## Research Awards & Funding Opportunities

Dear Research Community,

Below are COVID-19 funding opportunities recently released from the NIH and the funding opportunity database SPIN.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserv are posted on [GCO's Funding Opportunities](#) page and on the [ORS Research Roadmap COVID-19 Funding Opportunities](#) page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in [The Conduit newsletter](#).

In addition, please review the [SPIN Getting Started Instructions](#) for information about beginning your individual search.

	Synopsis	The success of New York City’s Test and Trace program has facilitated a safe and steady economic reopening; the City is seeking to significantly increase the availability, usability, and speed of testing to further reopen the economy in the period prior to broad distribution of a vaccine. Specifically, New York City seeks point-of-care and at-home COVID tests that can deliver results in minutes, rather than			

hours and that may be self-administered. There are only a handful of COVID tests that have Food and Drug Administration (FDA) Emergency Use Authorization (EUA) and are allowed in a CLIA-waived setting (“rapid tests”). However, many are in development and the FDA has recently issued guidance for at-home and over-the-counter diagnostic tests.
