Dear Research Community,

Below are COVID-19 funding opportunities recently released from the funding opportunity database SPIN and other announcements sent to the GCO.

Please note that some opportunities have rapidly approaching deadlines. Previous COVID-19 funding opportunities that have been circulated via the listserve are posted on GCO's Funding Opportunities page and on the ORS Research Roadmap COVID-19 Funding Opportunities page organized by due date. COVID-19 opportunities funded by the CTSA program of NCATS can also be found in The Conduit newsletter.

In addition, please review the SPIN Getting Started Instructions for information about beginning your individual search.

Synopsis

Description
We appreciate your interest in partnering with BARDA. Due to the COVID-19 response, any white papers or full proposals submissions, other than those that are in support of COVID-19, will be put into a queue. Once the response to COVID-19 has subsided, we will resume normal review of submissions for other research areas of interest. BARDA will not be able to meet the timelines highlighted in the Broad Agency Announcement. Thank you for understanding this unprecedented response and delays that will occur. The latest BARDA Broad Agency Announcement (BAA) is amendment 16 posted on April 24, 2020. Note: COVID-19 response related Areas of Interest includes: AOI 7.7.1 Diagnostic assay for human coronavirus using existing FDA-cleared platforms AOI 7.7.2 Point-of-care diagnostic assay for detection of SARS-CoV-2 virus AOI 7.7.3 Diagnostic assay for detection of...
COVID-19 disease (SARS-CoV-2 infection), including Serology Tests AOI 8.3 COVID-19 Vaccine AOI 9.2 COVID-19 Therapeutics AOI 9.3 Immunomodulators or therapeutics targeting lung repair AOI 9.5 Pre-exposure and post-exposure prophylaxis AOI 10 Respiratory protective devices AOI 11 Ventilators AOI 17 Advanced Manufacturing Technologies All contracting related inquiries should be sent to BARDA-BAA@hhs.gov. BARDA clarified the language for rolling review of COVID-19 response related full proposals. BARDA will continuously review and expedite COVID-19 response related white papers and full proposals. Offeror should also complete the Submission Data Integration Table. The final white paper submission deadline is October 31, 2020. The final full proposal submission deadline is October 31, 2020 or as specified in the invitation letter. The Health Resources and Services Administration (HRSA) is accepting applications for the fiscal year (FY) 2021 Community-Based Workforce for COVID-19 Vaccine Outreach. The purpose of the program is to establish, expand, and sustain a public health workforce to prevent, prepare for, and respond to COVID-19. This includes mobilizing community outreach workers, which includes community health workers, patient navigators, and social support specialists, to educate and assist individuals in accessing and receiving COVID-19 vaccinations. This includes activities such as conducting face-to-face outreach and reaching out directly to community members to educate them about the vaccine, assisting individuals in making a vaccine appointment, providing resources to find convenient vaccine locations, assisting individuals with transportation or other needs to get to a vaccination site. The program intends to address persistent health disparities by offering support and resources to vulnerable and medically underserved communities, including racial and ethnic minority groups and individuals living in areas of high social vulnerability.

103983 Notice of Special Interest (NOSI): Public Policy Effects on Alcohol-, Cannabis-, Tobacco-, and Other Drug-Related Behaviors and Outcomes

Deadline Dates (ALL)

Synopsis
This announcement encourages applications to conduct research on the effects of public policies on health-related behaviors and outcomes associated with alcohol, cannabis, tobacco, prescription drugs, and other substances. The purpose of the Notice is to advance understanding of how public policy may serve as a tool for improving public health and welfare through its effects on behaviors and outcomes pertaining to alcohol and other drugs. This Notice is intended to support innovative research to examine policy effects that have the potential to lead to meaningful changes in public health. Research projects that may be supported include, but are not necessarily limited to: causal analyses of the effects of one or multiple public policies; evaluations of the effectiveness of specific public policies as tools for improving public health through their effects on alcohol-, cannabis-, tobacco-, and
other substance-related behaviors and outcomes; studies of disparities in policy
effects and the role of policy in exacerbating or potentially reducing health
disparities; and research to advance methods and measurement used in studying
relationships between public policies and alcohol-, cannabis-, tobacco-, and other
substance-related behaviors and outcomes.
