

Icahn School of Medicine at Mount Sinai (ISMMS)

PI Exit Document

June 2022

This is a standard document that must be completed by Principal Investigators (PIs) who end their employment with the School, whether through resignation, retirement, or termination. The document provides the steps the PI and department will need to complete in order for the PI to officially exit from the School. This document includes important Human Resources information, departmental logistics, and procedures for PIs involved with active research projects. Following the steps outlined in the document will facilitate the transition of the PI from active employment to her/his eventual departure date. This process is intended to assist the School and Departments to be in compliance with state and federal guidelines, providing an efficient and effective means to close out projects and resources associated with sponsored research.
