Dear Research Community,

Below is a COVID-19 funding opportunity recently released from the funding opportunity database SPIN.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserve are posted on GCO's Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in The Conduit newsletter.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.

Contact Name            Larissa Aviles-Santa, MD, MPH
Contact Telephone        301-827-6924
Contact Email           avilessantal@nih.gov
The purpose of this Notice of Special Interest is to support multidisciplinary, investigative and collaborative research focused on developing and testing multi-level strategies to effectively implement recommended guidelines of comprehensive clinical care for individuals with Type 2 diabetes from health disparity populations.

FSMB Foundation COVID-19 State Response Grants

097986 Federation of State Medical Boards Foundation
01-Oct-2020 [LOI/Pre-App] 25,000 USD

FSMB Foundation COVID-19 Grants are designed to offer state medical and osteopathic boards and other health care organizations funding support for the study of state responses to the COVID-19 pandemic. The long-term goal of the program is to support the development and implementation of sustainable models and policies that can guide state preparedness and responses to similar emergencies in the future, as well as their capacity for recovery planning.

Synopsis

FSMB Foundation COVID-19 Grants are designed to offer state medical and osteopathic boards and other health care organizations funding support for the study of state responses to the COVID-19 pandemic. The long-term goal of the program is to support the development and implementation of sustainable models and policies that can guide state preparedness and responses to similar emergencies in the future, as well as their capacity for recovery planning.
