Dear Research Community,

Below are COVID-19 funding opportunities recently released from the NIH and the funding opportunity database SPIN.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserve are posted on GCO's Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in The Conduit newsletter.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.

The Grants and Contracts Office
Weekly NIH Funding Opportunities and Notices for August 21, 2020

Notice of Changes to Funding Opportunities

- Notice of Participation in RFA-OD-20-023, "Emergency Awards: RADx-rad Predicting Viral-Associated Inflammatory Disease Severity in Children with Laboratory Diagnostics and Artificial Intelligence (PreVAIL klds) (R61/R33 Clinical Trial Optional)" (NOT-TR-20-034)
  National Center for Advancing Translational Sciences

Funding Opportunities

- Intervention Research to Improve Native American Health (R01 Clinical Trial Optional) (PAR-20-238)
  National Institute on Drug Abuse
  National Cancer Institute
  National Heart, Lung, and Blood Institute
  National Institute on Alcohol Abuse and Alcoholism
  National Institute of Allergy and Infectious Diseases
  National Institute of Arthritis and Musculoskeletal and Skin Diseases
  National Institute of Biomedical Imaging and Bioengineering
  National Institute of Dental and Craniofacial Research
  National Institute of Environmental Health Sciences
  National Institute of Mental Health
  National Institute on Minority Health and Health Disparities
  National Institute of Nursing Research
  National Library of Medicine
  Office of Behavioral and Social Sciences Research
  Application Receipt Date(s): May 17, 2021, May 17, 2022, May 17, 2023

NIH Funding Opportunities now available in RSS (Really Simple News Syndication) format - see https://grants.nih.gov/grants/guide/rss_info.htm for details.

Additional NIH Notices of Special Interest and Funding Opportunities that were released in this week's NIH Guide for Grants and Contracts are included in the InfoEd tables below.
This Funding Opportunity Announcement (FOA) will support pilot, feasibility or exploratory research in 7 priority areas in substance use epidemiology, prevention, and health services, including: 1) responses to sudden and severe emerging drug issues (e.g. the ability to look into a large and sudden spike in opioid or synthetic cannabinoid use/overdoses in a particular community); 2) responses to emerging marijuana trends and topics related to the shifting policy landscape; 3) responses to unexpected and time-sensitive prescription drug abuse research opportunities (e.g., new state or local efforts); 4) responses to unexpected and time-sensitive medical system issues (e.g. opportunities to understand addiction services in the evolving health care system); 5) responses to unexpected and time-sensitive criminal or juvenile justice opportunities (e.g. new system and/or structural level changes) that relate to drug abuse and access and provision of health care service; 6) partnerships between researchers and state or local organizations to support the evaluation of new local policies, programs, or practices in response to public health emergencies (e.g., the opioid crisis); 7) research collecting and examining data on the risks and outcomes associated with substance use and COVID-19 infection in the general population and among underserved populations, such as racial, ethnic and gender minorities, individuals with low socioeconomic status, and those who are incarcerated or homeless. It should be clear that the knowledge gained from the proposed study is time-sensitive and that an expedited rapid review and funding are required in order for the scientific question to be answered (i.e. an imminent policy change will not allow for standard review and funding timeline).

Deadline Dates (ALL)

Synopsis

This opportunity offers access to biomedical imaging technologies to scientists who have COVID-19 related research projects that need imaging resources. Euro-BioImaging can facilitate access to 40+ biological and biomedical imaging technologies in one of 21 Nodes. Nodes are internationally renowned imaging facilities - located across 8 countries and the European Molecular Biology Laboratory, EMBL.

Epilepsy Research Continuity Find (ERCF)

098313 Citizens United for Research in Epilepsy 31-Aug-2020 15,000 USD

Program URL Link to program URL
Deadline Dates (ALL) 31-Aug-2020

Synopsis

CURE awards grants for novel research projects that address finding the cures for epilepsy and address the goal of “no seizures, no side-effects.” The Epilepsy Research Continuity Find (ERCF) will provide reimbursements of up to $15,000 for research related expenses incurred as a result of institutional shutdowns during the COVID-19 pandemic and for which institutional support was not available or provided.
