Dear Research Community,

Below are COVID-19 funding opportunities recently released from the NIH and the funding opportunity database SPIN. The NIH Table of Contents is excerpted below followed by a summary table of funding opportunities from SPIN and then a table with more detailed information.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserve are posted on GCO's Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in The Conduit newsletter.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.

The Grants and Contracts Office
Weekly NIH Funding Opportunities and Notices for June 26, 2020

Notice of Changes to Funding Opportunities

- Notice of Corrections to RFA-OD-20-013 "Emergency Awards: RADx-UP Coordination and Data Collection Center (CDCC) (U24 Clinical Trial Optional)" Budget and Review (NOT-OD-20-140)

Requests for Proposal

- Request for Proposals (RFP) Solicitation S20-119: Serological Sciences Network Capacity Building Centers (NOT-CA-20-077) National Cancer Institute

Notices of Special Interest

- Notice of Special Interest (NOSI) regarding the Availability of Urgent Competitive Revisions and Administrative Supplements for Research on Coronavirus Disease 2019 (COVID-19) in Individuals with Down Syndrome for the INCLUDE Project (NOT-OD-20-129)
  National Institutes of Health

The National Human Genome Research Institute (NHGRI) and the Eunice Kennedy Shriver National Institute of Child Health and Human Development are coordinating efforts for establishing a Developmental Genotype-Tissue Expression (dGTEx) Project, to catalog and analyze transcriptional profiles from a wide variety of tissues obtained from neonates, children, and adolescents in a post-mortem setting. The purpose of this FOA is to solicit applications to develop and implement a Laboratory, Data Analysis, and Coordinating Center (LDACC) for the Developmental Genotype-Tissue Expression (dGTEx) Project. The LDACC will perform 2 major functions: a molecular laboratory, and a data analysis and coordinating center. As a molecular laboratory, the LDACC will work with the Biospecimen Procurement Center (BPC) funded by NICHD to process tissue samples for sequencing and biobanking. Responsibilities as a data analysis and coordinating center include ensuring close coordination with the BPC, monitoring study progress and laboratory performance, performing basic analysis of data for
gene expression analyses, and harmonizing and submitting datasets to be deposited in repositories such as the AnVIL (Analysis, Visualization, and Informatics Lab-space).

- **FDA Influenza Immunity and Vaccination Postdoctoral Fellowship**: Available until 30-Sep-2020.
- **FDA COVID-19 Diagnostic Test Fellowship**: Available until 30-Sep-2020.
The CHEST Foundation, as the charitable foundation for the American College of Chest Physicians, has a mission of championing lung health by supporting clinical research, patient education, and community service. The Foundation is accepting proposals for research projects that address clinical (hospital or outpatient) or community-related aspects of COVID-19.
