mechanism for research on Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19). NIAID is issuing this FOA in response to the declared public health emergency issued by the Secretary, HHS, for 2019 Novel Coronavirus (COVID-19).

COVID-19 Response: A Call for Ideas

**Contact Telephone:** 703-993-4930  
**Contact Email:** mercatus@mercatus.gmu.edu  
**Sponsor Website:** https://www.mercatus.org/  
**Program URL:** https://www.mercatus.org/features/covid-19-response-call-ideas  
**Deadline Dates (ALL):** Not Available  
**Synopsis:**  
The Mercatus Center, building on its COVID-19 policy brief series, welcomes proposals for policy briefs, working papers, and articles that address the next round of challenges facing the United States and other countries in the response to the pandemic.

Greater Value Portfolio Grant Award

**Contact Telephone:** 860-521-9011  
**Contact Email:** office@donaghue.org  
**Sponsor Website:** https://donaghue.org/grant-opportunities/  
**Program URL:** https://donaghue.org/grant-opportunities/greater-value-portfolio/  
**Deadline Dates (ALL):** 11-May-2020 [LOI/Pre-App], 03-Aug-2020  
**Synopsis:**  
The Donaghue Foundation announces its 2020 Greater Value Portfolio grant program that will fund research projects for two years with a maximum amount of $400,000 per award (plus a 10% indirect) for the purpose of advancing promising approaches to achieve a higher value healthcare system. The goal of this program is to test approaches and tools that organizations can readily use to improve the value of the healthcare they provide to patients and communities.

Synopsis
Through STOP Spillover, the U.S. Agency for International Development (USAID) seeks to reduce the vulnerability of high-risk[1]/low-capacity countries in Asia and Africa to (1) spillover of emerging zoonotic viruses from animal hosts (such as livestock or wildlife) to humans and (2) amplification and spread of these viruses once they have spilled over to humans. For the purposes of the STOP Spillover activity “wildlife” shall include terrestrial species that may act as a host or reservoir for the transmission of zoonotic pathogens to humans, and does not include captive zoo animals, fish and aquatic species, insects, plants, or domesticated animals such as dogs or cats.

Synopsis
In order to respond to the COVID-19 pandemic, PCORI is issuing a new research funding announcement with an accelerated timeline to support innovative, high-impact studies that fit clearly within its core mission of patient-engaged and patient-centered comparative clinical effectiveness research. The objectives of this announcement are to (1) strengthen the understanding of different approaches to mitigate the impact of COVID-19 on individuals, communities, healthcare providers, and healthcare systems; and (2) provide evidence to inform clinical and public health responses, decision making, and planning. PCORI encourages the use of diverse methods, including interventional studies and the use of natural experiments, to conduct research on an accelerated timeline. Applicants are encouraged to complete primary outcomes collection and provide actionable findings in no longer than 12 months. Hybrid designs, which can provide insight into implementation approaches in the context of evidence generation, will also be welcome. Applicants should be prepared to work independently and/or with PCORI to expedite dissemination of results.

Microsoft will award grants to nonprofits, researchers and organizations with AI and data science tools for research focused on COVID-19. This grant program provides Azure cloud and High-Performance Computing capabilities. Microsoft's team of AI for Health data science experts, whose mission is to improve the health of people and communities worldwide, is also open to collaborations with COVID-19 researchers as they tackle this critical challenge. More broadly, Microsoft’s research scientists across the world, spanning computer science, biology, medicine, and public health, will also be available to provide advice and collaborate per mutual interest.

<td>Microsoft will award grants to nonprofits, researchers and organizations with AI and data science tools for research focused on COVID-19. This grant program provides Azure cloud and High-Performance Computing capabilities. Microsoft's team of AI for Health data science experts, whose mission is to improve the health of people and communities worldwide, is also open to collaborations with COVID-19 researchers as they tackle this critical challenge. More broadly, Microsoft’s research scientists across the world, spanning computer science, biology, medicine, and public health, will also be available to provide advice and collaborate per mutual interest.</td>

American Diabetes Association COVID-19 and Diabetes Research Call for Applications.

The American Diabetes Association (ADA) is requesting applications (see RFA) for research focused on the impact of diabetes on COVID-19 and the impact of COVID-19 on diabetes and its complications.

Recent clinical results have shown that people with diabetes are at higher risk of death from COVID-19 and that COVID-19 drives an increased risk of hyperglycemia and other complications in those with and without diabetes. This is in addition to the risk due to advanced age and chronic disease. Both the biological mechanisms underlying this risk and how to minimize it remain poorly understood. There is an urgent need for research to understand the impact of diabetes on COVID-19 and vice versa. This is true at a basic and clinical level.

The main text of the application will be a **two-page application** to provide all necessary study components (Aims, Significance, Preliminary data (if applicable), Research Plan, Expected
Actionable Outcomes) with a one-page listing of critical references, PI Biosketch, and budget form. The goal of this RFA is to use a rapid application and review process to identify at least 10 grants of up to $100,000/each in this area and of high scientific merit for immediate funding.

The COVID-19 and Diabetes Research Awards expedited application deadline will be 5pm ET on May 22, 2020 for July 1, 2020 funding.

Regards,

ADA Research Programs
Dear Research Community,

Below is COVID-19 funding opportunity recently released from the funding opportunity database SPIN and an NIH Notice of Special Interest (NOSI) expiration notice from the NHLBI.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserv are posted on GCO’s Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.
