Changes to the NIH Biosketch and Other Support Pages

Presenter: Allison Gottlieb
Director, Education and Communications
Grants and Contracts Office

Grants Forum Slides: 5/5/21
Last updated: 6/15/21
Updated slides will include a date after 5/5/21
For application due dates on or after May 25, 2021, substantive changes to the NIH Biosketch and Other Support form pages are in effect.

This affects all NIH applications, including competing and non-competing (RPPRs).
…Some Housekeeping Notes

These slides match the GCO Grants Forum Presentation from May 5, 2021.

However, the GCO is updating this slide set as the NIH provides additional clarification or makes changes.

Updated slides will include a “Last Updated” date after May 5, 2021 so be on the lookout in this slide set.
What are the Changes?
Changes to the Form

Published/created research product under another name? State so in Section A.

Section B retitled, and expanded to require all active Positions, Scientific Appointments and Honors regardless of relevance to current application.

Section D removed, and Research Support relocated to Section A.

This is a partial sample of the form.
Please note these additional instructions for the NIH Biosketch.

- Indicate whether you have published or created research products **under another name**.

Please follow GCO’s guidelines on addressing this.

- In Section A, at the end of the Personal Statement, please add a sentence indicating whether you have ever created or published research products under another name.
Biosketch Changes: Updated Instructions

Section B
‘Positions and Honors’ has been renamed ‘Positions, Scientific Appointments, and Honors’

- List in reverse chronological order all active positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments.

- This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).

- Positions and appointments that are no longer active are optional, and may be included as appropriate in support of the application.
Example of Biosketch Section B

B. Positions, Scientific Appointments, and Honors

Positions and Scientific Appointments

- **2021 – Present**  
  Associate Professor, Department of Psychology, Washington University, St. Louis, MO
- **2020 – Present**  
  Adjunct Professor, McGill University Department of Psychology, Montreal, Quebec, Canada
- **2018 – Present**  
  NIH Risk, Adult Addictions Study Section, members
- **2015 – 2017**  
  Consultant, Coastal Psychological Services, San Francisco, CA
- **2014 – 2021**  
  Assistant Professor, Department of Psychology, Washington University, St. Louis, MO
- **2014 – 2015**  
  NIH Peer Review Committee: Psychobiology of Aging, ad hoc reviewer
- **2014 – Present**  
  Board of Advisors, Senior Services of Eastern Missouri
- **2013 – 2014**  
  Lecturer, Department of Psychology, Middlebury College, Middlebury, VT
- **2011 – Present**  
  Associate Editor, Psychology and Aging
- **2009 – Present**  
  Member, American Geriatrics Society
- **2009 – Present**  
  Member, Gerontological Society of America
- **2009 – 2013**  
  Fellow, Division of Intramural Research, National Institute of Drug Abuse, Bethesda, MD
- **2006 – Present**  
  Member, American Psychological Association

Honors

- **2020**  
  Award for Best in Interdisciplinary Ethnography, International Ethnographic Society
- **2019**  
  Excellence in Teaching, Washington University, St. Louis, MO
- **2018**  
  Outstanding Young Faculty Award, Washington University, St. Louis, MO
Biosketch Changes: Updated Instructions

Section D Research Support:

- For the non-Fellowship Biosketch, Section D. has been removed.

- For the Fellowship Biosketch, Section D has been updated to remove ‘Research Support.

As applicable, all applicants may include details on ongoing and completed research projects from the past three years that they want to draw attention to within the personal statement, Section A.

- In addition, recently completed research projects within the last three years has moved to the Other Support page.
Example of Biosketch: Research Projects in Section A

This example includes ongoing and completed research projects.

A. Personal Statement

I am an Associate Professor of Psychology, and my research is focused on neuropsychological changes associated with addiction. I have a broad background in psychology, with specific training and expertise in ethnographic and survey research and secondary data analysis on psychological aspects of drug addiction. As PI or co-Investigator on several university- and NIH-funded grants, I laid the groundwork for the proposed research by developing effective measures of disability, depression, and other psychosocial factors relevant to the aging substance abuser, and by establishing strong ties with community providers that will make it possible to recruit and track participants over time as documented in the following publications. In addition, I successfully administered the projects (e.g. staffing, research protections, budget), collaborated with other researchers, and produced several peer-reviewed publications from each project. As a result of these previous experiences, I am aware of the importance of frequent communication among project members and of constructing a realistic research plan, timeline, and budget. The current application builds logically on my prior work. During 2015-2016, my career was disrupted due to family obligations. However, upon returning to the field, I immediately resumed my research projects and collaborations and successfully competed for NIH support. In summary, I have the expertise, leadership, training, expertise and motivation necessary to successfully carry out the proposed research project.

Ongoing and recently completed projects that I would like to highlight include:

R01 DA942367
Hunt (PI) 09/01/16-08/31/21
Health trajectories and behavioral interventions among older substance abusers

R01 MH922731
Merry (PI), Role: co-investigator 12/15/15-11/30/20
Physical disability, depression and substance abuse in the elderly
Other Support

For New and Renewal Applications – DO NOT SUBMIT UNLESS REQUESTED
PHS 398 OTHER SUPPORT

There is no *form page* for reporting Other Support. Information on Other Support should be provided in the format shown below.

*Name of Individual: Anderson, R.R.
Commons ID: AndersonRR

Other Support – Project/Proposal

ACTIVE
*Title: Chloride and Sodium Transport in Airway Epithelial Cells

Major Goals: The major goals of this project are to define the biochemistry of chloride and sodium transport in airway epithelial cells and clone the gene(s) involved in transport.

*Status of Support: Active
Project Number: 2 R01 HL 00000 - 13
Name of PD/PI: Anderson, R.R.

*Source of Support: NHLBI

*Primary Place of Performance: University of California, Los Angeles

Project/Proposal Start and End Date: (MM/YYYY) (if available): 3/1/2021 – 2/28/2026

* Total Award Amount (including Indirect Costs): $1,492,232

* Person Months (Calendar/Academic/Summer) per budget period.

<table>

I, PD/PI or other senior/key personnel, certify that the statements herein are true, complete and accurate to the best of my knowledge, and accept the obligation to comply with Public Health Services terms and conditions if a grant is awarded as a result of this application. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties.

*Signature: ___Anderson, R.R.__________________________________________
Date: __________March 25, 2021________________________________________

Many Substantive Changes:
1) Format Change
2) Expands/clarifies what qualifies as Other Support
3) Adds new fields
4) Adds In-Kind support section
5) Investigator certification signature
6) Adds Completed Projects section for JIT OS
7) New required supporting documentation for foreign appointments/employment
8) Broadens overlap section

This is a partial sample of the form.
Other Support JIT Changes: Updated Formatting

Four Sections

1. Proposals/Projects
   Active, Pending, and Completed Support within 3 Years.

2. In Kind Contributions
   Active and Pending In Kind Contributions

3. Overlap

4. Certification

IN-KIND
Active
Summary of In-Kind Contribution: Post-doctoral fellow, Dr. John Smith, who conducts research activities in the Anderson lab. Salary supported by Oxford University.

Primary Place of Performance: University of California, Los Angeles
Project/Proposal Start and End Date (MM/YYYY) (if available): 10/1/2021 – 9/30/2023
Person Months (Calendar/Academic/Summer) per budget period: N/A
Estimated Dollar Value of In-Kind Information: $80,000

Pending
Summary of In-Kind Contribution: C57BL/6-ABC \textsuperscript{tm1Tap} mice provided by Dr. Joseph Jones at the University of Texas at Austin.

Primary Place of Performance: University of California, Los Angeles
Project/Proposal Start and End Date (MM/YYYY) (if available): 10/1/2021 – 9/30/2023
Person Months (Calendar/Academic/Summer) per budget period: N/A
Estimated Dollar Value of In-Kind Information: estimate $4,000

Overlap
There is scientific overlap between aim 2 of NSF DCB 650000 and aim 4 of the application under consideration. If both are funded, the budgets will be adjusted appropriately in conjunction with agency staff.

Certification
I, PD/PI or other senior/key personnel, certify that the statements herein are true, complete and accurate to the best of my knowledge, and accept the obligation to comply with Public Health Services terms and conditions if a grant is awarded as a result of this application. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties.

Date: ________________________________
Other Support **RPPR** Changes: Updated Formatting

**Four Sections**

1. **Proposals/Projects** - Active only
2. **In Kind Contributions** - Active only
3. **Overlap**
4. **Certification**

Submit only when there is a change in *active* support.

More on this topic in an upcoming slide.
Other Support Changes: All Research Support

- Other Support includes all resources made available to a researcher in support of and/or related to all of their research endeavors.

- This is regardless of whether or not they have monetary value.

- This is regardless of whether they are based at the institution the researcher identifies for the current grant.

- This includes resources and/or financial support from all foreign and domestic entities, that are available to the researcher.
Other Support Changes: New In Kind Section

The NIH created an In Kind section to capture other research support information in addition to the traditional projects/proposals we are accustomed to.

**Definition**
In Kind contributions are non-monetary contributions such as office/laboratory space, equipment, supplies, or employees or students supported by an *outside* source.

- Examples include financial support for laboratory personnel, and provision of high-value materials that are not freely available (e.g., biologics, chemical, model systems, technology, etc.).

Other types of activities that are included in the In Kind section are:
- Consulting agreements, when the investigator conducts research as part of the consulting activities. *Non-Research Consulting Activities are not Other Support.*
- Trainees conducting research as part of the investigator’s team.
- Volunteers conducting research as part of the investigator’s team paid by an external third party.

*If the time commitment or dollar value of the in-kind contribution is not readily ascertainable, the recipient must provide reasonable estimates.*
Other Support Changes: In Kind Contributions Section

**Important Distinction**

- If in-kind contributions are intended for use on the project being proposed to NIH in this application, the information must be included as part of the Facilities and Other Resources or Equipment section of the application and need not be replicated on the Other Support.

- In-kind contributions not intended for use on the project/proposal being proposed in this application must be reported on the Other Support.

... We will review this distinction from the examples on the following slides.

In kind contribution is intended for use on my project. Do I need to include this somewhere?

Yes, include on the Facilities & Other Resources or Equipment section of your application. Good luck!
Other Support Changes: Gift Definition

- Other Support does not include training awards, prizes, or gifts.

**Definition**

- **Gifts** are resources provided where there is no expectation of anything (e.g. time, services, specific research activities, money, etc.) in return.

An item or service given with the expectation of an associated time commitment is not a gift and is instead an **in-kind contribution** and must be reported as Other Support.
Other Support Changes for **JIT**: Completed Support Section

Provide completed support within the past three years for all senior/key personnel.

**COMPLETED**

*Title: Gene Transfer of CFTR to the Airway Epithelium*

Major Goals: The major goals of this project are to identify and isolate airway epithelium progenitor cells and express human CFTR in airway epithelial cells.

*Status of Support: Completed*

<td>3.6 calendar</td>
</tr>
</tbody>
</table>

**Active Projects:**

Provide level of actual effort in person months (even if unsalaried) for current budget period and indicate the proposed level effort for remaining budget periods.
Other Support Changes: Supporting Documentation Requirement for Foreign Appointments/Employment

The NIH requires supporting documentation which includes:

- Copies of contracts/agreements specific to senior/key-personnel foreign appointments and/or employment with a foreign institution.

- This is for all foreign activities and resources that are reported on the Other Support.

- If the contracts/agreements are not in English, recipients must provide translated copies.

- Machine read translations are acceptable.

- Provide the contract/agreement in the original foreign language.
- GCO will obtain the machine read translated contract/agreement.
- Documents translated by the Investigator will not be accepted.
Other Support Changes: Certification Block

- Each Senior/Key Personnel Certifies OS page. Signature block added to form.

"...the statements herein are true, complete and accurate to the best of my knowledge, and accept the obligation to comply with Public Health Services terms and conditions if a grant is awarded as a result of this application. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties."

I, PD/PI or other senior/key personnel, certify that the statements herein are true, complete and accurate to the best of my knowledge, and accept the obligation to comply with Public Health Services terms and conditions if a grant is awarded as a result of this application. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties.

*Signature: ___Anderson, R.R._____________________________________

Date: _______ March 25, 2021____________________________________
RPPRs? When do I submit an updated OS page?
RPPR Other Support – Change in Active Awards Only

This requirement remains the same:

- Include active other support for senior/key personnel whose support has changed and indicate what the change has been.

- If a previously active grant has terminated and/or if a previously pending grant is now active, submit complete Other Support information.

In Kind Contributions is a new section. If that is the only addition, do not submit the OS form for this change alone.
RPPR Other Support – CM for All Future Years of Active Grants

When reporting CM effort, this requirement is the same.

► Provide the current level effort in person months for the current budget period.

This requirement is new.

► Provide the prospective level of effort all remaining budget periods.

<table>
<thead>
<tr>
<th>Year (YYYY)</th>
<th>Person Months (#,##)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. 2021</td>
<td>3.6 calendar</td>

<tr>
<td>5. 2024</td>
<td>3.6 calendar</td>
</tr>
</tbody>
</table>

Current Year = Current Level of Effort
Future Years = Prospective Level of Effort
RPPR Other Support – Prospective CM only for RPPR Grant

- When reporting CM Effort for the RPPR grant, provide the prospective level effort in person months for the upcoming and all remaining budget periods.

I am submitting the RPPR for this grant. Any special rules here?

Yes! Report on prospective level of all remaining budget periods including the upcoming budget period.

And good luck!

ACTIVE
- Title: Ion Transport in Lungs
- Major Goals: The major goal of this project is to study chloride and sodium transport in normal and diseased lungs.
- Status of Support: Active

Other Support Changes: Immediate Notification of Undisclosed Other Support

Scenario:

▶ A recipient organization discovers that a PI or other Senior/Key personnel on an active NIH grant failed to disclose Other Support information.

▶ This could occur either after the Just-in-Time or the RPPR application was submitted.

▶ The investigator must submit an updated Other Support to the GCO, for forwarding to the Grants Management Specialist named in the Notice of Award as soon as it becomes known.
Who Knows Best?

Investigator

GCO

Research Coordinator

Grants Manager

Administrator

Financial Analyst

PI
Who Knows Best?

Senior/Key Personnel

► Responsible for information on his/her Biosketch and OS pages.

► Only person qualified to determine scientific overlap.

► Likely only person with complete knowledge of in-kind items.

► Each Senior/Key Personnel Certifies OS page. Signature block added to form.

"...the statements herein are true, complete and accurate to the best of my knowledge, and accept the obligation to comply with Public Health Services terms and conditions if a grant is awarded as a result of this application. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties."
Who Knows Best?

Administrator, Financial Analyst, Grants Administrator, Research Coordinator, and Others

► May assist in preparing information on the Biosketch and OS pages.

► Certain roles have access to HR information to confirm actual effort on the OS page.

► Never appropriate to determine Scientific Overlap on an OS page.
Who Knows Best?

Grants Specialists, Authorized Organization Representatives

- Reviews information that can be confirmed against InfoEd for accuracy.
- Verifies whether there is effort overlap.
- Determines conformity with formatting guidelines.
- Submits documentation to the NIH.
Is this still happening?

Didn’t the NIH roll back these requirements?
NIH Updated Implementation Plan

- The NIH has issued an updated notice (NOT-OD-21-110) announcing a new implementation plan for changes to the Biosketch and Other Support pages.

- The NIH expects applicants to use the updated formats as of May 25, 2021.

- NIH requires the use of the updated formats beginning with due dates on and after January 25, 2022.

- Failure to follow the appropriate formats on or after January 25, 2022 may cause NIH to withdraw applications from or delay consideration of funding.

- Applicants remain responsible for disclosing all research endeavors regardless of the version of the forms used.

If applicants choose not to use the updated formats before they are required, applicants must still capture all the necessary information.
Mount Sinai and all applicant organizations must also …

- If asked by the NIH, provide supporting documentation, which includes copies of contracts, grants or any other agreement specific to senior/key personnel foreign appointments and/or employment with a foreign institution for all foreign activities and resources that are reported in Other Support.

If the contracts, grants or other agreements are not in English, recipients must provide translated copies.

- Immediately notify the NIH of undisclosed Other Support. When a recipient organization discovers that a PI or other Senior/Key personnel on an active NIH grant failed to disclose Other Support information outside of Just-in-Time or the RPPR, as applicable, the recipient must submit updated Other Support to the Grants Management Specialist named in the Notice of Award as soon as it becomes known.

More information on the NIH Extramural Nexus blog can be found here.
NIH Updated Biosketch Instructions: All Active Appointments

The GCO submitted a question to the NIH regarding the requirement to list all appointments in the Biosketch Section B "Positions, Scientific Appointments, and Honors" while maintaining the overall 5 page limit.

This adversely affects our senior faculty who have had long, productive research careers as this section would have consumed the entire biosketch.

The NIH responded to us and the other institutions that raised this issue by updating their biosketch policy.

The NIH writes:
"Investigators must include all active positions and scientific appointments. Positions and appointments that are no longer active are optional, and may be included as appropriate in support of the application."
GCO’s Response to NIH’s Updated Implementation Plan

Biosketch
✓ New Biosketch format is in effect.

Other Support (OS): New NIH Format & GCO Interim Format Acceptable
You may use the new NIH format or continue to use the old format. However, if you use the old format, you must update as follows:
✓ Use Project Period Total Costs rather than Annual Direct Costs for active and pending awards.
✓ Include an “Other Appointments and Outside Employment” section.
  o Describe the nature and duties of any outside appointment and/or employment. If facility use or space is provided, state so and describe.
  o If none, state “none” in this section.
✓ Include a “Lab Personnel Paid Directly by Third Party Entities” section.
  o List name, title, and outside entity.
  o If none, state “none” in this section.
✓ You may wish to review GCO’s samples of this interim format.

It has always been required to report all grants from all appointments.
NIH’s Updated Implementation Plan
Other Support Changes: Supporting Documentation Requirement for Foreign Appointments/Employment

If asked by the NIH, applicant institutions may need to provide supporting documentation which includes:

▶ Copies of contracts, grants or any other agreement specific to senior/key-personnel foreign appointments and/or employment with a foreign institution for all foreign activities and resources that are reported in Other Support.

▶ This is for all foreign activities and resources that are reported on the Other Support.

▶ If the contracts/agreements are not in English, recipients must provide translated copies.

▶ Machine read translations are acceptable.

✓ Provide the contract/agreement in the original foreign language.
✓ GCO will obtain the machine read translated contract/agreement.
✓ Documents translated by the Investigator will not be accepted.
Other Support Changes: Immediate Notification of Undisclosed Other Support

Scenario:

- A recipient organization discovers that a PI or other Senior/Key personnel on an active NIH grant failed to disclose Other Support information.

- This could occur either after the Just-in-Time or the RPPR application was submitted.

- The investigator must submit an updated Other Support to the GCO, for forwarding to the Grants Management Specialist named in the Notice of Award as soon as it becomes known.
Frequently Asked Questions
What does it mean to be compliant with the new biosketch policy?

All biosketches included in applications submitted for due dates on/after May 25, 2021 must be formatted per the instructions in the application guide (and repeated in online resources), including:

Completing each section, as applicable (A - Personal Statement; B – Positions, Scientific Appointments and Honors; C – Contributions to Science; D – Scholastic Performance)

- Including no more than 5 contributions to science with no more than 4 citations per contribution
- Ensuring that if you include the optional link to a full list of your published work in a site like My Bibliography that the URL is .gov
- Refraining from including information, such as preliminary data, that belongs elsewhere in the application
- Following NIH guidance on font type, font size, paper size, and margins (See Format Attachment instructions)
- Using PDF format for your biosketch attachment
- Limiting the length of your biosketch to 5 pages or less
- During the transition to the new format announced in NOT-OD-21-073, NIH will not withdraw applications that include the previous Biosketch format.

Beginning with applications submitted on or after January 25, 2022, failure to follow the appropriate Biosketch format may cause NIH to withdraw your application from consideration.
Other Support FAQs

- Does this new policy impact Data Tables, which include reports of research support for faculty associated with Institutional Research Training Grant Applications?
  No, there are no changes to what should be reported on data tables for Institutional Research Training grants. Comprehensive information related to these data tables can be found on NIH’s Webpage on Data Tables.

- Will NIH begin using SciENcv for Other Support?
  NIH and SciENcv are currently developing an Other Support template, the estimated date to be rolled out, at the earliest, is Fiscal Year 2022.

- Will electronic signatures be accepted on Other Support submissions?
  Other Support submissions at Just-in-Time and in the RPPR must be submitted as a flattened PDF, after all signatures are obtained. Applicants and recipients must maintain the original electronic signature and make it available upon request. When NIH transitions to the use of SciENcv to generate Other Support, the signature/certification will be integrated into that process.

- Should a researcher include start-up support provided by the applicant organization in Other Support?
  Start-up packages provided to the researcher from the applicant organization are not included in Other Support. Start-up packages from outside organizations, including foreign entities, must be included in Other Support.
Other Support FAQs

When a researcher is including information on a subproject in Other Support, should the researcher provide the total award amount for the overall award, or only the subproject?

For subprojects, recipients should provide the project number and PD/PI name for the overall project. All other information, including total award amount and person months, for the subproject only.

When a researcher works on a subaward to an NIH grant that is awarded to another institution, how should that information be included in Other Support?

The researcher should provide the project number, PD/PI name for the prime award. All other information, including the total award amount and person months, should be specific the subaward.

If a PD/PI or other senior/key Personnel has an exchange student or post-doc working on research activities in their lab who is paid a salary by their home university in a foreign country, does that need to be included in Other Support?

Yes, since the student or post-doc is performing research activities, the student’s work in the lab is a resource available in support of the PD/PI or other senior/key Personnel’s research endeavors. It must be reported as an in-kind contribution on Other Support.

If a PD/PI or other senior/key personnel is mentoring post-doc or graduate students who are individually funded through an outside institution) e.g. foundation or home university), does that need to be disclosed as an in-kind resource in Other Support?

If the post-doc or graduate student is performing research activities in support of the PD/PI or other senior/key personnel’s research endeavors, then their support must be reported as an in-kind resource. If the relationship is solely a mentor/mentee arrangement, with no research activities, then it is not a resource, and does not need to be reported.
Other Support FAQs

What should I do if I’m not sure if something needs to be included as Other Support?
In the interest of full transparency, recipients should err on the side of disclosure. Researchers should consult with their institutional officials for guidance to ensure compliance with institutional and NIH policies. NIH requires complete and accurate reporting of all sources of research support, financial interests and affiliations, both foreign and domestic.

For in-kind resources that do not have any associated effort, can researchers enter zero effort?
Yes, for in-kind resources with no associated time commitment, researchers can list zero effort, but must provide the estimated dollar value of the in-kind resource.

The effort and dollar value cannot be both be zero.

Foreign Contracts: Does this include employment contracts for fellows or students working in the lab?
No. Personal service contracts for lab staff do not need to be provided. Only contracts, grants and any other agreements specific to the PD/PI or other senior/key personnel’s appointments and employment are required. However, NIH continues to reserve the right to request additional information, as necessary.
More FAQs from the Mount Sinai Research Community

More FAQs on the Biosketch and Other Support requirements have been posted on the Mount Sinai research listserve and are now posted on the GCO website.
Why?
Foreign Interference and the Integrity of Federally Funded Biomedical Research

- One of the driving factors behind the changes is the U.S. Federal government’s concern about possible foreign interference with the integrity of federally-funded biomedical research.

- Example: Investigators operating undisclosed “shadow labs” in foreign countries creating the plausible claim that the work generated intellectual property (IP) outside the U.S.

- NIH has partnered with the FBI to investigate and has sent letters to specific institutional grant recipients inquiring into possible failures to disclose investigators’ foreign affiliations, foreign research support, and foreign components.

- NIH has tightened up its requirements on the Biosketch and OS pages among other changes.
