## Research Awards & Funding Opportunities

Dear Research Community,

Below are COVID-19 funding opportunities recently released from the NIH and the funding opportunity database SPIN.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserv are posted on [GCO's Funding Opportunities](#) page and on the [ORS Research Roadmap COVID-19 Funding Opportunities](#) page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in [The Conduit newsletter](#).

In addition, please review the [SPIN Getting Started Instructions](#) for information about beginning your individual search.

Program URL [Link to program URL](#)  
Deadline Dates (ALL) 05-Oct-2020 , 16-Oct-2020 , 05-Feb-2021 , 16-Feb-2021 , 05-Jun-2021 , 16-Jun-2021 , 05-Oct-2021 , 16-Oct-2021 , 05-Feb-2022 , 16-Feb-2022 , 05-Jun-2022 , 16-Jun-2022 , 05-Oct-2022 , 16-Oct-2022 , 05-Feb-2023 , 16-Feb-2023 , 05-Jun-2023 , 16-Jun-2023  
Synopsis The purpose of this Notice is to invite applications proposing cutting-edge research on emerging viral infections that are thought to primarily impact non-reproductive sites, at least at initial presentation, but may also affect the male and/or female reproductive tract. The recent global outbreak of the novel coronavirus, SARS-CoV-2, is not an anomaly and will most likely not be the last virus occurrence. Today, infectious diseases are emerging and reemerging more quickly than ever before. In the last four-five years alone, two viral infections, one caused by the Zika virus (ZIKV) and the other caused by a SARS-CoV-2 (Covid19), have spread world-wide, resulting in death, severe disease with yet, unknown, long-term morbidities., or severe birth defects to the new-born. Both ZIKV and SARS-CoV-2 infections may affect male and/or female reproductive systems in addition to other non-reproductive sites. Therefore, it becomes essential to investigate possible effects of emerging viruses on reproductive tissues and cells to better understand potential impacts on fertility that may be sex specific.

Program URL [Link to program URL](#)

Deadline Dates (ALL) 06-Nov-2020 [Optional][LOI/Pre-App], 08-Dec-2020

Synopsis NIOSH supports exploratory and developmental research projects (R21) that address/mitigate/improve issues related to diagnostic or treatment uncertainty with respect to individuals, including enrolled World Trade Center (WTC) responders and certified-eligible WTC survivors, receiving monitoring and/or treatment under subtitle B, of the James Zadroga 9/11 health and Compensation Act (Public Law 111-347). NIOSH seeks to achieve a suitable mix of projects that help advance treatment and diagnostic effectiveness and the understanding of the health and well-being of the WTC Health Program members related to the September 2001 terrorist attacks. This FOA invites applications from both experienced researchers and researchers who are at the early stage of their independent careers or have not had substantial prior NIH/CDC funding. Importantly, applicants are expected to propose research approaches for which there are minimal or no preliminary data.

099748 [Call for Proposals - On Aging 2021](#) American Society on Aging (ASA) 30-Sep-2020 Not Specified

Contact Name

Contact Telephone 415-974-9600

Contact Email

Program URL [Link to program URL](#)

Deadline Dates (ALL) 30-Sep-2020

Synopsis ASA's impact is guided by five intersecting areas: social justice, health and wellbeing, economic security, ageism and culture, and innovation and social impact. Moving into 2021, the sponsor wants to especially consider how the issue of equity intertwines all of these areas.

099804 [COVID-19 Symptom Data Challenge](#) Catalyst @ Health 2.0 29-Sep-2020 50,000 USD

Contact Name

Contact Telephone

Contact Email [innovate@catalyst.health](mailto:innovate@catalyst.health)

Sponsor Website [Link to sponsor website](#)

Program URL [Link to program URL](#)

Deadline Dates (ALL) 29-Sep-2020 , 27-Nov-2020

Synopsis ?The COVID-19 Symptom Data Challenge is a competition to develop a novel analytic approach that uses the CMU/UMD COVID-19 Symptom Survey data to enable earlier detection and improved situational awareness of the outbreak by public health authorities and the general public. Semi-finalists and finalists are eligible for cash

prizes, and finalists will join discussions with partners on how to improve and deploy their submissions.

Deadline Dates (ALL) 06-Jan-2021

Synopsis

The mission of CNCS is to improve lives, strengthen communities, and foster civic engagement through service and volunteering. Through AmeriCorps, Senior Corps, and the Volunteer Generation Fund, CNCS has helped to engage millions of citizens in meeting community and national challenges through service and volunteer action. AmeriCorps grants are awarded to eligible organizations proposing to engage AmeriCorps members in evidence-based or evidence-informed interventions/practices to strengthen communities. An AmeriCorps member is an individual who engages in community service through an approved national service position. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members earn a Segal AmeriCorps Education Award from the National Service Trust that members can use to pay for higher education expenses or apply to qualified student loans.

Program URL [Link to program URL](#)

Deadline Dates (ALL) 30-Sep-2020

Synopsis The UCB Community Health Fund was launched in 2020 in response to the COVID-19 pandemic. The fund, managed by the King Baudouin Foundation, aims to address health disparities amongst vulnerable populations. This first Call for Projects aims to understand and reduce the medium- and long-term impact of the COVID-19 pandemic on the health of vulnerable young people (15-24 years old). Concretely, the intent is to provide funding to organizations that design, implement and evaluate impact-driven projects and initiatives to improve the health of young people from the most vulnerable

Synopsis

communities including racial and ethnic minorities, refugees and asylum seekers, those with disabilities and certain health conditions, and those who are socio-economically disadvantaged. This may include projects and initiatives that aim to address one or more intervention areas, such as education, living conditions, healthy food and active lifestyle, participation to the job market, participation in social, cultural, and spiritual activities, etc. Following the World Health Organization, the fund adopts a holistic view of health, namely a state of complete physical, mental, and social well-being. The coronavirus pandemic and the unprecedented measures that were taken to contain its spread disrupt nearly every aspect of young people's lives: health, social interactions, ability to study and work, financial resources, food insecurity and their protection from violence and abuse. Through this Call for Projects, the aim is to dedicate resources to support the health and psychosocial well-being of vulnerable young people in the wake of the COVID-19 pandemic in the communities where UCB operates. More specifically, funding is available for two types of activities: Support and Research projects. ?

Deadline Dates (ALL) 16-Dec-2020 , 14-Sep-2021 , 14-Sep-2022

NIOSH has established surveillance programs intended to assess the extent and severity of workplace illnesses, injuries, exposures, and fatalities; identify workers and occupations at greatest risk; set program priorities for follow-up activities, including more in-depth

## Synopsis

data surveillance and outreach, prevention and/ or intervention programs and policies to address state priorities and emerging issues; develop a broad network of partners who can assist in identifying occupational safety and health (OSH) surveillance data and best ways to disseminate results to stakeholders; communicate audience-specific educational materials and other resources for optimizing their uptake and adoption for protecting workers; and measure the effectiveness of prevention activities. OSH surveillance includes population/group- and case-based approaches and activities. Funded programs are expected to be resourceful and proactive in identifying and accessing untapped data sources for OSH surveillance, which may include creating linkages between data sources. NIOSH seeks to strengthen OSH surveillance within states and other eligible jurisdictions to provide information that will help drive actions to improve the health of workers in the US. This program will build upon the existing state and local public health capacity and expertise in OSH surveillance, and for states and others where OSH surveillance capacity does not currently exist, this program may help to develop that capacity.

## Research Awards & Funding Opportunities

Dear Research Community,

Below are COVID-19 funding opportunities recently released from the funding opportunity database SPIN.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserv are posted on [GCO's Funding Opportunities](#) page and on the [ORS Research Roadmap COVID-19 Funding Opportunities](#) page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in [The Conduit newsletter](#).

In addition, please review the [SPIN Getting Started Instructions](#) for information about beginning your individual search.

The Grants and Contracts Office

SPIN ID	Program Title	Sponsor Name	Sponsor Number	Deadline Date	Funding Amount
000511	<a href="#">Grants Program</a>	van Ameringen Foundation, Inc.		18-Nov-2020 [LOI/Pre-App]	250,000 USD

Contact Name  
Contact Telephone 212-758-6221  
Contact Email [grants@vanamfound.org](mailto:grants@vanamfound.org)

Sponsor Website [Link to sponsor website](#)  
 Program URL [Link to program URL](#)  
 Deadline Dates (ALL) 18-Nov-2020 [LOI/Pre-App], 08-Jan-2021  
 Synopsis The van Ameringen Foundation funds innovative and practical programs for early intervention, advocacy and increased accessibility of mental health services for people and communities with limited financial means and opportunities. The van Ameringen Foundation provides grants exclusively in the five boroughs of New York City and within the city limits of Philadelphia, as well as advocacy support at the national level.

100056 [Health Services Research on Minority Health and Health Disparities \(R01-Clinical Trial Optional\)](#) National Institutes of Health/DHHS PAR-20-310 27-Nov-2020 Not Specified

 Deadline Dates (ALL) 16-Nov-2020 [Optional][LOI/Pre-App], 18-Dec-2020

Synopsis

The purpose of this notice of funding opportunity (NOFO) is to support a research project that implements an influenza-like illness (ILI)-specific student absentee monitoring system in kindergarten through twelfth grade (K-12) schools and assess its usability for early detection of influenza, SARS-CoV-2, and other respiratory pathogen transmission in schools and surrounding communities. To achieve this aim, the project team will: 1) rapidly determine the causes of school absenteeism in students across selected school district(s) over a three-year period; 2) detect within-household transmission of influenza and SARS-CoV-2 in a subset of households from which a student has been absent from school due to ILI; and 3) assess comparability between influenza-specific and SARS-CoV-2-specific student absenteeism data from the participating schools and multiple layers of complementary influenza and SARS-CoV2 surveillance data routinely collected in the health care facilities serving the general population of this school district.

Description PLEASE READ THIS NOTICE CAREFULLY AS IT CONSTITUTES THE ONLY NOTICE THAT WILL BE ISSUED. This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotations are being requested. The purpose of this combined synopsis/solicitation is to solicit quotes as described in the attached solicitation. This procurement is being conducted in accordance with FAR Part 13.5, "Simplified Procedures for Certain Commercial Items," and therefore the Government will utilize simplified procedures for soliciting competition, evaluation, and award documentation and notifications that complete with FAR Parts 12 and 13. There is no set-aside restriction for this solicitation. This solicitation is being issued as a Request for quotation under RFQ No. 140E0121Q0002. The U.S. Department of the Interior (DOI), Bureau of Safety and Environmental Enforcement (BSEE), has a requirement for COVID-19 Screening Services and Level III Testing in the Gulf of Mexico at the locations identified in Section 2 of this requirement The estimated period of performance for this requirement is ninety (90) days from date of award with the potential of three (3), ninety (90) day option

Synopsis

periods and two optional tasks associated with the base and option periods. The Government anticipates a Firm Fixed Price type award with Indefinite Quantity Fixed-Price per Unit line items as a result of this solicitation. This solicitation incorporates provisions and clauses in effect through the Federal Acquisition Circular 2020-09. It is the offeror's responsibility to be familiar with the applicable clauses and provisions. The North American Industrial Classification Systems (NAICS) code is 624230, Emergency and Other Relief Services, with a small business size standard of \$35.0 million. All potential offerors must be registered in the System for Award Management (SAM) ([www.sam.gov](http://www.sam.gov)) in order to receive Government contracts and prior to submitting a quote on this RFQ. The point of contact for this procurement is David Jablonski, Contracting Officer, BSEE, Acquisition Operations Branch, 45600 Woodland Rd., Sterling, VA 20166. Responses to this solicitation must be submitted electronically via email to [David.Jablonski@bsee.gov](mailto:David.Jablonski@bsee.gov) no later than the closing date and time referenced in the solicitation. All email correspondence must reference "Solicitation No. 140E0121Q0002." This RFQ includes the following sections: Section 1 - Pricing, Section 2 - Statement of Work, Section 3 - Order Terms and Conditions, Section 4 - Quotation Submission Instructions, Section 5 - Evaluation Factors and Basis for Award, and Section 6 - Attachments. 	Synopsis	The success of New York City’s Test and Trace program has facilitated a safe and steady economic reopening; the City is seeking to significantly increase the availability, usability, and speed of testing to further reopen the economy in the period prior to broad distribution of a vaccine. Specifically, New York City seeks point-of-care and at-home COVID tests that can deliver results in minutes, rather than			

hours and that may be self-administered. There are only a handful of COVID tests that have Food and Drug Administration (FDA) Emergency Use Authorization (EUA) and are allowed in a CLIA-waived setting (“rapid tests”). However, many are in development and the FDA has recently issued guidance for at-home and over-the-counter diagnostic tests.

Deadline Dates (ALL) 06-Nov-2020 [Optional][LOI/Pre-App], 08-Dec-2020

Synopsis

NIOSH supports exploratory and developmental research projects (R21) that address/mitigate/improve issues related to diagnostic or treatment uncertainty with respect to individuals, including enrolled World Trade Center (WTC) responders and certified-eligible WTC survivors, receiving monitoring and/or treatment under subtitle B, of the James Zadroga 9/11 health and Compensation Act (Public Law 111-347). NIOSH seeks to achieve a suitable mix of projects that help advance treatment and diagnostic effectiveness and the understanding of the health and well-being of the WTC Health Program members related to the September 2001 terrorist attacks. This FOA invites applications from both experienced researchers and researchers who are at the early stage of their independent careers or have not had substantial prior NIH/CDC funding. Importantly, applicants are expected to propose research approaches for which there are minimal or no preliminary data.

NOTE: Per NOT-OH-021-002 the research scope of this FOA allows submission of COVID-related research proposals on individuals exposed to the September 2001 terrorist attacks, including responders and community members (also referred to as survivors). For the requirement to include the primary diseases or conditions listed in Section I of the FOA that you propose to study, please use "emerging conditions" for COVID-19.
