Top Errors When Submitting an Other Support Page for Due Dates on or after May 25, 2021

1. The NIH Other Support page is substantially different from what many of us are used to. Visit the Grants and Contract Office’s (GCO) resources on our Application Info page for complete information on how to prepare.

2. Please pick either the new NIH Other Support Format or the GCO Interim Format. Don’t mix and match. Now’s not the time to channel one’s inner artist.

3. Grants from appointments outside Mount Sinai must be reported regardless of whether they provide for salary support.

4. Are any postdocs in your lab receiving funding for a fellowship paid directly into that postdoc’s pocket? Remember all outside funding in support of your research needs to be reported.

5. “There’s no overlap.” “Are you sure? Did you read this info from the Dean’s Office/GCO?”

6. Everything is wrong! Please check the details of each entry submitting to the GCO to make sure the information is correct.
