

The Mount Sinai PEHSU participates in educational, clinical and community activities:

Clinical consultations

- Parents, educators and health care professionals may contact our experts on children's environmental health issues

Educational materials and training

- Lectures and teaching for physicians, fellows and residents on exposure topics

Referrals and Medical Management

- Evaluation and management of children with known or suspected exposure to environmental toxins

Community Outreach

- Seminars for schools and community based organizations
- Development of toxic substances fact sheets for the general public

The Mount Sinai PEHSU responds to a host of topics:

Indoor Pollutants

- Environmental Tobacco Smoke
- Carbon Monoxide
- Mold
- Pesticides
- Volatile Organic Compounds
- Asbestos
- Drinking Water Contaminants

Outdoor Pollutants

- Air Pollutants
- Diesel Exhaust
- Water and Soil Contaminants
- Sun Exposure
- Toxic Waste Sites

Heavy Metals

- Lead
- Mercury
- Arsenic

Adolescent Work Exposures

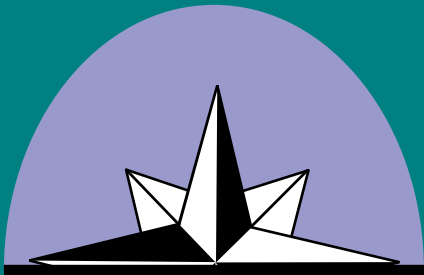

Our experts serve New York, New Jersey, Puerto Rico and United States Virgin Islands

Fellow in Pediatric Environmental Health
- **Mana Mann, MD, MPH**
Fellow in Pediatric Environmental Health
- **Geoffrey Collins, MD**
Fellow in Pediatric Environmental Health

Our Mission:

We provide consultations for children with toxic environmental exposures and diseases of suspected environmental origin. The unit sponsors educational fellowships, research, seminars, and career development and serves as the clinical practice for the Mount Sinai Pediatric Environmental Health Fellowship Training Program.
