Dear Research Community,

Below are COVID-19 funding opportunities recently released from the NIH and the funding opportunity database SPIN. The first table of InfoEd funding opps is a summary followed by a second with more detailed information.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserv are posted on GCO's Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in The Conduit newsletter.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.

Synopsis
The Center for Sharing Public Health Services (the “Center”) is offering small grants to support work on cross-jurisdictional sharing (CJS) arrangements designed to advance health equity by addressing social determinants of health (e.g., affordable housing, jobs with fair pay, quality education, affordable healthy food and public safety), the public health response to COVID-19, structural racism or other related issues.

2020 Specific Priorities - Impacts of COVID-19 - Request for Proposals

The impacts of COVID-19 to BC workers, employers and the workers’ compensation system are broad and diverse. COVID-19 has changed the way work is done. Including where and how workers are expected to perform their job and how they interact with the workplace. New ways of working present new risks and challenges, while also providing new opportunities. Safe and durable return to work and recovery of injured workers requires new supports and changes to care delivery and return to work planning, while prevention approaches must adapt to new guidelines, workplaces and technologies. WorkSafeBC is interested in research projects to address both direct and indirect impacts arising from the COVID-19 pandemic unique to occupational health and safety, injured or ill worker recovery, and safe and sustainable return to work or stay-at-work.

**Synopsis**

**Competitive Grant**

**Program:** Telehealth in Postmenopausal Patient Care

Pfizer Pharmaceuticals

03-Sep-2020 100,000 USD
