Dear Research Community,

The NIH has very quickly over the past two weeks issued special notices of interest (NOSIs), other notices, administrative supplements, and other funding opportunities related to fighting and curing the coronaviruses. The GCO is providing additional information here to help you choose the right one.

**Administrative Supplements: Funding Opportunity Announcements**

The first two supplements below were already in place and the third one is new. The differences in each are highlighted below.

1. Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional) (PA-18-591)
2. Urgent Competitive Revision to Existing NIH Grants and Cooperative Agreements (Urgent Supplement - Clinical Trial Optional) (PA-18-1035)
3. Emergency Competitive Revision to Existing NIH Awards (Emergency Supplement - Clinical Trial Optional) (PA-20-133)

In reviewing the associated Notices of Special Interest thus far, the NIH is using PA-18-591 to award costs that are within the scope of the approved award and PA-18-935 and PA-20-133 to expand the scope of the active grant.

**Notices of Special Interest (NOSI)**

Please check the NIH site for the most up to date NOSIs. Please be reminded that NOSIs are not stand alone funding opportunities. You must apply to one of the supplemental funding opportunities above or to another funding opportunity listed in the NOSI. Also, if you apply to a FOA and do not include the NOSI # as specified, your application can be rejected. It has happened before. Please carefully review the NOSI and follow all the instructions.
